#### The State Elections, -- Congress.

The results of elections in the sever al States last week give the Republicans complete control of Congress by more than a two-third vote. It will be useless therefore for the President to object to any measure Congress may agree upon. Whatever the character of a bill may be it can and most likely would be passed over his veto. Con gress must take the responsibility of managing the affairs of our Government, and whatever errors one committed, Congress and not the President will be held responsible for. A GLEAM OF SENSE .- There are journals in some of the Southern States that occasionally have lucid intervals, and we are inclined to think the ablest of them are published in New Orleans. The Commercial there, for instance, is doing its best to stop political agitation, and tells its readers, the South has enough to think about and do, for years to come, in rebuilding on the new basis, its social fabric, which the war has so completely shattered. While indorsing the idea that "the prosperity and development of power in the country were the results of sixty years of Southern statesmanship,' it makes this confession: "But we have made indifferent local statesmen, and, as politics was the medium of our ruin, let us try and get along without who followed Lee and Johnston in war ers," it says, "and shutting our cars to him a most acceptable and useful offi-the noisy demagages who offend us cer. It is to be hoped now that the elections are over, that moderation and wisdom will be allowed to assert their supremacy, so that the work of reconstructing the Union, on a constitutional basis, may be consummated; that peace, confraternity, and national unity may bless the land.

In a few weeks Congress will assem-ble. We would fondly hope that coming directly from the people, they will aim to legislate for the good of the whole country. A renewal of the fac-tious opposition to President Johnson is to be deplored. There is no need of the re enactment of the follies of the last session. There is scope sufficient to employ all the wisdom and abilities of the members by devising measures of relief in calm deliberation and wholesome legislation. The New York World, (Democrat) has a long article on elections headed "What of the future?" of which the subjoined is the gist: These unfortunate elections deprive President Johnson of what ought to have been the chief glory of his administration : the pacification of the country after the late bloody contest. It is idle to ask whether, by greater promptitude in breaking with the Radicals, he might not have averted this mortification. He must now take the situation as he finds it, and make the best of it. Powerless during the residue of his term, on all contested questions of domestic politics, his only chance of acquiring prostige is in connection with our foreign relations. They are less subject to the control of Congress. The steps he is understood to be taking to resuscitate and maintain the Monroe doctrine, will be warmly approved by the country. It would be futile for him to contend longer with the radi-cals in respect to the South, and he will best consult the dignity of his office by letting his action cease with ty or of consistency. Against the un-constitutional exclusion of Southern States from Congress it was his duty vocable, and all further opposition is factious and unpatriotic. The New York Times, in a sensible editorial this morning, says:

I have been struggling in the nterest of peace to keep the military out of your streets, and prevent blood-shed. We have met them in their own house, and beaten them with their own weapons.
