W. Lewis, Editor and Proprietor. Hugh Lindsay, Associate Editor.

Wednesday morning, Mar. 21, 1866. FOR GOVERNOR,

Maj. Gen. John W. Geary. OF CUMBERLAND COUNTY.

County Convention.

At the last meeting of the Union County Committee, the following resolution was adopted !

Riscotyn, That the Châirman of this Committee be and he is hereby instructed to call a convention of delegates from the election districts in this county, to meet in convention the first week in April court, to take into consideration and determine the question of the adoption of the crawford county system of nominating candidates for office, in future; and that the Chairman publish in the county jepers, with the call for the Convention, the manner of making nominations under that system.

In pursuance of this resolution the Union voters are requested to meet at the usual places and elect delegates the Saturday previous to a county convention, to assemble at the Court House

The main features of the system above referred to are as follows:

At the usual time for holding deleensuing election-voting being confined to those known to act with the party. The officers of these elections are usually chosen by the voters present, and are organized in the same manner as Convention at the county seat, and cast up the returns, and the persons having the highest number of votes for the several offices are declared the candidates. These return judges when thus assembled in convention, appoint the County Committee and district ness that would be proper for a county convention. Candidates are usually required to announce their names in the county papers before the primary Reached Canton, 8 o'clock and some elections.

The Convention to be held in April is simply to determine whether this system will be adopted, and should it be adopted the convention will no doubt direct a further publication of rules and regulations prior to the first election under it in August next.

A. H. BAUMAN, Chairman Co. Com.

It is singular what an influence a understanding and actions. Recently there was held in Chicago, an immense the scramble commenced. If everyattended the meeting; and the labor our road we had it rough, and very of hedging became as amusing as it rough. Talk about B. T. R. R., 'tis was vigorous. All were supporters meeting had ever been held-at any rate, few, if any, were willing to say they had attended it. The result has through which we passed was mostly been, the meeting was practically expunged, and a radical, backed by John WENTWORTH, has been appointed Collector of Customs.

Soldiers' Convention .- A convention of soldiers was in the Court House at Harrisburg one day last week. Among other distinguished persona-Owen, Collis, and Collier. Gen. Joshua T. Owen, acted as chairman, and Col. Rogers, of Erie, as secretary. Gen-Harry White offered the following resolutions, which were unanimously adopted:

WHEREAS, Those citizens who have the late civil war, and of assuring the future peace and harmony of the the desires and feelings of the late soldiers of the country cannot fail to have a salutary effect upon the political sentiment of Pennsylvania; therefore,

Resolved, That Maj. Gen. J. F. Hartranft, late of the United States army, and now a citizen of Norristown, hereby requested authorized to issue to the discharged soldiers of Pennsylvania a call for a Soldiers' Convention, to be held in the city of Pittsburg, on a day not later than May 10th, 1866, to be designated in said call; said Convention to be composed of not more than five delegates from each reprein the different districts to be designated in said call.

had a protracted interview with the from time to time, though varying President on the 15th, after which he informed a friend that he should sus different localities, and though change

thousand dollars has been presented to General Sherman, in St. Louis. It is situated on Garrison avenue, near affairs as they now exist. Flanklin, and the lot is eighty-four ieet front by a depth of one hundred and fifty feet.

April.

Letter from the West.

WESTFORD. WISCONSIN, March, '66. MESSRS. EDITORS :- For the benefit of my numerous friends I submit the following from my journal:

