And this measure is urged and endorsed by Sumner, Wilson, Greely, Forney, & Co., we should not intimate an opposition by the people.

When the bill to incorporate the Conuclisville and South Pennsylvania Railroad was introduced in the Senate, alter it had passed the House, Senator Householder discovered that no definite period was mentioned in the act for the completion of the road. He therefore moved an amendment providing that the construction of the road shall commence one year from the passage of the act authorizing said road, and that it must be completed in eight years. Much vexation and pecuniary loss, perhaps, is thus saved to stockholders by the foresight and sagacity of Senator Householder.

The bill providing for the restoration of the fisheries in the Susquehanna river and its tributaries, and which passed the House by a decided vote is now before the Senate. The majority if not all the people interes ted are desirous that the bill should become a law, and it is hoped that the Senate will vote with this understand. ing.
