

Our Prophecies Coming True.—We repeatedly set forth during last fall that the Constitutional Amendments meant negro suffrage. The Reconstruction Bill for the South has proved it for that section of the country, and the bill of Senator Wilson, which we published a week or two ago, is verifying it for the North.

Liberal with the People's Money.—The present Legislature is the most extravagant with the people's money, paid as taxes, of any that has ever met at Harrisburg. Until a final adjournment of that body, it will not be known how much of the taxes, hard to pay, have been thrown away by unworthy Senators and Representatives.

The Legislature of Ohio has sent to the people for decision, at the election next October, an Amendment to the Constitution, so as to make black men voters, and to disfranchise deserters. We believe the same thing was tried in the Pennsylvania Legislature, but three-fifths of the members not consenting, it failed.

Republicans, as well as Democrats, appear to be glad that Congress has adjourned. Why is this? True, some of the more Radical Republicans were anxious that Congress should remain in session, until their every plan had been accomplished; but the more temperate Republicans were anxious for adjournment.

The American Colonization Society are doing a commendable work, in shipping negroes to Liberia, who are desirous of going. Many of the blacks have already availed themselves of the advantages afforded in what might now be called their own country, and large numbers purpose following their companions.

CHINA WHIPPING.—It has been scarcely possible to take up a paper lately without coming across an account of one or more acts of fiendish cruelty practiced upon children. Within a few weeks three poor, helpless little ones—two of them moribund—have been brutally and horribly beaten to death.

Willing to Swallow the Poison.—The Mount Union Times speaking of our new arrangements, says:—"The politics of the paper will remain as before, the closing paragraph of the editors' announcement declaring that if the Republican press continue to endorse or wink at the propositions of the extreme Radicals, the day will soon come when the party will also be in the minority in most of the States in the Union."

Of course we have no objections to the Times endorsing or winking at the propositions of the extreme Radicals, but we claim for ourselves the privilege, as we feel it our duty, to neither endorse nor wink at such propositions—propositions the Republican or Union party voters would not endorse if given an opportunity for expressing an opinion at the ballot box.

A motion was made on Friday in the Supreme Court of the United States, on behalf of the State of Mississippi, for an injunction to restrain the enforcement of the Military Government Act. Attorney General Stanbery appeared to resist the motion.

The N. Y. Herald's Havana correspondence of March 29th says that a revolution in Hayti which had taken place was of the most bloody kind. The loss on the part of the Revolutionists was very heavy, and the streets of Port Au Prince were literally covered with the dead.

A Committee on Foreign Relations of the Senate have agreed to report the Russian Cession Treaty back to the Senate on Thursday next, without any recommendation. The friends of the treaty claim that it has gained strength, and if the Senate remains in session two weeks that it will be ratified by the two thirds vote.

The New York Republican State Committee has declared in favor of "impartial suffrage," at the North as well as at the South. This is consistency, if it amounts to nothing else. The people of the South are forced to accept negro suffrage by the reconstruction bill, but as the North did not need reconstructing, the Radicals are endeavoring to reach it in some other way.

The total number of hogs packed at all points in the West during the season just past, amounts to nearly two and one half millions. There is an increase over last year of more than seven hundred thousand. Cincinnati has ceased to be the greatest pork market of the country, that honor now belonging to Chicago, which this year packed 635,732 hogs against 463,010 packed at Cincinnati.

LATEST NEWS. 18,574 acres of public land were disposed of during the month of March. A riot occurred in Luzerne County last week, caused by a strike for higher wages.

The Wisconsin Legislature has passed a resolution to amend the State Constitution by giving the right of suffrage to women. An effort is being made by the English authorities to prevent the Irish emigrants from embarking for America. The Fenian outbreak in Ireland, it is thought, is at an end.

A young man in Milan committed suicide by shutting himself in a heated oven. It appears to have had some idea of acting like a well-bred man. England is threatened with more cattle plague. Bull has plagued the world so long, that the new calamity seems like poetic justice.

A citizen of Warren, Virginia, killed a few days since a hen which had laid for some months. Upon being opened fourteen full-sized eggs—one of them as large as a turkey's egg—were taken from her. The shells had not formed. So says the Warrenton Index.