night. Feb. 28. Arose at 8 o'clock a. m.,

for Spruce Creek. Arrived on time; my checked and proceeded to Altoona, I proceeded to the city which I reached a few minutes before 1 p. m. The ride was pleasant, and the scenery grand. In the same car I occupied, were two students for the Allegheny college, (penitentiary). They were horse thieves from Bedford Co., Par. Notwithstanding they were manacled they seemed full of glee. I watched their countenances closely and could observe nothing but don't careism exhibited until entering the city, when tears began to trickle down the cheeks of the older. Ah, realization in Huntingdon, at two o'clock, p. m., had taken place! but too late, too late. Wednesday, the 11th day of April next. After leaving the cars, and on my way The main features of the system to the buss, I met Mr. McCord, of S. C., and in company with him left for Meanor House, where we dined. After dinner I called on an old friend, a drug gate meetings the voters assemble and hold an election for candidates for the different offices to be voted for at the almost every description from the yacht to the monitor. The Allegheny wharf was a scene of commotion, loading and unloading the oleaginous subare organized in the same manner as stance. Barrels of oil by the thousat a general election, except that they sands, and empty barrels by the ten are not sworn. The judges of the thousands was a portion of the scensoveral districts soon after assemble in ery before us. In the evening we attended one of the chief places of amusement, which of course is natural. March 1. After dinner left for the the place I concluded to go to Canton, gentleman. From Enon to Columbus conferees, and transact any other busi- I had no ticket, and learned that the ters; there are many who, having al general rule on this road [Pittsburg, Ft. Wayne and Chicago,] was to charge

minutes p. m.

March 2. After enjoying the night's repose and breakfast in St. Cloud Hotel, I preferred the inhalation of a little fresh air and promenaded up Tuscaroras street. My opinion of this place is recorded in my lexicon of beautiful. The sweet notes of the blue bird, and the familiar pipings of the red breast, greeted me on every side. A regular spring morning. Imagine my surprise when discovering the peach trees almost in bloom. In my wanderings I came to an old dilapidated brick buildsingle vacant office will exert on men's inginquired of a stranger what it was(?) understanding and actions. Recently He informed me, the Court House. Always eager to learn points connected with the legal profession I entered in meeting to denounce the President. and found court in session. The room There appeared to be a scramble to resembled that of an underground res many parts of the south, in saying make sure of being present, and fierce taurant more than a court room. Re that a great drawback to progress is was the struggle among the leaders to took the 12 40 p. m., for Chicago. Be which they have so long been kept by get on the record for denouncing the tore leaving Canton allow me to in- Cangress. President in the hardest terms. Soon form you they are boring for "ile" in after the Collector of the port died; of the neighborhood. Unlike our oil seekcourse, the vacancy has to be filled - | ers-1 refer to an engine-they use horse power, having to await the inbody was to be believed, nobody had cration that. But now to Chicago. On pleasant, to this road. Notwithstanding I had a berth in a sleeping car I of the President, nobody had opposed tried to sleep in various positions, but him. Affidavits were freely made, and all in vain. Sometimes I would rest in view of what was set forth in them, my head on my right arm, sometimes it became doubtful whether such a on my left; sometimes setting up, and sometimes laying down considerably spooned. Arrived at Chicago 7 o'clock, Saturday at noon. The country

[From the New York Times.] The Present Aspect of Affairs in the

under water and presented a very

South. Important though the question of ges present were Generals. White, tives may be, and deserving of our earnest attention as may be the polittelligent study. We hear it often enough said that the revolution or revulsion in the South was industrial, Whereas, Those citizens who have social, and moral, as well as military borne arms in defense of the life of the and political; but popular attention nation, have peculiar interests and during the war was concentrated alfeelings in the present posture of the most exclusively on the military situapolitical affairs of the country, and are | tion, and since its close has been condesirous of securing proper results of tred almost entirely on the political situation. These two had aspects more easily recognized as rational than the Union; And whereas, An expression of others, and their immediate interest was far more extensive. But, after all, the question which for some time past have come closest home to the Southorn people, and which are most frequently asked and eagerly canvassed,

are of the social or an industrial char-"How do affairs move along in your neighborhood?" "What are the prospects of the crops or of business?"how about your negroes, and what is their behavior, and how do they work?"
Inquiries akin to these are the daily and hourly subject of conversation than five delegates from each repre- among the Southern people. To enable sentative district of the State; the our intelligent readers to inform themmanner off selection of such delegates | selves on these, as well as on political matters, we have our correspondents traveling through the South or stationed at various important points, Gov. Curtin, of Pennsylvania, and the letters we publish from them ing with the passage of months and the circumstances of the hour, yet, on House worth twenty-five the whole, have sufficient unity to allow us to draw from them certain gen-

