

To Subscribers.

Those subscribers receiving a paper marked with a † before the name will understand that the time for which they subscribed is up. If they wish the paper continued they will renew their subscription through the mail or otherwise.

Relief Efforts.

A great deal of sickness prevails in town, chiefly dysentery and diarrhoea. The same diseases are prevalent in adjoining counties, particularly in towns lying near the railroad.

Two prisoners named John Smith and Jas. Ball escaped from the jail at Hollidaysburg on Sunday night. \$25 reward for their capture. Query—Does anybody know that John Smith?—There will be a camp meeting for the Bloody Run circuit, (commencing August 25th,) south-east of Bloody Run. It is expected the meeting will be the largest ever held near that place.

According to card it will be seen that E. Stewart McMurtree, Esq., has entered into partnership with R. M. Speer, Esq., in the law business. We recommend the firm as a good one, and one sure of success.

The Pennsylvania Railroad Company will issue excursion tickets to Philadelphia for those going to the Convention, on the 12th, 13th and 14th of August, good for return trip on the 15th, 16th, 17th and 18th of August inclusive.

We have been requested to state that Hon. Wayne McVeagh, of Chester county, will conduct the meeting on Saturday, the 25th. If he should fail to attend, other prominent speakers will be in attendance.

The Good Templars of this place purpose holding a picnic, in conjunction with the Templars of Conacoant and Hopewell, on the first Thursday in September. The picnic will be held at some point between here and Hopewell, on the Broad Top railroad.

Our people begin to take great interest in base ball matches. We have heard many remarks that they would ten times sooner see them than a show, horse race or a scientific dance. The number of spectators at the recent match games will fully testify to this.

About one mile this side of Mount Union, at the point called Jack's Narrows, the Penna. Railroad company are having erected a stone wall, upon the top of which will be laid a railway track. It will be 2450 feet long, 25 feet high, 11 feet wide at the base, and 4 feet 6 inches at the top. It is being built in order to have a double track.

Major Daniel W. Fickinger, of Turbett township, Juniata county, was fatally injured by a freight engine at Perryville, a few days since. He had held several offices of trust in the county, and at the time of his death was an elder of the Presbyterian church in Perryville. He leaves a wife, ten children and a large number of friends to mourn his loss.

A new round house is being built at Altoona. It is a circular building of brick and iron, is 300 feet in diameter, and contains forty-four stalls for locomotives. Mr. Joseph Watson, of this place, is foreman of masonry and brick-laying, and Mr. Dan'l H. Artley, also of this place, has the superintendence of the turn table and roofing.

The Shirleysburg Herald does not countenance the game of base ball. It intimates that publishing the "innings" is running to extremes. We would inform the editor that "base ball" is not "town ball," as he represents, and it bears a higher significance in being our National Game. We love anything originating in America, especially that which tends to banish idleness and idiosyncrasy among our people.

The officers of Standing Stone Lodge, I. O. G. T., were duly installed on Tuesday evening last. Mr. J. R. Simpson is W. C. T., Miss Annie Torry W. V. T., and Mr. G. W. Gray, W. S. T. The lodge has now been one year and a half in existence. It has numbered nearly 200 members, but owing to members leaving town this number has been reduced to about 130. Thirteen were initiated last quarter.

A Good Templars' Quarterly Convention of the West Juniata District will be held in Bedford, on Wednesday and Thursday, the 15th and 16th inst. J. R. Durborrow, Esq., is President, and W. A. Points, Esq., Secretary. The delegates from Standing Stone Lodge, No. 85, this place, are Rev. T. Barnhart, S. S. Williamson, Miss Annie Torry and Miss Ellice Orben. A representation from every lodge is expected.

Not yet Accepted. "Robert the Scribe" has not yet found a single man willing to certify that he is a man of truth. His character for truth must be in a horrible condition if 500 a head can not find a single individual willing to back his assertions. Poor Robert—better own up candidly that you are a common liar and then crawl into a hole and pull it in after you that the finger of scorn may never hereafter be pointed at you.

"THE BOYS IN BLUE."

Grand Rally of the Friends of General Goary.—Welcome to the Hero of Sixty Battles.—The "White Star Division" Again in the Field.—Let all Join in the March to Victory.

The people of Huntingdon county, both soldiers and civilians, are invited to attend the convention of the "Boys in Blue," at Huntingdon, on Saturday, the 25th inst.

