- The Tennessee Senate has passed the bill conferring suffrage upon negroes. A motion to strike out the clause preventing them from serving on juries or holding office was reject- tered the door with his prisoner, Leis ed by a tie vote. The bill having previously passed the House is now law, unless reconsidered, and that event is not probable.

The President it is thought, will allow the bill prohibiting him from rehiw without a veto or approval.

EDUCATION OF WOMEN.-It is a grand mistaken notion entertained by some that a woman does not need as liberal an education as a man. We can ofter hear men lamenting the deficiency in education of wemen with whom they are acquainted, and yet in the midst of their lamentations will argue that it is as it should be. They deem that her sphere is that entirely of the domestic circle, and all the education she requires is that which will fit her for the discharge of practical home duties. It is enough, they consider, that she is educated to be a dutiful wife, a dovoted mother, and an economical house-

keeper. It appears that custom has done much to prejudice men against the education of girls. As an instance, in many States there are schools for boys, supported by appropriations of the state Legislatures, while there are no such provisions for the girls of the Commonwealth. This is a defect which should be remedied.
