Brief Items. -Breeding cages for canary birds nust received and for sale at Lewis's. -Fourteen keepers of lager beer

saloons and restaurants of Hollidaysburg, have been returned for violations of the liquor laws. -The town was very much throng-

ed with people the first part of court week, but the crowd dwindled away towards the end. -A convention of the School Direc-

tors of this county will be held in the Court House, on Tuesday, the 1st of May, for the purpose of electing a Co. Superintendent. Oh, \$1000 a year. Our townsman, Hon. A. W. Ben.

edict, Chief Clerk of the House, at the close of the session of the Legislature was made the recipient of a gold-banded tea set, from Democratic members -Our young friends Adjt. John A.

Willoughby and Capt. Charles Hildebrand started for the west last week. regions of Nevada, or some other 'ada.' -John Westbrook has received a

large supply of Boots and Shoes, Hats and Caps, &c. He is selling off his entire stock at greatly reduced prices .-Give him a call and see for yourselves. -Our merchants have received and

opened their spring and summer stock of goods, which they are selling at the House at Huntingdon, on Saturday lowest reasonable rates. For their the 28th inst., at 1 o'clock P. M. lowest reasonable rates. For their names and inducements read our advertising columns.

-Wehereby tenderrenewed thanks to the gratifying many distant friends and patrons who called last week at our desk to pay up for the past and in advance for the future. We have sufficient time and room to attend to more of the same sort.

-The steamer Etna again plies on the canal, making her regular trips .-It is not certain whether the company will run another boat, but our humble opinion is that it would pay better if they would.

-A little daughter aged about two vears of Mr. John McCabe, of this still "about town," and still offers Piaplace, met with a serious accident last week by upsetting some hot coffee circular giving us the testimony of men over her hands and arms, which scal who stand the highest in the musical ded her so badly as to result in her

organized at Mill Creek on Friday eve- These men attest that Steek's is a thoning last. Seventeen persons were initiated. A temperance meeting was held last Monday evening at Hopewell preparatory to instituting another lodge of the same order. Mr. B. M. Greene was one of the speakers.

-On Sunday last when an engine pulled a train of loaded stock cars on Railroad street, bound eastward, the sudden start snapped asunder one of the cars, containing a load of swine .-No injury was done further than the breaking of the car which was immediately repaired, and keeping the pigs so much longer without their feed.

-We direct the attention of Huntingdon county soldiers to the card of soldiers, calling a meeting on the 28th inst., to organize a Soldiers' Union Campaign League. This subject should meet with the prompt consideration and earnest co-operation of every Union soldier in the county, and for the good of the brave men we would suggest that the League be a permanent organization.

-J. S. Beyer, our quondam army correspondent, in a private letter dated Lewisburg, West Virginia, states that he is again in the south, and tho' not this time carrying a musket, he is on a campaign against rebels. He is there as a preacher in the service of the Meth. Epis. Church. He represents the town as intensely rebel, but that they are in a very tight place, which may be one reason, he adds, why they squirm so much. We trust he will carry the enemy's works.

-Mr. Ulrich Paul, favorably known in this community, who was engineer on the Phila. & Erie Railroad, was instantly killed on Tuesday last by his locomotive running against a rock which had fallen on the road, that crushed the engine, throwing Mr. Paul down a high embankment, bruising him and injuring him internally. He was brought home, and interred on Friday afternoon with Masonic honors, of which order he was a member. He leaves a wife and three children.

-The gallows used in the execution of Frecke, Marshall and Mrs. Grinder, in Pittsburgh, is to be brought to Ebensburg for the purpose of hanging rewarded by leaving it at Simpson, Houser and Buser, on Friday next.-Both these men continuo to declare their innocence. The latter, on Tuesday night, attempted to commit suicide by opening a vein in his arm, but having made the attempt in a standing position, the noise of his fall when he fainted attracted the attention of the watchman and thus frustrated his de-

CONVENTION.

Soldiers' Union Campaign League MEETING ON THE 28TH INST.