Consideration of the Russian-American treaty is likely to be deferred until December. Seward is urging its ratification, and thinks that if the offer is not accepted the territory will be given to some other power. The British representative continues excited about the matter and hopes for the postponement of action by the Senate.

Connecticut. HARTFORD, April 2.—The returns are nearly all in, and the result will be as follows: The Democratic State ticket is elected by 700 majority. The net Democratic majority on the Congressional vote is 1,800, and the average Democratic on the whole ticket, 1,200.

A South Carolina correspondent of the New York Times, says it is clear the colored man will not vote as a unit. He says there are three classes. First, those who were free before the war, and who will vote with the old white population; second, the idlers who have left the plantations and live a thriftless life, who will go the most Radical ticket they can find; third, the largest class of all, who work and thrive, and who are inclined to support the Republican cause, but will do so at their interest dictates.

Pen and Scissors. Texas lost by the war, in round numbers, \$250,000,000. The annual production of diamonds is estimated at \$1,400,000. Americans pay \$11,000,000 a year for watches.

A young man in Milan committed suicide by shutting himself in a heated oven. It appears to have had some idea of acting like a well-bred man. England is threatened with more cattle plague. Bull has plagued the world so long, that the new calamity seems like poetic justice.

A model engine is to be exhibited at the Paris exhibition, which was constructed in 1864, in the workshops of the Orleans Company in France. It is remarkable for having run 93,750 miles in three years, without repairs. The total receipts of the government for 1866 were \$223,977,389, nearly \$50,000,000 more than those of any other year.

The arbitrators appointed by the Court to receive evidence in the case of certain sufferers by the 14th of September catastrophe here, viz. the P. R. R. Co., met agreeable to appointment in the basement of the new Lutheran church on Tuesday afternoon last. A few witnesses were examined, when the board adjourned until evening.

Most Singular Occurrence. One of the most singular freaks of nature that ever came to our knowledge was to be seen on Tuesday at the stable of Mr. E. B. Evans, in this town, in the shape of a deformed calf.

A good wife is one who puts her husband in at the side of the bed next to the wall, and tucks him to keep him warm in the winter; splits the wood, makes the fires in the morning, washes her husband's face, and draws on his boots for him; never scolds, never swears a rent to remain in her husband's small clothes; keeps her shoes up at the heel and her stockings darned; never wonders what her husband sees interesting in the young woman who lives across the way, and always reproves the children when they eat their father's supper.

Numerous breaks in the levees assure the devastation of the richest portion of South-western Louisiana. The giving way of the levee at Morganza, overflows seven parishes. This levee was one of the largest works of the kind in the world, and was but recently completed. Work is progressing on the Roman crevasse, fifty-six miles above the city, with some hope of closing it. The most recently reported break, nine miles below Baton Rouge, will do immense damage.

Be it enacted, etc., That after the passage of this act, any railroad or railway corporation within this Commonwealth that shall exclude, or allow to be excluded by their agents, conductors, or employees, from any of their passenger cars, or that shall refuse to carry in any of their cars thus set apart, any person or persons on account of color or race; or that shall, for such reason, compel or attempt to compel any person or persons to occupy any particular part of any of their cars set apart for the accommodation of people as passengers, shall be liable to an action of debt to the person thereby injured or aggrieved in the sum of five hundred dollars, the same to be recovered in action of debt as like amounts are now by law recoverable.

Terrible Explosion in a Coal Pit. Wednesday morning, at 7 o'clock, a terrible explosion occurred at the coal pit of the Rush Run, on the Cleveland and Pittsburgh Railroad, eleven miles below Steubenville. The Steubenville Herald says the curbing sixty feet from the mouth of the pit was out of order. Thos. Payne, Luke Harris and Thos. Paton descended with tools to repair the curbing, and in five minutes after they had announced their safe landing on the platform, a most terrible explosion occurred, blowing the beams of curbing, stones and dirt out of the pit, with such force as to lift the roof of the building. Paton was blown out of the pit against the roof, and fell with a mass of timber directly across the mouth of the pit, entirely dead and very much burned and disfigured.
