Wednesday morning, Jan. 16, 1867.  
LOCAL & PERSONAL.

### To Subscribers.

Those subscribers receiving a paper marked with a † before the name will understand that the time for which they subscribed is up. If they wish the paper continued they will renew their subscription through the mail or otherwise.

### Local Advertisements.

Advertisements (puffs or notices) published in local columns at ten cents a line single insertion, counting seven words to a line.

### Notes.

Beyond suspicion—the character of the weather.  
—A chance for the Good Templars—the tight money market.  
—The Methodist revival still continues with some evidence of success.  
—The Presbyterians of this place held their annual week of prayer last week.

The Gas Company of this place paid a revenue of \$144 08 to the Commonwealth, for 1866.

There is an Equal Rights League in the borough of Johnstown. Wonder if women are admitted.

The Auditors have met to audit the accounts of the county. The statement will soon be published.

Ten cents will be paid at this office for a full copy of the *Chicago Weekly Times*, of week before last.

The Huntingdon Silver Band will go to Harrisburg to-day, to be present at the inauguration ceremonies of Gen. Geary, the Governor.

Many of our citizens are going to the inauguration of Governor Geary. Hope they will have a good time, and learn what it is to be a Governor.

Farmers and merchants will find the weekly report of the markets published in the *Globe* of material benefit to them. Always look for the changes in the *Globe* columns.

A caution to carpenters and others—do not leave any combustible material such as shavings, etc., near your stoves, as terrible accidents occur from this specie of carelessness.

It is true that "all is not gold that glitters," it is not, also true that noble objects sometimes flicker awhile in the fancy only to tinkle it, and then disappear? *Vide* town hall, market house, etc.

The nail factory of B. Johnson & Co., in Hollidaysburg, which was destroyed by fire some weeks ago, has been rebuilt, and is again in operation. About one hundred men are employed in the mill.

Not a few persons, who were good enough to work at the fire on Friday last, got a plentiful supply of cough, cold and pain for their trouble, and were among the number. Wo, there fore, know how to sympathize.

Wild game appears to be unusually plenty this year, in this and neighboring counties. Eight panthers have been killed in Centre county. Wild cats and turkeys are the most numerous in this section.

We had another heavy fall of snow on Saturday night, which has made sleighing in tenfold better condition. Who will be the first to be upset in a drift? Upsets are pleasant—indeed they is, when you don't get hurt.

This year there are five Sundays in March, June, September and December. This is something unusual. The ministers will thus have four extra days to prepare the minds of the unconverted for the acceptance of gospel truths.

We had a visit from our friend Rev. Theo. L. Flood, who is now in charge at Sandhook, New Hampshire. He looks well, and if we may judge from his effort on Sunday evening last in the M. E. Church, preaching is his forte. Success to him.

Mathias Bowser, a soldier of the war of 1812, died at his residence in Greenfield township, Blair county, on the 2d inst., at the advanced age of 77 years, 6 months and 18 days. He was a native of Bedford county, born in Bedford township, near Bedford.

Nicholas Riley, convicted of the murder of James R. Crawford, at Gaysport, Blair county, on the 10th of October last, and who was sentenced to six years imprisonment in the Western Penitentiary, has been pardoned by Gov. Curtin. Riley is now at home.

Mr. Cornman, editor of the *Monitor*, met with an accident to his press on Saturday last, by which one of the supports of the plate gave way to too much pressure. He fears he will have to get another machine. Accidents will happen to printers as well as other men. However, we hope the break can be effectually repaired.

The Pennsylvania Reserve Association extend an invitation to any who may at any time belonged to the Reserves, to join this association. All who desire to participate in a banquet on the 30th of May next will address John H. Taggart, Box 652, Philadelphia, giving name, rank, company and regiment. Here's a chance, yo braver.

If we were not deceived we believe that there was an effort, made to establish a Reading Room in this place a short time ago. Why it failed, or why the Association has not been organized, we cannot tell. If that has fazed like that Town Hall, we can only attribute it to the lack of money or zeal, or want of confidence in our people, or the dread of striking while the iron was hot.

The worth of our two antediluvian (B. C.) fire engines was fully tested at the recent fire. Now, is there any property-holder who will hesitate giving a dollar or two to help getting a couple of useful modern engines? What will be the result in this matter? We think our citizens, rich and poor, are willing to submit to a tax in order to get good apparatus, and we hope the matter will be brought before the Council at its next meeting. There is danger in delay.

