a vehicle coming in collision with it. The Japanese beat even the Americans in the matter of fires. Lately a conflagration

at Yeddo destroyed four miles of houses in the commercial quarter of the city. The President has approved the resolution to extend facilities to the citizens of the Uni-

A man named Botts has just received a horse which was stolen from him early in the war. If Botts was disconsolate without the horse, how happy was the horse to be free from Botts.

It is said that Jeff Davis is, and has for some time been in the receipt of large sums of money from his admirers, so that his income is equal to that of the President of the United States. That is the latest style of making treason odious.

Wm. K. Piper, of Ebensburg, and Mr. David Lutz, of this county, undertook to serve the same. They went to the Mills but finding he had left there they returned to Ebensburg, when Col. Upon getting them out he intimidated Cochran, and asked him to give him back the pistol, which he added was not loaded. Cochran did so very reluctantly, when Piper clinched with Matthews, who was going after his revolver, and threw him was going after his revolver, and threw him down and tied him, the other men not daring to interfere, as Piper was determined to shoot them if they did. Matthews was removed to Indiana, where he spent the night in jail.—

He endured this barbarity, and would not tell. Finding this mode of torture ineffectual they held him over the fire until the old gentleman, to save himself from a horrible death, made the disclosure that his money was in the cellar. Parents and Teachers.

We have at last, in "The Law of the object being a treaty with President Cabral, School Room," a clear explanation of securing the long desired Bay of Sahama as a the law of all States to the respective rights of parents and teachers. Whether a teacher has any jurisdiction over his pupils on the way to and from school for example, has always been a mooted question with many. "No man may plead ignorance of the law" is a legal maxim, and yet it would seem that ignorance of the law is the only excuse that any one can have for doubts on this subject. SKIRT.

The wonderful Flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded assemblies, operas, carriages, rallroad cars, church pows, arm chairs, for promenade and house dress, as the skirt can be folded when in use to occupy a small place as easily and convenients as a skik or mushid, dress, an invaluable quality in crinoline, not found in any single spring skirt.

A lady having enjoyed the pleasure, comfort, and great convenience of wearing the duplex elliptic atcel spring skirt for a single day, will never afterwards willingly dispense with their use. For children, misses and young ladies they are superior to all others.

They will not bond or break like the single spring, but will preserve their perfect and graceful shape when three or four ordinary skirts will have been thrown aside as useless. The hoops are overed with couble and twisted thread, and the bottom rods are not only double springs, but wive (or double) covered; prevonting them from wearing out when dragging down stoops, stairs, &c.

The Duplex Elliptic is a great favorite with all ladies and is universally reconnected by the Fashion Magazines as the standard elicit of the fashionable world.

To enjoy the f Howing inestimable advantages in crincline, viz: superior gradity, perfect manufacture, stylish shape and finish, flexibility, durability, comfort and comony, enquire for J. W. Budley's Duplex Elliptic or double springs skirt, and be sure you get the genuine article. CAUTION—To guard against imposition be particular to notice that skirts offered as "Duplex" have the red but stamp, viz: J. W. Bradley's Duplex Elliptic gradient of the strength, and a combination not to be found in any other spring.

For sale in all stores where first class skirts are sold throughout the United States and class where.
