Suffrage should be conferred by the tates, that right being guaranteed to each State by the Constitution. Andrew. Johnson is favor of qualified sufrage in Tennessee as a citizen of that State. He authorized us, in behalf of the Chief Executive of the nation, to urge qualified suffrage for three classes of colored men of this District, in April last, and at his suggestion we stances, and UNDER EVERY ADMINISTRATION REGARDLESS OF PARTY POLITICS, AGAINST ALL, only about one week before Congress adjourned. We took special pains to notify several radical Senators and Representatives who are anxious inquirers on the subject, that the President was in favor of the plan propos-ed in the Republican. General Logan will deliver the welcome oration, and a banquet will be given in the evening, at which the Radical Congressmen will be guests. The following publication is made, apparently by authority, in the Na-tional Republican of this morning :--

It is understood that the Secretary of the Treasury will devote considera-ble attention in his forthcoming report to the question of resumption of specie payments. He will undoubtedly ask for further power to fund the floating and non-interest bearing obligations of the Government, and will likewise urge a more concentrated system of redemption of national bank notes as a necessary preliminary to a resumption of specie payments. Mr. McCulloch thinks, with proper legislation, he may return to a specie standard within eighteen months. On the other hand, it is known to be the opinion of many leading bankers in the country that leading bankers in the country that with one hundred millions of gold in the Treasury specie payments may be resumed within ninety days. This question will force itself upon the early attention of Congress, and will prove one of the most important of the session.
