—Scarce—hen fruit. Either the chickens won't accommodate, or their fruit is shipped for the accommodation of those willing to pay better prices. The highest prices paid at Lewis' & Co's Family Grocery.

—Living well—the people who buy early vegetables at Lewis' & Co's Family Grocery. Peas, beans, cabbage and beets this time of the year are not hard to lake. Fresh supplies received by Express every Wednesday and Saturday mornings.

Robbery. On Thursday night last some robbers entered the store of Fisher & Sons, and stole about fifty dollars worth of dry goods and about fifty dollars in money. The thief entered the store through the front window, the shutters of which he pried open.

A week or two ago a valuable dog belonging to Horatio Fisher, of the same firm, was killed in his yard during the night and dragged to the store steps and there left till morning.

Our citizens should be on the alert against a repetition of these villainous deeds, as it is generally the case that where a scoundrel is not caught in his first attempts he will follow them up with similar ones, though bolder and on a larger scale. So, keep a sharp look out.

A Good Suggestion. The crime of stealing horses is so frequent, and its evils so grievous, that a valuable suggestion will be welcome to our readers. It is simply this: Let every smith be provided with a steel die, containing the name of nearest post office, which shall be impressed on every shoe. And besides this let every owner who will, have a die, containing his own name, which shall be superadded, on the shoes of his own horse.

The advantages are obvious. The P. O. address will inform those solicited to purchase where to telegraph for safety. "A horse stolen," would soon be proclaimed through the owner's neighborhood, and at the nearest telegraph station. "But the shoes might be removed." True. Yet it would be a ground of suspicion, and would consume time, and more than all, requires a confederate smith,—not easy to be found. The objections are no more serious than having the owner's name upon a lively carriage or harness. One cent additional for each shoe, would pay the smith amply, and be a cheap insurance to the owner. Or, if necessary, provision might be made by law for this. It would cost the public less than the loss of so many valuable animals, or the maintenance of so many horse thieves in the penitentiaries.

Get the Best. Mr. Greeley's History is every where recognized, by fair minded men of all parties, not only as the highest authority, but as greatly surpassing all other works, both in conception of plan and excellence of detail—abounding in clear and graphic delineations of events, candid and accurate statements of facts, and marked by the most painstaking and thorough research. W. L. HARVEY and A. J. FREES are now talking orders in this country.

Improved Washing Machine. One of the most complete machines for washing clothes has just been invented by John S. Lash, Esq., of Philadelphia, who has recently obtained a patent for it. It is highly ingenious, although simple in construction. What is still better, it is within the reach of every housekeeper, costing as it does, only five dollars. THE FENIAN INVASION.

Proclamation by the President.

WASHINGTON, June 6. By the President of the United States of America, A PROCLAMATION:

WHEREAS, It has become known to me that certain evil disposed persons have within the territory and jurisdiction of the United States, begun and set on foot, and have provided and prepared, and are still engaged in providing and preparing, men for a military expedition and enterprise, which expedition and enterprise is to be carried on from the territory and jurisdiction of the United States against the Colonies, districts and people of British North America, within the dominions of the United Kingdom of Great Britain and Ireland, with which said colonies, districts, and people and Kingdom, the United States are at peace; and, whereas, the proceedings aforesaid constitute a high misdemeanor forbidden by the laws of the United States as well as by the laws of nations.

Now, therefore, for the purpose of preventing the carrying on of the unlawful expedition and enterprise aforesaid, from the territory and jurisdiction of the United States, and to maintain the public peace as well as the national honor, and enforce obedience and respect to the laws of the United States, I, Andrew Johnson, President of the United States, do admonish and warn all good citizens of the United States against taking part, or in any way aiding, countenancing or abetting said unlawful proceedings, and I do exhort all judges, magistrates, marshals and officers in the service of the United States to employ all their lawful authority and power to prevent and defeat the aforesaid unlawful proceedings, and to arrest and bring to justice all persons who may be engaged therein; and in pursuance of the act of Congress in such case made and provided, I do furthermore authorize and empower Major General George G. Meade, commander of the Military Division of the Atlantic, to employ the land and naval forces of the United States, and the militia thereof, to arrest and prevent the carrying on of the expedition and enterprise aforesaid.

In testimony whereof, I have hereto set my hand and caused the seal of the United States to be affixed. Done at the city of Washington this sixth day of June, in the year of our Lord one thousand eight hundred and sixty-six, and of the independence of the United States the nineteenth.

By the President: ANDREW JOHNSON.

WM. H. SEWARD, Sec. of State.

The Fenian War.

New York, June 9.—A portion of Gen. Spear's Fenian cavalry made a dash into Freeburg, yesterday, routed a British force and captured a large British flag. General Spear immediately commenced marching.

The moral of the Fenian army is very bad. Desertions are the rule, and whole companies are making tracks for the nearest home transportation office, and in some instances regiments desert as an organization.

Col. Scanlon, with his regiment, engaged a body of British horsemen at Pigeon Hill yesterday. The British were driven in confusion, losing three flags, some men killed and several wounded. Col. Scanlon then ordered his regiment to withdraw, and they are now at St. Albans.

