ed, only by his mode of applying the various modifications of Electricity.

The Doctor does not wish to convey the impression that he cures all diseases in all conditions; he does not wish to shock the sense of the public by asserting that he can cure pulmonary consumption after the lungs are half decayed, but he plottices himself to cure every case of pulmonary consumption in the early and middle stage, and every other disease where a sufficient amount of vitality remains for reaction.

Electricity is always safe in the hands of an experienced operator. The currents are perfectly under central, and can be regulated to suit the delicate nerves of a child without any unpleasant sensation.

A7s—this popular remedy is fast coming into use from the fact that is gives good satisfaction.

A7s—PHYSICIANS are invited to test its efficacy in all cases of Rhemantism, Affections of the Squid Column, and all Diseases of the Skin, Muscles and thands. It has been used in thousands of instances under the personal supervision of the Inventors, and has never disappointed their expectations. All we ask for it is a trial—experimental proof—not the testimony of the men of straw, are the youches we desire to present to the public.

It would be well for many now lying in belse offorture, if these facts out if reach their sick chambers. It is more important to them than to the inventors that this should be the case. "Truth is mighty and mast prevail,"