Authority has been given by General Goary to announce that he will be present. Let all who love loyalty and bravery join in the welcome to our hero candidate.

The soldiers are requested to come and endorse THE UNION REPUBLICAN TICKET which will be placed in nomination on the 11th inst. Also to make arrangements for the holding of a GRAND MASS MEETING during the month of September.

The work of organization, so auspiciously begun, should be continued until it is thoroughly completed. By making a proper effort we may insure A MAJORITY OF A THOUSAND for the Union ticket in old Huntingdon.

MILTON S. LITTLE, President. We have ever been in favor of home industry, and we have urged and urged the establishment of manufactures in our midst. We would call attention to the article on Rolling Mill in another column. It should convince all of the importance of immediately undertaking the enterprise which will bring capital and labor into activity, and advance the interests of the coal and iron men especially, in this section.

The reputation of our coal and iron has become universal, and we think our business men have as much ingenuity in manufacturing as they have perseverance in producing. For instance, why send away iron in its raw state, and be obliged to receive it again in its manufactured state, with all the manufacturer's profits, and cost of freight attached thereto, when the same profits can be made fully as well by our own men. It takes very little foresight for our producers to see it in this light, and we have no doubt they have seen it, and have been waiting just such an opportunity as is now presented to contribute to their means in accomplishing such a desirable object.

Men of capital generally, and iron men particularly will not fail, we are sure, to co-operate in this progressive movement. Immediate action is absolutely necessary, before the chance slips the grasp, and our citizens should use every effort to secure the advantages of such an institution. There is danger in delay.

Would not a public meeting be advantageous in such a case; and would respectfully suggest to the organizers a calling of one, if they should fail, through a private source, to get the necessary subscriptions.

Our National Game. The editor of the Bedford Inquirer very unjustly misrepresents the first nine of our Spartan Base Ball Club when he says that to play the Resolute they had been "selected from the best players of the community." It was the first nine of the Spartan which beat the Resolute, and none other, and they were of the same age, size and "muscle" as the Resolute. If anything, the Resolute had the advantage.

Will the editors of the Bedford Inquirer please inform us what are the strict rules of the game of Base Ball in regard to choosing an umpire? As we understand it, the simple rule is that the umpire shall be chosen by the captains of the respective clubs. All we have to say in regard to the difficulty is, that if the Social had known that their choice would have been so unkindly treated they would have gone to Bedford without him or any other, and they would not have thought of disputing over a worthy umpire chosen by the Juniata captain.

The Spartan will play the Logan of Altoona on next Saturday. We understand the Hartslog of Alexandria beat the Petersburg club, and also the Star of Altoona. No score was furnished us.

Weather and Crops. The Shirleysburg Herald speaking of the crops in the lower end says:—"The Augwick Valley seems likely to produce a short crop this year, in the aggregate. It was hoped that the wheat would make up in yield for thinness on the ground. In most cases this hope will probably be realized; but we have heard of instances where it has not. We are now experiencing another dry spell, which threatens to ruin the corn. Indeed the early planted corn, potatoes, and the gardens are now almost past redemption. A field here and there, on bottom ground looks well enough; but on the upland, the crops are almost universally poor."

The crops, throughout the county, we think, do not come up to an average yield. This year has been a contrast with last, wherein we had too much rain. A copious shower has now fallen, which may satisfy the almost ripened grain, and given a fresh appearance to the gardens.

Highly Interesting. The Soldiers' Bounty Bill having become a law, let no one fail to read the card of Joseph E. Devitt & Co., Military Claim Agents, under new advertisement.

Rolling Mill.

It is said to be a public benefactor who makes two blades of grass to grow where only one grew before. That this great fact is true in the useful industrial arts, as well as in agricultural economy, appears self evident. Hence, where a single man or company of men, by the judicious application of capital and labor, produce or increase the production of materials required in the section of country in which their enterprise may be located, they are not only benefiting that region specially, but are contributing to the aggregate industry and wealth of the whole country.

The benefits of such an enterprise will be more fully appreciated when it is known that the produced article is manufactured from materials native to the section embraced in the operations. It is true that parties entering on such an enterprise expect to realize, by careful and economical management, a liberal return on their investment.

Appreciating the above facts, a few gentlemen have united to canvas portions of the counties of Huntingdon, Bedford, Fulton, Blair and Somerset to solicit subscriptions of stock for the purpose of erecting a merchant bar Rolling Mill at the town of Hopewell or Saxton, or such other point as a majority of the Stockholders may deem most eligible.

