NO PAPER NEXT WEEK.

As all the printers of the town have agreed to suspend operations for a week during the holidays, there will not be any papers issued next week .--Printers will have time for pleasure as well as other folks. Brief Items.

-One hundred and fifty-six pupils were ordered to be admitted to the Cassville Soldiers Orphans School, in this county, up to December 1, 1866.

-A concert for the benefit of the M. E. Sabbath School at Hopewell will be given at that place on Wednesday and Thursday evenings, December 19 and 20. It promises to be a success.

-The valuable business stand now occupied by Cunningham & Etnier, together with the shops to the west, will be offered at public sale on the 3d of January next. See advertisement.

-Mr. John Barrick, of this place, killed a wild turkey last week weighing 211 pounds. The hunters have killed more of this game this year than in former years, owing either to better luck or plenty of turkeys.

-We learn that a few of our citizens have invested in the Crosby Prize Concert. OIf they draw anything they don't expect we will let our readers know, providing we get the information, which we desire.

-The Monitor appeared last week, having enlarged to a seven column paper. Mr. Cornman deserves credit for the degree of enterprise and mechanical ability he has evinced since taking charge of that journal. -The following eccentric marriage notice appeared in Saturday's issue of the Pittsburg Republic: At the residence of Mr. Edward Cowling, Thurs day evening, December 13th, 1866, by the Rev. Grampton, Mr. Wm. Bulling to Miss Maria Cowling, both of Allegheny city. What strange names some people do have.

-The Catholic Fair, which opened in Altoona on last Monday, will continue for some time, and is quite a magnificent affair. The display is really creditable and the attendance large.-The special prizes-Firemen's trumpet, silver mounted bat, and ball, and a set of drawing instruments, are creating a great excitement.

-Glycerine is recommended to prevent the freezing of Gas Meters in winter, as well as the evaporation of the water in the meter. One or two pints of glycerine well mixed with the wator, are sufficient for a middle sized meter, but the quantity must be increased in proportion to the degree of cold to which the meter is expected to be exposed. .

-The Holidays are coming. Tuesday next will be Christmas. The different confectionaries in this place, of which we have a superabundance, show signs of having prepared for a rush of custom, and their windows are tastefully decorated with the odds and ends that please the eye and tickle the fancy of the little ones. A little liberal advertising would have operated to their advantage.
