Farmer's Wives.

Farmers cut this out and paste it on your kitchen doors:

It is, perhaps, safe to say that on three farms out of four the wife works harder, endures more than any other on the place; more than the husband, more than the farm hand, more than the hired help of the kitchen. Many a farmer speaks to his wife habitually in terms more imperious, impatient, and petulant than he would use to the scullion of the kitchen or to his hired man.

Many a farmer's wife is literally worked to death in an inadvertant manner, from want of reflection or consideration on the part of her husband. None can understand better than he, in plowing or sowing, or harvest time, that if a horse gets sick, or runs away, or is stolen, another must be procured that very day; or the work will inevitably go behindhand. He does not carry the same practical sense into the kitchen when the hired help leaves without warning or becomes disabled, although he knows as well as any man can know that they will expect their meals with the same regularity, with the same promptness, and with the same proper mode of preparation; but instead of procuring other help on the instant, he allows himself to be persuaded, if the help is sick, she will get well in a day or two, or a week at farthest, and it is hardly worth while to get another for so short a time. If the help has taken "French leave," his mind fixes on the fact that it is a very busy time and neither he nor a single hand can be spared, or that, in the course of a week, some one will have to go to town for some other purpose, and both these matters can be attended to at the same time. Meanwhile the wife is expected not only to attend to her ordinary duties as usual, but somehow or other to spare time to do all that the cook or washerwoman was accustomed to do, that is, to do the full work of two persons, each one of whom had already quite as much labor to perform as she could possibly attend to. The wife attempts it. By herculean efforts all goes on well. The farmer perceives no jar, no hitch in the working of the machinery, and because no complaint is uttered, thinks that everything is going on without an effort. Meanwhile time passes, and infinite shame on some of them; they begin to calculate how much has been saved from servants wages, and how much less food has been eaten, and because still no complaint has been made, the resolution quietly forms in the mind to do nothing until she does complain; but before that takes place, she falls a victim to her over-exertions, in having laid the foundation for weeks and months of illness, if not of premature decline and death.—*Dr. Hall.*

To FATTEN FOWLS.—It is conceded that the fowls of France are the fattest and whitest in the world. The method for preparing them for the market is this:

Fifteen days before they are to be killed they feed them with dough made of wheat flour of the previous year, with ten grammes of salt to every quart of water, and three or four small gravel stones to mouthful of dough. Twelve hours before they are to be killed they should scarcely eat anything, in order to leave the intestines empty, and thus avoid the acid fermentation, which would produce decomposition, and make it impossible to transport them any distance.

Not a feather should be plucked till the fowl has been thoroughly bled, which is done without cutting off the head. So long as the blood is in circulation, each little fescicle at the root of the feather is filled, and causes spots if this is plucked till it is entirely drained. If they are killed immediately after eating, they will keep only eight days; but if they have fasted twelve hours, they will keep fifteen days.

POULTRY.—Whoever will give proper care to early chickens, may set the hens as early as the first of April. Early chickens are particularly useful as insect killers, for the first insects are the parents of future swarms. Give seldom more than 13 eggs. Select those of perfect form, of medium or not extra large size, and strong shells. Mark each egg with a lead pencil, and on several put the date at which they are put under the hen. Let hens lay in movable boxes, so that when they begin to set they may be removed away from the laying hens. Feed regularly, and keep water always before them. Feed may always be kept before setting hens if rats are not troublesome. Turkeys should be confined and made to lay at home in a low box or basket, where they can be controlled, so that when their young hatch they may be kept in doors for a week or ten days, as they are very apt to die if they get wet. Set Ducks' eggs under hens. Geese take care of themselves, but should not be forced to go far for food while sitting.—*Agriculturist.*

To GIVE ONIONS AN EARLY START.—Mr. H. Benjamin, of Ontario county, gives the following method of preparing onion seed for planting:

"About the first of April I put my seed into blood-warm water, set it where it will not freeze, and let it remain from twelve to fifteen days. I am careful to have the water always cover all the seed. In two or three days one can tell if the seed be good by the strong onion smell it will emit in case it is all right. I drain the water off from the seed, and stir amongst it some plaster, keeping it, however, a little moist and warm. At the end of three days the seed will have thrown out sprouts [illegible] inch long. I then plant it, covering about half an inch deep with earth, and in six days one can see the rows."