### Fire.

On Friday last about twelve o'clock, noon, the carriage-shop belonging to Mengel & Gabegan, situated on Washington street, near Bath, took fire in the basement story, and almost instantly the frame fabric was in flames, the fire having communicated to the paints, varnishes and oils with which the room was stored. Indeed, so rapidly did the fire spread that it was impossible, at the time it was discovered, to save any of the property. The proprietors were both at dinner, and reached the shop in time to see the flames spreading with increasing rapidity and fury. The engines were early on the ground, but unfortunately they were useless for a time, as both were frozen from having been left standing with snow or water in them. The Junia, the smallest engine, was the first to be put in working order, and then until the adjoining dwelling house of Mr. J. E. Greene had caught from the flames, which lashed with unquenchable fury over and around it. Fortunately, almost all the furniture, etc., in the dwelling, was removed before it caught. The other houses adjoining the conflagration—the brick of Dr. Snare, and the frame of Mr. Murray,—were saved through the exertions of our citizens; but it was with the greatest difficulty that a blacksmith shop to the rear was prevented from catching. It is the belief that if the large engine—the Phoenix—had been in fit condition, the dwelling house of Mr. Greene would have been protected, but it was not until the whole building was in flames that it commenced to play at all.

The unfortunate men lost heavily. Mr. Mengel lost in the neighborhood of \$1800; he had also some lumber, window frames, etc., for a new house, destroyed, besides a sleigh, carriages, and tools. Mr. Greene's loss is about the same. The house cost him \$1500, which he had recently paid for, and was about having it insured; he and wife lost some valuable clothing. Neither of the parties had insured their property, and they have accordingly met with almost a total loss; but we are pleased to note that the proverbial liberality of our citizens is being extended to them, who, all being in limited circumstances, are in need of the same.

It is not positively known how the fire originated, but it is thought that some shavings in the shop had taken fire from the stove.

**Huntingdon Cornet Band.**  
We are pleased to state that the above worthy institution has received the silver instruments, for which subscriptions were collected a few weeks ago. The band is now prepared to play with the best in the State, and under their efficient leader, Prof. E. W. Thomas, it will not be long, we think, before they will become as good as any.

The instruments they have received are beautiful, and the music they discourse is exquisite, owing, of course, to the skillful manner in which they are fingered. Our citizens can rejoice with us that we have such a good Band in our midst so well equipped, and we trust all will co-operate in securing their services wherever possible. We renew our congratulations to the Band, and hope they will continue to flourish their trumpets for many years to come.

**Grand Top Railroad.**  
The Huntingdon and Grand Top Mountain Railroad is 44 miles in length, extending from Huntingdon to Mount Dallas. At Huntingdon it connects with the Pennsylvania Railroad. The gauge of the road is 4 feet 8½ inches. It has 11½ miles of siding and 14½ miles of branch road, viz: Shoups Run 9½; Six mile Run, 4½; and Sandy Run, 1 mile. The weight of rail per yard on main track is from 45 to 60 lbs. The equipment of the road consists of 16 locomotives, 2 first class passenger, 4 baggage, mail and express, 3 freight, and 126 coal cars. The amount of capital stock authorized by law is \$300,000; preferred \$300,000; and by merger of the Bedford Railroad, \$250,000 additional. The amount of stock subscribed is 12,352 shares common, and 3,81 preferred. Par value of stock, \$50.

**State Convention of County Superintendents.**  
A body of intellectual "geuts" called County Superintendents, met in solemn conclave at Harrisburg, and after sundry sessions, during which grave and deliberate counsels prevailed, it was resolved that when they adjourned, they would proceed to the Mammoth Store of Henry & Co., and purchase a supply of Dry Goods, Oil, Cloth, Shawls, Coats, Circulars, Hats, Caps, Boots, Shoes, Hardware, Queensware, Groceries, Iron, Nails, Salt, Flour, Feed, &c.

P. S. The largest assortment of Ladies Furs in town.

**Another Chance.**  
We are requested to state that Gleason's Great Coat Sale will be continued until the 18th of next February, as about \$30,000 worth of the most substantial, attractive and best selected stock of Dry Goods, Clothing, Groceries, &c., remain unsold, and will be positively closed out at less than actual cost. See the incredibly low prices in last week's paper.

**Hay, Fodder or Straw Wanted.**  
The cash will be paid for a load or two of good hay, topped fodder, or straw, at this office.

### Spotted Fever.

We learn that this disease is prevailing to a considerable extent in the valley along the Raystown Branch, in this county. Three or four deaths have occurred from it. Its victims seldom recover, and their sufferings are of short endurance. It is supposed to be contagious, but of this we are not assured.

**Lost.**  
On the 31st of December, on the ice, on the Canal near the bridge at Cunningham's Store, a small round gold breast pin, with a pearl in the centre. The finder will be rewarded by leaving it with Dr. D. P. Miller. 1\*

**Three Months Labor**  
Reduced to one week, by the use of the Family Knitting Machine, now in operation on Washington St., opposite the *Globe* office. Its worth cannot be told on paper, therefore call and see it.

On the 29th ult., at Alexandria, by Rev. S. Moore, George W. Wall, to Miss MARY T. WALLACE, all of the place above mentioned.

We are pleased to note that our young "typo" friend has embraced the favored opportunity and got a good "take" in a handsome bride. He has gone west to publish a journal. A long and happy life to each of you, and may you make favorable "impressions" amongst friends in your new home.