It is supposed to issue 700 shares of Stock of \$100 each, making the capital \$70,000. It is not intended to begin operations until the Stockholders decide not only the location of the mill, but also its general capacity, and cost, for which purpose, it is proposed that after organization the stockholders appoint a committee to report on the most economical machinery, its cost, capacity, expense of working, and estimated revenue, with other matters pertinent to the enterprise—after which the stock will be called in to meet the expenses of the work as they accrue.

The mill is intended to roll ordinary bar iron for general country use, giving special attention to the scumming of iron required by the coal operators in the Broad Top Coal Region. It is not designed to anticipate the report of the committee to be appointed by the Stockholders, but to briefly advert to the fact of the general prosperity of the rolling mills, of the country. One instance, well authenticated may be adduced,—a rolling mill and nail manufacturer company in a small town, realized during the past year, a net profit of \$11,000 on an investment in machinery and mill of about \$70,000.

It is reasonably claimed for the present enterprise that it can obtain a portion of its supply of pig iron from the Hopewell Furnace and the balance from other furnaces in the district embraced in its operations. Hence if a liberal profit can be made, say at Pittsburgh, by manufacturing bars from pig iron, a large portion of which is procured from furnaces in the Juniata district, a much larger profit should be realized by the manufacture of iron bars in the vicinity where the pig iron is produced as the freight of the pig iron to Pittsburgh and the return freight on manufactured bars is saved, thus:

Freight on 13 tons of pig iron to Pittsburgh to make one ton of Merchant bar. \$15.00  
Freight on 1 ton of Merchant bar from Pittsburgh to Broad Top. \$10.00  
Total freight and expenses \$25.00  
Estimating \$10 to cover all freight charges on pig metal to and manufactured bar from the proposed works, it shows a saving of \$15.00 per ton on manufactured iron. The demand for iron in the Broad Top Coal region is estimated at 1000 tons per year, which at the mere saving in freight of \$15 per ton will give \$15,000.

It may be claimed that in Pittsburgh and other manufacturing towns skilled labor is easily procured—this it is believed will be fully compensated by the advantages offered to such workmen by cheap rents in a country location. When it is considered that the Broad Top region abounds in all the elements required for the successful manufacture of iron—excellent coal and its justly celebrated Juniata pig iron to work on, the success of such an enterprise can scarcely be doubted. It is confidently believed that the quality of iron manufactured will not, with ordinary care and skill, be inferior to any in the country. It can therefore be offered in market with full reliance that it will give the purchaser entire satisfaction and thus secure a permanent demand. Should the new Tariff Bill, as recently passed by a large majority in the popular House of Congress, become a law, it would undoubtedly stimulate to a greater extent this great branch of the National industry, and give more than full work to all the rolling mills in the country to supply the home demand.

Believing the statements thus submitted to be substantially correct, they respectfully and earnestly invite the co-operation of their fellow citizens in establishing the proposed works. They entertain no doubt that an industrial enterprise of this kind presents a safe and reliable opportunity for investing capital where it will not only be productive to the subscribers, but will confer a permanent benefit on their own section of the country—stimulating other branches of industry and commerce in its limits, and increasing its population and wealth. This is no wild speculation, anticipating fabulous dividends, but a matter of industrial fact of supply and demand—looking to fair profits alone on a careful investment in a manufacture demanded by the wants around it, in a region of country where as yet no such works have been established.

The opportunity thus presented, is now open to the citizens to secure its advantages amongst themselves. It requires little argument to anticipate the fact that if there is not sufficient enterprise to secure so desirable a result, the citizens of some other more enterprising section will promptly avail themselves of the evident want of such a manufacture and erect it—thus leaving the region now contemplated "out in the cold."

John Fulton, Resident and Mining Engineer, L. & B. T. R. R., Saxton, Pa. E. McLaugh, Supt. Powelton Collieries, Powelton, Pa. G. W. Garretson, Cashier First National Bank; H. G. Fisher, Wm. A. Orblison, Oliver Ayers, Supt. L. & B. T. R. R., Huntingdon, Pa.

G. R. Barndollar, D. F. Keagy, Woodbury, Pa. J. C. Eberhart, Theophilus Snyder, Martinsburg, Pa. John F. Lowry, C. W. Ashcom, J. M. Kinkead, J. S. Michelberger, Hopewell, Pa. Jacob B. Williams, Bloody Run, Pa. Fr. Jordan, S. L. Russell, Bedford, Pa.