THE FARMER who improves his leisure in gathering information—thinking, planning, and resolving, will in his prosperous career, leave far behind him who neglects to improve his mind, and who never *looks ahead.*

GRAIN that has been injured and become musty, unless its gluten is destroyed, may be restored to nearly its original sweetness by pouring boiling water over it and permitting it to stand till cool.

COURT AFFAIRS.

APRIL TERM, 1866.

PROCLAMATION.—WHEREAS, by a precept to me directed, dated at Huntingdon, the 20th of January, A. D. 1866, under the hands and seal of the Hon. George Taylor, President of the Court of Common Pleas, Oyer and Terminer, and general jail delivery of the 24th Judicial District of Pennsylvania, composed of Huntingdon, Blair and Cambria counties; and the Hons. Benj. F. Patton and Anthony J. Beaver, his associates, Judges of the county of Huntingdon, justices assigned, appointed to hear, try and determine all and every indictments made or taken for or concerning all crimes, which by the laws of the State are made capital, or felonies of death, and other offences, crimes and misdemeanors, which have been or shall hereafter be committed or perpetrated, for crimes aforesaid—I am commanded to make public proclamation throughout my whole bailiwick, that a Court of Oyer and Terminer, of Common Pleas and Quarter Sessions, will be held at the Court House in the borough of Huntingdon, on the second Monday (and 9th day) of APRIL next, and those who will prosecute the said prisoners, be then and there to prosecute them as it shall be just, and that all Justices of the Peace, Coroner and Constables within said county, be then and there in their proper persons, at 10 o'clock, a. m. of said day, with their records, inquisitions, examinations and remembrances, to do those things which to their offices respectively appertain.

Dated at Huntingdon, the 14th day March in the year of our Lord one thousand eight hundred and sixty-six, and the 90th year of American Independence.

JAS. F. BATHURST, *Sheriff.*

PROCLAMATION.—WHEREAS, by a precept to me directed by the Judges of the Common Pleas of the county of Huntingdon, bearing test the 20th of January, A. D. 1866, I am commanded to make public Proclamation throughout my whole bailiwick, that a Court of Common Pleas will be held at the Court House in the borough of Huntingdon, on the 3rd Monday (and 16th day) of APRIL, A. D., 1866, for the trial of all issues in said Court which remain undetermined before the said Judges, when and where all jurors, witnesses, and suitors, in the trials of all issues are required.

Dated at Huntingdon, the 14th of March, in the year of our Lord one thousand eight hundred and sixty-six, and the 90th year of American Independence.

INK. INK. INK!

NOTICE

To Merchants and Business Men.

THE undersigned having recently been appointed agent for the New York National Ink Company, hereby gives notice to merchants, business men, and to consumers of all classes that he is prepared to supply the market with an article of Ink which in addition to being the best in use, is emphatically the cheapest ever offered for sale in this country.

It neither corrodes the pen, nor moulds the inkstand, is of a rich bluish tint, flows freely, and is *perfectly indelible,* giving it advantages not possessed by any other Ink, whether of foreign or domestic manufacture. This Ink contains no sediment and will not therefore, thicken as most inks do, the last drop being as thin and clear as the first.

☞ All orders whether wholesale or retail, will be promptly filled, at lower rates than as good an article can be purchased in the cities or elsewhere. Persons who entertain doubts as to the superior quality and cheapness of this Ink are respectfully entreated to give it a trial John H. Clark, sub-agent will canvass the county for the purpose of introducing this Ink.

PRINCIPAL BRANCH OF THE NATIONAL INK COMPANY, OF NEW YORK. }

Mr. SIMON COHN, P. M., having been appointed salesman and general agent, is the representative of the above company for the county of Huntingdon, State of Penna., as per contract, all parties therefore, whether having dealt with us previously or otherwise, will please avail themselves of the advantages of dealing directly with the representative of our house here; they will find it to their pecuniary interest to do so.

G L. VAN ALLEN, Actuary.

The above Ink is for sale at Lewis' and all the principal stores in the county.