Firstly, we find that the two races and the failure to pass the Constitu-"get along" much more agreeably in their relations than could have been construction Committee, adds to the The Senate and House have agreed anticipated. At first, or immediately to adjourn, finally, on the 12th of after the close of the war, it seemed as

lish industry upon a profitable or satisfactory basis. This was followed by apprehensions on the part of the whites their slave property and at the "airs" assumed by the negroes. But with and breakfasted at 4 ½. Bade the folks the passing away of last year, and the farewell and took the 4 5½ a. m. train fears that hovered around its closing days, seem to have come a better conbaggage being at the station I had it dition of feeling all around. With the whites, all but the rememberance of expecting to take the next train, as I their former property in the negroes presumed it would reach Pittsburg has now passed away. No thought first, but ascertaining to the contrary of any future assumption of past relaof any future assumption of past relations is entertained. The feelings of Printed, On the most reasonable terms humanity and interest are beginning to assert themselves over the antagonisms of race, and it is found to be actually possible to have a free socie ty of mixed races without those con comitants which were formerly looked on as essential parts of it. The blacks, too, have come to understand themselves better, and their relations and place in the social organism. They have found out, during their year of freedom, what is essential to their well-being now and hereafter, and have become dispossessed of the fan-cies which ignorance had engendered in their heads. Both parties see that they must live together, and feel the importance of their doing so on friendlv terms.

Very closely allied to the mutual feelings of the two races are their industrial relations. And we find that ny wharves. In the harbor of the as the one has improved the other has Monongahela could be seen vessels of grown better. It is very hard to generalize on this point concerning a region of country so vast as the South out only on Sunday last, we published letters written at many and at the most distant parts of it, by different observers, and there is a uniformity o agreement on the subject that could come only from a condition of things essentially similar in all parts. From Virginia to Texas, from Missouri to Florida, at the cotton culture, at farm Depot. Left Pittsburg at 2 48 p m., work, and at general industry, there bound for Enon, Ohio. After reaching has been a rapidity of industrial reorthe place I concluded to go to Canton, ganization, according to the new forms, Stark Co., Ohio. (The conductor protein is as gratifying as it was nexved an agreeable and accommodating peeted. There are lazy, idle, and worthless negroes enough in all quar ways having been accustomed to work under the lash, now refuse to labor altogether; but in broadly generalizing for a whole race so widely scattered siderable difference in a few miles,] as this one, we but give the conclusion from a vast amount of testimony, in saying that the extent to which indus try has already been reestablished is such as to secure the labor of by far the greater part of the working population of the South. The blacks will plant and raise a very great breadth of cotton this year—probably at least two thirds as much as in the years before the war; and when once they have gotten into the ways of free labor, and have come to enjoy its rewards, there is no fear of their going backwards in

the future. the future.

While we are able to write thus hopefully, however, on the social and industrial rehabilitation of the southern States, as it appears at this time, we but chronicle what we hear from we but chronicle what we hear from It affects them in many ways other than political, and prevents them from settling down steadily and permanently to the ordinary duties of ife, with a fixed political order and assured political privileges.

Washington Topics and Gossip.