Important Postal Changes. The law of Congress, approved June 12th, 1866, and which went into operation on the 1st inst., makes several important changes, which we note below:

1. Letters sent, in which there is an order to return, if not called for, are returned to the writer free of charge—such letters have been charged three cents postage heretofore.

2. Letters forwarded from one post office to another are not charged additional rates of postage, and are returned to the writer from the dead letter office free of charge—heretofore letters forwarded from each post office from which they were forwarded, and a single rate charged to the writer when forwarded to him from the dead letter office.

3. The sum for which money orders can be issued has been raised from \$30 to \$50, and the rate hereafter charged will be 10 cents for all orders under \$20, and 20 cents for all over \$20 and under \$50. Also, that a money order shall be valid and payable when presented to the deputy postmaster on whom it is drawn within one year after its date, but for no longer period, and in case of the loss of a money order, a duplicate thereof shall be issued without charge, on the application of the remitter or payee, who shall make the required proof; and postmasters are hereby authorized and required to administer to the applicant or applicant, in such cases, the required oath or affirmation free of charge.

Mysterious. Mr. John Fitzgerald, of Allonville, this county, one day last week left his home in a wagon for Mill Creek, Hunt. county, for the purpose of expressing a package of \$150. On reaching the top of the mountain, on his return, he stopped his horse for a rest and entered into conversation with a stranger seated there. After a while the stranger put his arm around Mr. Fitzgerald's neck. This being too affectionate, Mr. F. attempted to push him off, but suddenly became unconscious. When he awoke he found himself lying in woods, away from the road and alone. He arose and looked for his horse and wagon, which he soon found among the rocks on the opposite side of the road, and the stranger there also. About this time some neighbors arrived and assisted in extricating the wagon from the rocks, when the stranger volunteered and went with Mr. F. home. Mr. F. remained in a semi-unconscious state for considerable time, during which he could give no account of the occurrence, and in the morning the stranger was allowed to depart unmolested. Answers given by the stranger, when questioned, were very vague, and the general impression is, that he had, by the use of chloroform, stupefied Mr. F. for the purpose of robbery, but upon finding only a small amount of money about his person (about \$4.) concluded to cast off suspicion by remaining with him.—Lewistown Democrat.

Another Railroad Accident. On Monday afternoon last about 1 o'clock, Mr. Andrew Miller, a brakeman on the railroad, who resided at Mill Creek, met with a fatal accident, near the coal wharf above this place. He had uncoupled the caboose car, and was standing on the front bumper when a sudden jerk threw him down under the car, the wheels of which passed over him. His right leg was crushed below the knee, and terrible wounds were inflicted in his head. He was taken to the station, where physicians were in attendance until he died, at half past ten P. M. He leaves a wife and child.

Cramp Meetings. Under the Superintendency of the Rev. Thos. Barnhart, P. E., a Camp Meeting will be held commencing August 24th, on the Manor Hill Camp ground, the ground occupied last year and now purchased by the Circuit. Ample provisions will be made for all those desiring boarding on the ground. Those wishing regular accommodations at the boarding tent should immediately address one of the ministers of that charge.

Lost Boy. Any information concerning the whereabouts of Oliver McLain, addressed to his father Isaac McLain, at Eagle Foundry, will be thankfully received. The boy is about 14 years of age, rather large of his age, light hair, wears a dark suit of clothes, and left his home about the 20th of June last. He was last heard of at Huntingdon about the 20th day of July.

See announcement under "New Advertisements" of the Quaker City Business College. Young men intending to acquire business education should send at once to Mr. Fairbanks for a circular of this excellent institution.

Porter, Sarsaparilla, &c., manufactured by Jacob Leonard, Huntingdon. Address him through post office.

MARRIED. On the 3d inst., by J. A. Price, Mr. J. H. SHAPER, to Miss LATTIE G. FOSTER, both of Mount Union.

On the 1st inst., by the same, Mr. E. V. CHAMBER, to Miss MARY J. STAINES, both of Spruce Creek.

On the 9th inst., by the same, Mr. MILTON PETERS, to Miss CHARILLA LUCAS, both of Unionville, Centre county.

DIED. In this borough on the 10th instant, BLUE A., daughter of Harry and Matilda Williams, aged 1 year, 11 months.