Gen. Sweeney was held to bail in the sum of \$20,000, and Col. Mahan in \$5,000.

A Fenian council of war at Buffalo decided that it was best to order all the troops back to their homes. Without arms and without any money, they think it a useless waste of life to enter Canada.

MALONE, N. Y., June 9.—General Meade has issued the following: "All persons assembled at this place, in connection with and in aid of the Fenian organization for the purpose of invading Canada, are hereby ordered in compliance with the President's Proclamation, to desist from their enterprise and disband. The men of the expeditionary force will, on application to the officer in command of the United States forces, on giving their names and residences, and satisfying him that they are unable to provide their own transportation, be provided with transportation to their homes, and all officers below the rank of Field Officers who are unable to provide their own transportation, on giving their parole to abandon the enterprise and return to their homes. Officers above the rank of Field Officers will be required to give such bonds as may be satisfactory to the city authorities; it being the determination of the United States Government to preserve neutrality, and the most stringent measures having been taken to prevent all accessions of men and material, the Commanding General trusts that these former terms will have the effect of causing the expedition, now hopeless, to be quietly and peaceably abandoned, and he confidently expects that all those who have any respect for the authority of the United States will conform to the requirements of the President's proclamation and of this, which, if not promptly obeyed, a sufficient force will be brought to bear to compel obedience."

GEO. G. MEADE, Major General U. S. A.

DEMAND FOR LIVE STOCK.

Commissioner Newton says that there will be a great demand for live stock for some years, and that the great scarcity of all stock used and consumed in the South, especially mules and hogs, will guarantee profitable prices for a long time. No farmer can mistake his interests in giving increased attention to the raising of horses and cattle, especially cows. The practice of killing heifer calves should be abandoned—must be, if we expect to meet the demand which Great Britain and our home markets will always make for butter and cheese.

Germans Coming.

New York, June 9.—It is stated that the North German, Lloyd's and Hamburg and American Steam Packet Companies will convey to New York nearly two hundred thousand emigrants. The approaching war is hurrying Germans to leave their fatherland for a home in this country.

Reconstruction.

The following is the joint resolution proposing an amendment to the Constitution, as amended in the Senate and returned to the House for concurrence. It passed the Senate on Friday by a vote of 33 to 11.

Resolved by the Senate and House of Representatives of the United States of America, in Congress assembled, two thirds of both Houses concurring, That the following article be proposed to the Legislatures of the several States as an amendment to the Constitution, which when ratified by three-fourths of the said Legislatures shall be valid as a part of the Constitution, namely:—

ARTICLE.—SECTION I. All persons born or naturalized in the United States, and subject to its jurisdiction, therefore, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States. Nor shall any State deprive any person of life, liberty or property without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.

Sec. 2. Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed; but whenever the right to vote at any election for electors of President and Vice President or for United States Representatives in Congress, executive and judicial officers, or the members of the Legislatures thereof, is denied to any of the male inhabitants of such State, being twenty-one years of age, and citizens of the United States, in any way except for participation in rebellion or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such State.

Sec. 3. No person shall be a Senator or Representative in Congress, elector of President and Vice President, or hold any office, civil or military, under the United States or under any State, who, having previously taken an oath as a member of Congress, or as an officer of the United States, or as a member of any State Legislature, or as an executive or judicial officer of any State to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid or comfort to the enemies thereof; but Congress may, by a vote of two-thirds of each House, remove such disability.

Sec. 4. The validity of the public debt of the United States, authorized by law, including debts incurred for the payment of pensions and bounties for services in suppressing insurrection or rebellion, shall not be questioned; but neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave, but all such debts, obligations and claims shall be held illegal and void.

Reconstruction.

Resolved, That the Lincoln-Johnson reconstruction policy having been adopted by the Union National Convention at Baltimore, and ratified by the people, we regard the faith of the nation as thereby pledged to its faithful execution and performance.

Resolved, That we are for this policy of reconstruction, not merely because Mr. Lincoln originated it, and bequeathed it as his dying legacy to American people, but because it is in itself right, and the only policy, as we think, that can save us and our posterity from the horrors of centralized despotism as now crush France, Russia and Austria.

Resolved, That the right of the people to make their own State laws, subject only to the Constitution of the United States, is a right dear to them, essential to their liberties, and "daunting to tyrants only."

Resolved, That President Johnson has endeavored himself to the hearts of all true friends of liberty by his veto of the civil rights bill (so-called), and of the Freedmen's bureau bill, the former of which denies to the people the right to make their own State laws, and imposes fine and imprisonment on State judges and justices for enforcing laws made in pursuance of rights guaranteed to the people by the Constitution.

Resolved, That Hon. Edgar Cowan by his able and manly defense of the Lincoln-Johnson policy, has shown himself the eloquent champion of the people's rights—the bold and fearless enemy of consolidation and despotism, and that his name shall be green in the eyes of the people long after those of his enemies are unhonored and forgotten.—(Republican.)