RECONSTRUCTION. Prominent financiers, in Boston New York and Philadelphia, are en-deavoring to reconcile the existing differences between the Executive and Congress. These gentlemen take the ground that the country needs repose, and that should a financial panic now be brought about by political discussions, the result would be disastrous. Already have the Union Senators met in caucus to see whether a Constitutional amendment cannot be framed upon which they can again unite, and there are many other indications of a desire to harmonize existing differences. Of course, the very ultra Democrats and Republicans are doing all in their power to prevent this, but Important though the question of admitting the Southern Representatives and descriptions the President Johnson is appointing to of fice loyal men, whether recommended by those Unionists who support him ical relations of these States, there are or those who denounce him. Neither other than political matters in the is he giving "aid and comfort to the Southern States which merit our in- (Democratic) enemy," by favoring telligent study. We hear it often them with the loaves and fishes. In deed, it is rumored that he declares his determination to do all in his power to promote the election of General Geary as Governor of Pennsylvania, although Mr. Forney so prejudiced the Republican Convention against him that they almost treated him uncivilly.

MORE CONSTITUTIONAL AMENDMENTS. Several new propositions to amend the Constitution have been offered in both branches of Congress within a day or two, and it is expected that those offered in the Senate will be voted on next Thursday. There is very little chance, however, of a two-third majority. Five or six Republican Senators refuse to vote for any proposition but that suggested by the President, and originally introduced into Congress by Mr. Schenck, of Ohio, last year—the proposition for basing representation directly upon voters. it is impossible to get a two-third vote in the House for this proposition, as it reduces the number of representatives in New England, New York and Pennsylvania. The Senate will try very hard to obtain a two thirds vote for some proposition before the week ends, and if it fails, it will be generals ly admitted here that it is hopeless to attempt to carry any amendment relating to representation.

The majorities in the Senate and the House are in a decidedly demoralized state as to what is to be done. The Freedmen's Bureau Bill was vctoeral conclusions as to the condition of ed—the Civil Rights Bill can only be passed in an emasculated conditionand the failure to pass the Constitu construction Committee, adds to the embroglio. If the President has not the "GLOBE Jon PRINTING CFFICE," at Hunafter the close of the war, it seemed as if an ill-feeling was about to spring up, gress is making no headway in estab-

and asifit would be impossible to establishing its policy, and the most sagacious politicians at the Capitol see plainly that something must be done. A Constitutional amendment for which a of insurrectionary outbreaks by the two thirds majority could be secured, negroes. The blacks seemed to enter would be preferable, but if that cans tain some sort of a vague notion that, not be found some practical legislation Tuesday, Feb. 27. Left the Seven with their freedom, they were entitled on reconstruction must be introduced, Stars at 4 p. m., for Spruce Creek; articled and took the 7 p. m. train for fine things in general. The whites felt Huntingdon where I remained over more or less chagrin at the loss of promising repose and prosperity.

ANY DAY IN THE WEEK, ON SHORT | REVENUE EXTENSION SILVER MINING CO. OF NEVADA.

CAPITAL STOCK, - \$500,000 Divided into 50,000 shares at \$10 each.

OFFICERS-Hox. GEORGE P. FISHER. Judge of the Supreme Court, Washington, D. C. preme Court, Washington, D. C. ICE PRESIDENT—T. S. EMERY, Philadelphia. PREASURER—E. B. HARPER, Of Harper, Durr Bankers, Philadelphia Secretary—Louis R. McDonough, Philadelphia. Superintendent at the Mines-D. S. CHILDS, Min Engineer, Austin, Nevada.

OFFICE-No. 55 South Third Street, Philadelphia.

Silver Mining Profitable.

That the business of Mining and reducing silver quartz is immensely profitable, is amply attested by the results which have accrued from the mines of Mexico, Pru, Germany, and other silver-baving countries, and that Silver lodes are remrykably rich, as well as numerous, in Nevada, we have the testimony of such eminent and disinterested man as likihop Simpson, Prof. Silliman, Prof. James, Hon. Hornee Greeley, Speaker Colfax and Senator Nye, who personally visited and inspected the mines, besides hundreds of other individuals whoare now engaged in the business of mining in that State. Prof. Silliman, whilst in Nevada, activered a lecture in the city of Austin, during which he said: "We cannot count upon the time when mining will cease to be profitable in these hills?"