DR. VENARD'S

STAR MAGIC LINIMENT.

$1000 REWARD will be paid for any medicine that excels this for the following diseases:

Rheumatism, Neuralgia, Spinal Affections, Contracted Joints, Cholic Pains, Pains in Side or Back, Toothache, Headache, Sprains, Sore Throat, Cuts, Bruises, Burns, and all Diseases of the Muscles, Skin and Glands.

This is an Internal and External Medicine, composed of Roots, Herbs and Barks such as our forefathers used.—There is a bountiful supply on the earth to cure all complaints, if we only knew what they were. This has been a subject for constant study with the Medical Faculty for a great many years, to find out the kinds best adapted to the above complaints—how to put them together, and what portions to use.

This wonderful remedy needs no recommendation save the results which invariably follow its application.

☞ This popular remedy is fast coming into use from the fact that it gives good satisfaction.

☞ PHYSICIANS are invited to test its efficacy in all cases of Rheumatism, Affections of the Spinal Column, and all Diseases of the Skin, Muscles and Glands. It has been used in thousands of instances under the personal supervision of the Inventors, and has never disappointed their expectations. All we ask for it is a trial—experimental proof—not the testimony of the men of straw, are the vouchers we desire to present to the public.

It would be well for many now lying in beds of torture, if these facts could reach their sick chambers. It is more important to them than to the inventors that this should be the case. "Truth is mighty and must prevail."

☞ Keep it in your family, for sickness comes when you least expect it.

PRACTICAL BUSINESS EDUCATION.

All classes of persons require such an education. Those possessing means, need it in conducting *their own* business Those without means need it in obtaining and creditably filling lucrative positions in the *employ of others.*

The course of instruction and practice is arranged so as to fully meet the diversified wants of every department of

DOMESTIC AND FOREIGN TRADE,

as comprehended or embraced under the three general divisions of industry: Agriculture, Manufacture and Commerce.

Each student is instructed individually in both theory and practice of Book Keeping, according to the most approved and labor saving methods, Business Penmanship, Calculations, and all the collateral branches of a complete course of business education; and upon passing a satisfactory examination is awarded, by authority of law, a diploma, under the corporate seal of the college.

Students are received at any time. And it is believed that a practical experience of over TWENTY YEARS will be considered by the public an ample guarantee of the practical character of the course and efficiency of the instruction.

All further information desired can be obtained at the college, or by addressing the Principal for a circular by mail.

☞ A liberal discount is allowed to wounded and honorably discharged soldiers. The college is open day and evening.

NEW SKIRT FOR 1866.

The great invention of the age in

HOOP SKIRTS

J. W. BRADLEY'S New Patent Duplex or double, ELLIPTIC SPRING SKIRT.

This invention consists of Duplex (or two) Elliptic pure refined steel springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most flexible, elastic and durable spring ever used. They seldom bend or break, like the single springs, and consequently preserve their perfect and beautiful shape more than twice as long as any single spring skirt that ever has or can be made.

The wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded assemblies, operas, carriages, railroad cars, church pews, arm chairs, for promenade and house dress, as the skirt can be folded when in use to occupy a small space as easily and conveniently as a silk or muslin dress.

A lady having enjoyed the pleasure, comfort and great convenience of wearing the duplex elliptic steel spring skirt for a single day will never afterwards willingly dispense with their use. For children, misses and young ladies they are superior to all others.

The hoops are covered with 2 ply double twisted thread and will wear twice as long as the single yarn covering, which is used on all single steel hoop skirts. The three bottom rods on every skirt are also double steel, and twice or double covered to prevent the covering from wearing off the rods when dragging down stairs, stone steps, &c., which they are constantly subject when in use.

All are made of the new and elegant corded tapes, and are the best quality in every part, giving to the wearer the most graceful and perfect shape possible, and are unquestionably the lightest, most desirable, comfortable, and economical skirt ever made.

Wests' Bradley & Cary, proprietors of the invention, and sole manufacturers, 97 Chambers, and 79 and 81 Reade streets, New York.

For sale in all first-class stores in this city, and throughout the United States, Canada, Havana de Cuba, Mexico, South America, and the West Indies.