Soldiers:-There can no longer be any question as to our citizenship. The any question as to our citizensaily. The great privilege of the elective fran-chise, which our copperhead enemies would have denied us, and which was secured for us by the patriotic exertions of our Union friends, has been rendered doubly sure by the overthrow of the Rebellion, and our return from the field. With this truth before us, that our political freedom has been obtained through the defeat of a cowa duty incumbent upon us to employ loyalty and justice, and in the interests of our Commonwealth and of the whole country. We should take every occasion that presents itself, and should use all the efforts of which we are capable, to make our sentiments publicly known, and believing that a great mass of the people are willing to repose confidence in us, we may feel that a free

and full expression of our views will not be without its weight.
In Major General Geary the Union party has a candidate whom we, as soldiers, should openly endorse. Relying upon the candor and judgment of the country, we should endeavor to make every man familiar with his record, and with that of his opponent, who is the representative of all that is vile in copperheadism, and in the comparison of the soldier with his antagonist, each individual can see which way duty and honor point him to go.

Our sister states, New Hampshire, Connecticut, and Rhode Island, have beaten for us a path in which we may easily follow. It may never be known how much is due to our returned soldiers for those glorious victories, nor how much more they might have accomplished had they labored together They are going to "squat" in the gold in an association such as we propose to form here.

For the furtherance of our object, as indicated above, the undersigned hore-by request all soldiers, residents of Huntingdon county, who have been honorably discharged from the service, and who are willing to give their aid and co-operation in the organization of a Union Campaign League, to meet with us in Convention, in the Court

There can be no doubt, they add, that they certainly rank among the very best pianos manufactured, and they recommend them to the public as most excellent and first-class instruments. The evidence of these men who excel in the profession, is better than any comments of our own, and the fact that Steck & Co.'s instruments are used by Artists on more public occasions, in Philadelphia, than all other instruments united, is the highest praise that can be bestowed upon them. Silver Mining Profitable.

That the business of Mining and reducing silver quartz is immensely profitable, is amply attested by the results which have accrued from the mines of Mexico, Peru, Germany, and other silver-bearing countries, and that Silver lodes are remarkably rich, as well as numerous, in Nevada, we have the testimony of such entinent and disinterested man as Bishop Simpson, Prof. Silliman, Prof. Amer. Hon. Horace Greeley, Speaker Colfax and Senator Nye, who personally visited and inspected the mines, besides hundreds of other individuals who are now engaged in the business of mining in that State. Prof. Silliman, whilst in Nevada, delivered a lecture in the city of Anstin, during which he said: "Were anote count upon the time when mining will ceare to be profitable in these hills!" Bishop Simpson, of the Methodiat Church, in a lecture delivered in the city of New York, after his roturn from Nevada, said: "Were the debt of our nation \$20,000,000, there is wealth enough there, when our debt is paid off, to give to every soldier who returns from our battle-fields muskets of silver instead of iron. * * 1 do not speak now from idle speculation, but I speak of that wealth from observation and chall education.

What Dividends may be Expected Silver Mining Profitable,

What Dividends may be Expected What Dividends may be Expected
As to the amounts of dividends that may be reasonably
expected from a Silver Mining Company, operating in
Nevada, it may be set down as ranging from 100 to 100
per cent. per annum, according to the progress made to
the mines, and the quantity of machinery at work.

Harpers' Monthly Magnatine for Augustine to the profits of
of silver mining, said: "If the mine be of even average
value it can scarcely fail to return-from ten to 20 per
cent. per month to the invester; and silver mines are unitike gold mines, in that they are inexhaustille, and may
be worked for genorations when once opened."
A recent issue of the Philadelphia Exening Telegraph,
speaking on this subject, says: "The mining statistics
of Nevada show us that whenever worked with proper appliances, and under Judicious management, these mines
have paid from 300 to 800 per cent. per annum upon the
capital invested."

What other Companies are Doing. What other Companies are Doing.

There is not a single Company new in operation with their own machinery in Nevada, as far as we lave learned, that is not a complete success. All are returning not only large, but xnonwors Dividerds, and the prices of their shares have correspondingly advanced. For firstance, on March 2d, the stocks of the older Companies were quoted in the city papers as follows: "Gould & Curry, \$590; Savage, \$916; Chollar Potest, \$305; Imperial, \$117; Crown Point, \$1,040; Alpha, \$200, Yellow Jacket, \$430." The original price of these stocks was less than \$500—some of them only \$10. And the Companies more recently organized are not a whit less prosperous, but as far as progressed give every premise of an ultimate success even greater than that achieved by the Gould & Curry, For example, the stock of the Hale & Norcross Company of Nevada, which a few months ago was worth carly \$16, is now quoted at \$1,150. So, also, the Boston and Reess River Mining Company, which commenced work only last fall; its shares, though originally sold at \$10, soon went up to \$105, and on the 1st of March had advanced to \$200

The Natural Conclusion.