Bishop Simpson, of the Methodist Church, in a lecture delivered in the city of New York, after his return from Nevada, said: "Were the debt of our nation \$20,000,000, there is weath enough there, when our debt is paid off, to give to every soldier who returns from our battle-fields musicies of silver instead of from. \* \* I do not speak now from idle speculation, but I speak of that wealth from observation and ctual calculation.

What Dividends may be Expected

What Dividends may be Expected What Dividends may be Expected

As to the amounts of dividends that may be reasonably
expected from a Silver Mining Compuny, operating in
Nevada, it may be set down as ranging from 100 to 1000
per cent. per annum, according to the progress made in
the mines, and the quantity of machinery at work.

Huspers' Amolhyl Magatine for August contained an article on "Nevada," which, with reference to the profits of
cilver mining, said: "If the mine be of even average
value it can searcely fail to return from ten to 20 per
cent. per month to the invester; and silver mines are unlike gold mines, in that they are hexhaustible, and may
be worked for generations when once opened?"

A recent issue of the Philadelphia Ecening Telegraph,
speaking on this subject, says: "The mining statistics
of Kevada show us that whenever worked with proper appliances, and under judicious management, these mines
have paid from 30 to 800 per cent. per annum upon the liances, and under judicious management, these mines are paid from 3.0 to 800 per cent. per annum upon the

What other Companies are Doing. What other Companies are Doing.

There is not a single Company now in operation with their own machinery in Nevuda, as fur as we have learned, that is not a complete success. All are returning not only large, but Exhausts. Biridlereds, and the prices of their shares have correspondingly advanced. For instance, on March 2d, the stocks of the older Companies were quoted in the city papers as follows: "Gould & Curry. S50: Savege, S115: (Dollar Potots, S205; Imperial, \$117: Crown Point, \$1,010; Alpha, \$220, Yellow Jacket, \$130." The original piec of these stocks was less than \$50-some of them only \$10. And the Companies more recently organized are not a whit less pro-pecua, but as far as progressed give every promise of an ultimate success encorparies than that achieved by the Gould & Curry, For example, the stock of the Halo & Norcross Company of Nevada, which a few months ago was worth only \$10, is now quoted at \$1,150. So, also, the Beston and Reess (tiver Mining Company, which commenced work only last full: it as shares, though originally sold at \$10, soon went up to \$109, and on the less of March had advanced to \$200.

The Natural Conclusion.

The Natural Conclusion It may therefore be safely asserted that no other enterprise, requiring the association of capital, offers so many inducements for investment, with so little risk, as Silver Mining. Every Company that wors a mine, and would horself yo to work MET DE ASSOCIATION for the only difference between companies at work will be in the amounts of their dividends.

THE REVENUE EXTENSION SILVER MINING COMPANY Are the other of NINETERN (19) valuable LEDGES or MINES, amounting to 41,000 linear feet (the chief of which is the lovenue Extension Lead, one of the richest over discovered in that district), all of which are situated upon the celebrated Lander Hill, near Austin, Nevada. The Hopkins' Tunnel, which commences at the foot of Lander Hill, and will pierce the hill from side to side, running at right angles with the Siver Veins, and will cut in its course upward of one hundred and fifty mines this number b-ing already located), is also the property of this company. Work upon this tunnel is being pushed forward with energy, and has already reached upward of three hundred foot.

The Superintendent telegraphs from Austin, Nevada, under date of February 22, 1866, as follows:

"At work on Revenue Extension Mine; ore taken out to-day assays \$16.75 to the ton. Work on Hopkins Tunnel advanced 70 feet since lost dispatch (February 2)."

And agdin, under date of March 5th, as follows:
"Receipts in bullion \$1,000. Tunnel advanced 100 feet, Revenue shaft 20 feet."

