One day last week Wm. Myers, who was lodged in jail a few weeks since on suspicion of having stolen provision from the meat house of James Port, made a confession to the latter, stating where the remainder of the goods not recovered had been concealed. A portion of the goods were found along the banks of Muddy run, and another lot was found buried along the canal, about a mile above town. The amount of goods recovered by this exposure reached upwards of \$400; and they were so artfully concealed that it would have been impossible for the human eye to detect the spot of their burial. They were considerably damaged by their long concealment.

A sensible writer observes: "If we were teaching school or had the direction of boy's manners, we would spend a little time in telling them how to shut doors. We should tell them, when they come in at a door, to quietly turn round facing the door and close it gently by taking hold of the knob or latch, and not slam it to with the left hand or back up against it, as some do, and give it a bang as if making a bow without room enough in the rear." MESSRS EDITORS :- The Journal & American's report of the meeting of the Soldiers Campaign League, makes an erroneous statement, which I wish to correct. I have no doubt it is a mistake as Mr. McDivitt, the editor, was present, and made the report himself, and must certainly see, at once, that it is an error. He says that
"It was suggested by Mr. Lytle that

the committee to notify the soldiers throughout the county of the next meeting, be composed of residents of the county." Which is very true, but in the next paragraph, he says that Major Gregg declined serving on the committee "on account of being a nonresident of the county." Now that is a gross mis representation. As near as I can recollect, Major Gregg said that, "inasmuch as an intimation has been made that I am a non-resident of jority of those present to testify to the truthfulness of what I say. I really hope Mr. McDivitt will take occasion to correct the error, as it was not intended in that meeting that any one should be mis represented.

Base Ball Club at Last. We are pleased to state that a Base Ball Club is about being organized in this borough. About twenty five young men carolled last Monday evening, and intend practising until the necessary materials for the club shall have been purchased. The young men enrolled are persons of some energy, and we have no doubt the "ball" thus set in motion will be kept on a per-petual roll, until Old Huntingdon's sons will be able to cope with their most successful comrades of the bat in neighboring counties.

Internal and External

Toothache in one minute.

See Cholic and Cramp in five minutes, Remaiss in one day, Department in the Back or Side in ten minutes,

Keep it in your Families -- Sickness

comes when least expected.

I propose to check, and effectually dissipate more selected particles and pair, and to accomplish more perfect equilibrium of all the circulating fluids in the human system, than can be effected by any other, or all other methods of medical, all in the same space of time.

THIS POPULAR REMEDY is fast coming into use, for the fact that I cure, free of charge, all these complaints whenever there is an opportunity to do so. As soon as its applied it almest miraculously kills the pain. I do not ask you to buy before you are certain of its officiency. If you have an acheor pair, it is warmined to did it purports on the lubel.

I do not propose to cure every disease—only a class named by my directions. My liniment operates on chemical and electric principles, and is, therefore, appliable, to the cure or natural restorative of all organic derangement arising from an improper circulation of the norms vital fluids.

Prof. J. H. McEntyre's INDIAN COMPOUND nets all.

with duids.

Prof. J. H. McEatyre's INDIAN COMPOUND acts directly on the absorbente, reducing glandular and other awellings in incredible abert time, without any possible danger from its use under any possible circumstances.

This is an internal and external medicine—composed or roots, herbs and barks, such as our forefathers used.—There is a bountiful supply on earth to cure all complaints if we only know what they wore.

This has been a great study with the Medical Faculty for many years, to find out the kinds best adapted to the above complaints—how to put them tegether, and what proportions to use.
