Mr. Robert McDivitt. This Christian gentleman, editor in ehief of the Journal & American, was lately defeated for re-election as County Superintendent of Common Schools. How and by whom he was defeated is no longer a secret,—the whole TRUTH written by Robert himself and publish ed in the last Journal & American. O course the reader will not fail to notice that we receive a large share of Rob ert's double distilled truthful and chris tian gall. The Directors and other referred to will no doubt see them selves as Robert sees them. Read th article.

From the Journal & American, May 16. ELECTION OF COUNTY SUPERINTEND ENT .- After the result of the conver tion, on the 1st inst., for the election o County Superintendent, we were pre pared to see a portion of the Globe de voted to a complimentary notice of the fact, in its usual grammatical, refined truthful, and highly interesting style, and we were not disappointed. The rum swelled blackguard, who runs that dirty machine, indulges, according to the low instincts of his brutish nature, in an article on the subject, in his last issue, consisting of slander, falsehood, and slang from beginning to end. Well, we were beaten slightly, that's a fact—in counting at least, if not in voting—but in order to accomplish our defeat it was necessary, in addition to the well meaning, intelligent and respectable gentlemen who voted directly for our worthy competitor, to have the combined influence of copperhead ism, "spotted niggerism," secret socie ties, government revenue assessors, skepticism, infidelity, rumsellers, rumdrinkers, bar-room orators, and brandy nosed politicians, together with the assistance of fraud and treachery. By the assistance of this conglomerate mass of all that is ignorant, beastly, false and degraded, we were beatenperhaps-one vote! and we are now willing that the poor, ignorant, rum soaked, besotted beast of the Globe shall buve a good time over it, and an extra allowance of rut gut whiskey and saur kraut. We much fear, however, that he will be seeing rats again before it is all over.

We have no doubt the Directors by whom and through whose influence Robert has been kept in office for the tax payers of from \$600 to \$1000 a year will consider him a very ungrateful wretch. And further, that money 25th inst., at 1 o'clock, P. M. so extravagantly used has failed to educate Robert to be even a third rate gentleman. Poor Robert-he is about played out-his hypocritical cloak no

Robert the Scribe. A Skillful Operation.

A most successful surgical operation the presence of Dr. Hartman, senior member of the firm of Hartman & Davis, on a child aged about twenty months, of Mr. Spangler's, of Pequea township. It seems the little one had picked up a grain of corn which it attempted to swallow, which passed into windpipe, and must have produced death if not soon removed. This was about 6 o'clock, a. m. The Doctor was called in at 9½ o'clock, advised an operation, and set 2 p. m., as the time. The operation is that known among surgeons as laryngo tracheotos any, and is literally cutting the wind-pipe open; the incision being made through the larynx and extending to the most expert. the truchea. The grain of corn was extracted, and is now in the Doctor's possession. The child is doing finely -lively and playful as if nothing had occurred to disturb its physical system, and totally unconscious of the dangerous performance to which it was subjected. The affair has naturally created quite an excitement in the vicinity, as well it might, few similar cases ever having occurred in the county.—Lancaster Daily Express.

Dr. Davis is known in this community, and his friends will be pleased to note the success he is meeting with in his avocation.

Things Mammoth. Our people have frequently heard of things mammoth, as for instance the Mammoth Cave of Kentucky, mammoth animals, such as the "Behemoth Lewis' Book Store. of Scripture" (?) which lately traveled this section. They have also heard of mammoth buildings, and no doubt ere | tingdon, Pa this they have heard of the mammoth Hardware Store of Jas. A. Brown, Huntingdon. Things big, things little, and things useful and ornamental, can be had at reasonable rates at the new store. Mr. Brown's experience in the hardware business should not be overlooked by a patronizing public, as it enables him to tell what he ought to House, by the same, Mr. Simon Counget and how it ought to go. Huntingdon May 19, 1866. OLIVER AYERS, Supt. Improved Washing Machine.

One of the most complete machines for washing clothes has just been invented by John S. Lash, Esq., of Philadelphia, who has recently obtained a patent for it. It is highly ingenious, although simple in construction. What is still better, it is within the reach of every housekeeper, costing as it does, only five dollars. For further particulars, we refer the reader to the advertisement in another column.