What Others Say about 15.

What Others Say about it.

What Others Say about it.

The Philadelphia Connervial List, of March 3, contains a letter from one of its correspondents, dated Austin, Nevada, February 5, 1856, which says:

"At the lower extremity of the city of Austin—quondam Cliffou—where Pony Canon debouches into Reese River Valley, a project has been commenced, which, it carried out in accordance with the plan of those who conceived the scheme, will prove one of the most magnificent works of the day, and which cannot fail to hundsomely reward those who push it to completion. I alinds to the Hopkins Tannel. The fevenue Extension Mining Company, owning this Tunnel, have a series of ledges lying parallel with each other, lecated upon the hill, at the foot of which this work commences, and will cut at nea-ly a right angle each lode with which it comes in contact throughout its entirelength, and they can be numbered by the score—the hill being literally seamed with them.\* As this great work progresses, view after vein of the rock hearing the precious metal will be crossed, at a dopth sufficient to render their working profitable, each in succession being cut at a greater dopth from the surface than the precoding one, owing to the rising of the hill in which they are located. Upon these velus, after they are crossed working near he or greater of the correct working profitable, each in succession being contact a greater dopth from the surface than the precoding one, owing to the rising of the lill in which they are located. Upon these velus, after they are crossed working can be or considered the surface than the precoding one, owing to the rising of the lill in which they are located. Upon these velus, after they are crossed working near he or considered the surface than the precoding one, owing to the rising of the lill in which they are located. Upon these velus, after they are crossed working near he are considered to control. The Success of the Company Certain.

The Success of the Company Certain. The Success of the Company Certain.

It is thus apparent that the Revonus Extension Silver Mining Company have progressed to far in their operations that success is not only certain, but actually at the door. Before the close of the conting summer—perhaps by the mibilit—it will be ranked amongst the DIV IDNAD PAYING companies, and its stock will, in all probability, advance to \$23, \$50, or perhaps even \$100 per share—Therefore, now is the time to biczek. Only a small portion of the working capital yet remains unsoid, and the Directors are auxious that it should be disposed of immediately, in order that there may be no delay in the prosecution of the work in hand. Hence this advertisement.

MILNWOOD ACADEMY.

A SCHOOL FOR YOUNG LADIES and GENTLEMEN The next session of this Institution will open on TUES.
DAY, the 10th of APRIII, and continue a term of eleven
weeks. The low terms on which students will be accommodated, together with the healthy location of the institution, the few inducements to vice and extravaguace,
and the strict moral character of the surrounding population—all conspire to give it a decided advantage over
similar Institutions and make it a desirable place for the

ALLEGHENY MALE AND FEMALE SEMINARY RAINSBURG, BEDFORD COUNTY, PA. I. W. Hug nes, Principals and Proprietors.

The Spring Quarter of this Institution will open TUESDAY, APRIL 10th, 1868. This Jarnite of this Institution will open TUESDAI, APRIL 10th, 1868.

This Institution is very pleasantly situated in Friend's Cove, 8 miles from Bedford, the termines of the Huntingdon and Bedford Railrond, and 24 miles from Cumberland a station on the North Central Railroad. Rainsburg is a small, quiet, and exceedingly healthy town, in the midst of beautiful scenery, and sufficiently removed from the influence of large towns and cities to reader it a most desirable location for a Literary Institution. Its Inhabitions to vice, lideness or dissipation; situated in a ried agricultural section, this Institution for Young Ladies and Gentlemen, is decidedly the cheapest in the country. It is organized on the most approved plan of the best Institutions of the land; its main object is, to impart sound learning. All branches, Scientifical, Classical, and Ornamental, taught. The mental and moral culture are carefully attended to, and (without sectarian prejudices) a due respect for religion is inculented both by precept and example "In things necessary, unity; in things doubtful, liberty; and in all things, charity."
