FOR GOVERNOR,

Gen. John W. Geary OP CUMBERLAND COUNTY.

The Reconstruction Committee, after laboring five months, have brought forth something, which is called an Republicans don't like it? The most that can be said of Congress is, that after five months contention, the members have agreed to dis-

There is reason to suppose that the President will take his stand on the proposition for a national convention to amend the Constitution, the delegates to be chosen from all the States by the people, and in favor of this immediate admission of loyal members of Congress. It is contended that "loyal members" will be no more nor less than loyal, and in no way essentially different, whether admitted now or five years hence; and that, therefore, there exists no sound reason why their admission should be defer-On the contrary, it is maintained, their admission, even though the number be small, would stimulate loy alty and would amount to a pledge by Congress to recognize and support loyalty by discriminating in its favor whenever and wherever it shows

The Negro's Friend.

When the President declared in his speech last week that he was the true friend of the negro, the radicals, who simply want to ride him for political and other base purposes, became greatly incensed at the declaration, and try naturally thought that he had been asserted that it was they and not Presple, it is true did not know what his ident Johnson who were the real crime was. WE are willing that the five millions of ex-Rebels shall have equal power, man for man, with the loyal people, North and South.—N. Y. Tribune.

· The Tribune represents the radical sentiments in Congress. They are willing to wipe out the sins of every traitor provided negro suffrage in every State is made a part of the contract. In other words, they would favor the infliction of one wrong upon the people to so. cure the infliction of another.

QUESTION .- When the Reconstruction Committee agreed that the President of the so called Confederate States should not hereafter be eligible to any office under the Government of the United States, did it mean that that was all the punishment Jeff. Davis ---should receive for the crime of treason?

If the Southern States are not States of the Union why does the Reconstruction Committee allow them to take any part in making any amendments to the Constitution of the United -States? Are'nt they inconsistent, or don't they make some big admissions. So we go blundering on.

RECONSTRUCTION.

Views of the President's Cabinet. They Oppose the Plan of Congress.

WASHINGTON CITY, May 1. It is understood that in the cabinet meeting to day, the President invited an expression of opinion from the Heads of Departments respecting the propositions reported on Monday last by the Committee on Reconstruction. An interesting and animated discussion ensued. Secretary Seward declared himself in very decided and emphatic terms against the plan of the Committee, and in favor of the immediate admission of the loyal representatives from lately rebellious States.

Go back to your agreed upon and consistently pursued nest, Reconstructio, and hatch forth by the Administration, and he was gratified that the President had brought the subject to the consideration of the Cabinet.

Secretary Wells was unequivocally against the committee's scheme, and was earnest in his support of the President's policy, comprehending instant admission into Congress of loyal Representatives from the States lately in rebellion.

Secretary Harlan was rather retient, and expressed no opinion.

Postmaster General Denison was in favor of the President's policy, but expressed doubts as to the precise time at which loyal Representatives should be admitted.

Attorney General Speed was not

present: The President was carnest in his opposition to the report of the Com-mittee, and declared bimself against all measures precedent to admission of loyal representatives from Southern States in shape of amendments to the Constitution or by passage of law. He insisted that under the Constitution no State could be deprived of its equal suffrage in the Senate, and that Senators and Representatives ought to be at once admitted into the respective Houses as prescribed by law and the Constitution. He was for a rigid adherence to the Constitution as it is, and remarked, that having sustained our selves under a terrible robellion, he thought the Government could be restored without resort to amendments. He remarked in general terms that in it should be at a time when all the States and all the people can particis

Congress made war on the President as one who had gone against the true interests of the country. Prominent cially objectionable. He was habitually called, in entire dis regard of public decorum, "the man at the other end of the avenue;" and in the Senate a member blasphemously thanked God for the visitation of illness that kept from their seats men who would, if present, have voted to sustain the President.

Judging from all the obloquy thus

heaped upon the President, the coun. the President had been engaged only in one great labor-that of restoring fore they thought his efforts at reconstruction entitled only to praise, and cepted the fact that the President had committed some great crime, and hoped to learn what the crime was byand-by. They waited patiently. It was known that a committee of Congress, appointed on reconstruction, was busy bottling and labeling the radical wrath soon to be poured on the devoted "By their works ye shall know rors, what wonders of political villany that report might reveal. The Reconstruction Committee's Report in Congress.

The following synopsis of business bearing on the Report of the Reconstruction Committee to Congress, will show how it is received in that body:

In the Senate, Mr. Williams, of Orgon, submitted an amendment, intenled to be offered to the bill to provide for restoring the States lately in insurrection to their full political rights, n lieu of section first of said bill: Section 1st. Whenever any one

the States in insurrection shall ratify the above proposed amendment, as required by the Constitution of the United States, and shall conform its con-stitution and laws thereto, the Senators and Representatives from such State after the fourth day of March, 1867, if found duly elected and qualified, shall, upon taking the required oaths, be admitted into Congress :-Provided, That Senators and Representatives from Tennessee and Arkanelected and qualified as aforesaid, when aforesaid said proposed amendment.

Mr. Dixon, of Connecticut, gave notice of his intention to offer an amendment to the bills and resolutions reported by the joint Committee on Reconstruction, and as a substitute therefor, as follows:

Resolved, &c., That the interests of neace and the interests of the Union require the admission of every State to its share in public legislation whenever it presents itself, not only in an attitude of loyalty and harmony, but in the persons of representatives whose loyalty cannot be questioned

under any constitutional or legal test. The report has not yet come before Congress for debate, and as it is presumed the deliberation of the new Revenne Bill will take up the time of this week, we do not expect to have any further business on the report till next week. Several members appear anxious to have negro suffrage in the bill somewhere or somehow.

The Fiend Probst Sentenced.

In the Criminal Court of Philadelphia, on Tuesday, the motion of counsel for a new trial of Antoine Probst, ing family, was refused, and District Atterney Mann asked for the judgment of the court. Judge Allison directed Mr. Moore, the clerk, to direct the pisoner to stand up and inquire if he had anything to say why sentence of death should not be pronounced. The interpreter standing by the dock informed Probst of the order. The pri-

They fell on both sides the life of the citizen and alien alike, and their fall carried grief and secured to you by none other but by by your own confession, but by evidence from which there was no escape, most conclusive in its character you have been found guilty of the commis-sion of one of the most appalling crimes of which the records of civilized

jurisprudence make any mention. A felony of murder unpararelled,

This is a poor picture of your work and of this I here remind you, that you may even now, at this dread hour for you, realize if it indeed be possible for you to do so, the enormity of your deeds of blood, and before God seek

No one may limit His power to forgive, but you can find mercy only in redeeming love. But the Omnipotent God hath said, "Whatsoever will, let him come." To his mercy commend you.

But what you have to do, do speed ily; for the night of death casts its shadows already around you. The avenger of blood has followed steadily after you, and in the darkness of the night, the invisible finger of the Almighty pointed you out to your pursuers, and justice now claims you as its own. And that which it requires to be done shall not long be delayed. You had your success in the execution of your fell purpose. But it demands its triumph now, in the detection, exposure, conviction, and promptest and severest punishment of the criminal. Indeed one of the ablest men on the who has defied alike the laws of God Committee, Governor Boutwell, of and man, and outraged all the nobler