The Natural Conclusion. It may therefore be safely asserted that no other enter-prise, requiring the association of capital, offers so many indicaments for investment, with so little risk, as Silver Mining. Every Company that owns a mine, and will hom-sely go to work mear ne a successif the cannot possibly fail. The only difference between companies at work will be in the amounts of their dividends.

THEREVENUEEXTENSIONSILVER MINING COMPANY

Are the owners of NINETEEN (19) valuable LEDGES or MINES, amounting to 41,000 linear feet (the chief of which is the Rovenue Extension Lead, one of the richest ever discovered in tent district, all of which are gistanted upon the celebrated Lander Hill, near Austin, Novada. The Hopkins Tunnel, which commences at the foot of Lander Hill, and will pierce the kill from side to side, running at right angles with the Silver Veins, and will cut in its course upward of one hundred and fifty mines this number being aircady located), is alsa the property of this company. Work upon this tunnel is being pushed forward with energy, and has already reached upward of three hundred feet.

The Superintendent telegraphs from Austin, Novada. f three hundred feet.
The Superintendent telegraphs from Austin, Novada,
nder date of February 22, 1899, as follows:
"At work on Revenue Extension Mine; ore taken out
oday assays \$457,45 to the ton. Work on Hopkins' Tunel advanced 70 feet since last dispatch (February 2)."
And again, under date of March 5th, as follows:
"Receipts inhullion \$1,000. Tunnel advanced 100 feet,
tevenue shaft 20 feet."

What Others Say about it. What Others Say about it.

The Philadelphia Commercial List, of March 3, contains a letter from one of its correspondent, dated Austin, Nevada, February 5, 1856, which says:
"At the lower extremity of the city of Austin—quondam Clifton—where Pony Canon debouches into Reese River Valley, a project has been examenced, which, if carried out in accordance with the plan of those who conceived the scheme, will prove one of the most magnificent works of the day, and which cannot fall to handsomely reward these who push it to completion. I alliade to the Hopkins' Tunnel. The Revenue Extension Mining Company, owning this Tunnel, have a series of ledges lying parallel with each other, located upon the hill, at the foot of which this work commences, and will cut at nearly a right angle each lode with which it comes in contact throughout its entire length, and they can be minutered by the secre—the hill being literally seamed with them."

As this great work progresses, vein after vein of the rock bearing the precious metal will be crossed, at a depth sufficient to render their working profitable, each in succession being cut at a greater depth from the surface than the preceding one, owing to the rising of the hill in which they are located. Upon these veins, after they are crossed workmen can be engaged in extracting the ores upon cither side of the tunnel, without in any manner hindering its progress."

The Success of the Company Certain. The Success of the Company Certain.

It is thus apparent that the Revenue Extension Silver Mining Company have progressed to far in their operations that success is not only certain, but actually at the door. Hefere the close of the coming summer—perhaps by the middle—it will be ranked amongst the DIVIDEND FAYING companies, and its stock will, in all probability, advance to \$25, \$50, or perhaps even \$100 per share.—Therefore, now is thetime to invest. Only a small portion of the working capital yet renains unsold, and the Divietto are anxious that it should be disposed of immediately, in order that there may be no delay in the prosecution of the work in hand. Hence this advertisemout. Price of shares \$10, free of assessment. Certificates issued as soon as funds are received. Persons wishing to lavest, whether in large or small amounts, may remit to oraddees.

SPECIAL NOTICE. TO THE LADIES .- Do you really. intend to cease wearing the beautiful styles new so provalent, or dress less elegantly, because the rebel Jeff. Davis, was captured in Fashionable Female attired nent's calm reflection will surely serve to change your rash recoive. The angels had too much good sense to lay aside their pure chaste robes of white; because they had for a time served to hide the deformities of that Prince of Richels, the Devil. Can you err in following the Prince of Robols, the Devil. Can you err in following the example of Angels? Then having made up your minds that you will continue to dress tastefully regardless of rebelacts, do not forget to call at the store of the subcribers, who wall be happy at all times to furnith you with such articles of dress as you may desire. Urge your fath, ore, busbands, brothers, neighbors and children to visit the same store. They can here be suited in good articles of Boots, Shoes, Clothing Material, Hats, Caps, Queensware and a general assortment of Groceries, on as rea-
