Wednesday morning, April 24, 1867 WM. LEWIS, HUGH LINDSAY,

"I know of no mode in which a loyal citi zen may so well demonstrate his devotion to his country as by sustaining the Flag the Constitution and the Union, under all circum stances, and under every Administration REGARDLESS OF PARTY POLITICS, AGAINST ALL ASSAILANTS, AT HOME AND ABROAD,"-STEPHEN A. Donglas.

The probabilities of war in Europe during the coming summer is keeping up the price of produce and may run it up still higher.

The Sonate adjourned sine die ident was present to facilitate the transaction of business.

THE little arrangement between our member of Congress, Mr. Morrell, and John Nash & Co., by which the latter was to pocket \$500 as the price of his has been rejected by the Senate. And pose our new Congressman would so soon be corrupted, and that he would attempt to lead our neighbors into Washington and Harrisburg practices.

When women vote, the death pensent to houses of correction, and there ent. kent for life or years, doing light fancy work and domestic labor. All the legalized haunts of crime, which stand as rivals to virtuous homes, will, at least. have a struggle for life. Women will not work for half pay, and vice will not furnish her the most profitable employment, and all parties will grow better and wiser; or the principle of self-government is founded in error.

WANTS A NAME .- The new territory of Russian America, for which the U. S. Senate has bargained, is in want of a name. Many have been proposed, and amongst them many "jaw breakers," only in vogue in such out of the way places as border on the Arctic Ocean. Whatever name is selected, we hope it will be nothing foreign. Give us something American, which Americans can pronounce. But first let us be sure we have it, when the appropriation, before the name is thought of.

Growth of the United States.

The territorial growth of the United States has been no less surprising than their growth in population. Beginning at the peace of 1783 with only 820,680 square miles, they added 889,579 by the purchase of Louisiana, 66,900 by the acquisition of Florida, 318,000 by the annexation of Texas, 308,052 by the Oregon treaty and 550,455 by the Mexican treaties. The Commissioner of the General land office in 1860 estimated the land area of the States and Territories at 2,943,257 square miles, or, including the Indian Territory, 3,010,277 square miles. The area of the Russian Possessions in America is computed at 481,275 square miles. The annexation of Russian America will swell the grand total of square miles embraced within the United States to 3,491,553. In a little more than eighty years the original dimensions of the republic will have thus expanded to an almost fourfold degree. Mo nation has ever enlarged House gets through with making the its boundaries more rapidly to so great an extent, or made at less expenso more valuable acquisitions. Another Big Gun.

A twenty-inch gun was cast at the Fort Pitt Foundry, Pittsburg, on Monday last, which makes the sixth of this calibre cast at these works.

The mould for this monster was placed in the pit on Wednesday last, the 10th instant. Seventy tons or 140,000 pounds of iron was placed in three furnaces ready for operations. In furnace No. 4, were 68,000 pounds in No. 5, 36,800, and in No. 6, 36,200 pounds. Yesterday morning, at four o'clock and thirty minutes, the fires were lighted in the respective furnaces. Troughs were laid, leading from the furnaces to the pool near the The trough leading from No. 4 was sixty feet in length, that from No. 6 twenty-five feet.

At eleven o'clock the three furnaces vere tapped, and the molten metal commenced running to the pool. Two conduits led it from the pool to the pit, running it into opposite sides of the mould. The process of filling the mould occupied twenty-seven minutes, the flask being filled at twenty-seven minutes past eleven. While the metal was being run in, and subsequently, a stream shoold water was run in and out of the hollow core barrel of the mould at the rate of twenty gallons per minute. When the water commenced running it had a temperature "loyalty" to his party didn't work to perfection—it didn't. We didn't supand in forty minutes to 120 degrees. The temperature of the water increas ed for about an hour.

The material of which the gun is cast is the best Juniara iron, made from Brown Hematite ore, at the Bloomfield furnace, about twelve miles from Hollidaysburg. The rough weight of the gun when taken from the mould will be 140,000 pounds, and when finished it will weigh 95,000 pounds. Its greatest rough diameter will be sixty-six inches: its diameter at the muzzle, forty eight inches. The greatest diameter when finished will be sixty-four inches, and the diameter of the muzzle, 38x90 inches. The length of the finished gun will be one hundred and eighty-nine inches, and the length of the bore one hundred and fifty-seven inches. The depth of the pit in which it was cast is twenty six feet, and the dopth of the mould, inside, twenty six feet and nine inches. About two weeks will clapse before the great thing will be ready to take out. It will then be conveyed to the "proving ground" and tested, a ball one thousand pounds in weight being Nine charges of mammoth used. powder will then be employed, the first three charges being sixty pounds each, the second three eighty pounds

pounds each. The casting was as perfect a success as was ever achieved. The final destination of the gun had not been deci-ded by the Ordnance Bureau when they ordered it.

MORAL AND AMUSING EXHIBITION

DAN RICE, in his popular role of the AMERICAN HUMOREN, on CLOWN TO THE RENA. This event has only been brought about by the most carrest persuasion and the great desire of the public to once more behold the particular gentleman in his original character; and as this is more than probably Mr. Rice's

FAREWELL TOUR, one should fail to hear his humorous and learned expositions of the GRAT EVERTS OF THE DAY. Remember, therefore, that DAN RICE TILL MOST POSITIVELY APPEAR AT CASE
THE APPEAR AS THE APPE

and equipped in the most etrem masses; and in the Crand Stroet Parade, which will take place daily at about 10 A. M., will form a blaze of splendor seldom if ever equalled. The Manmoth Pavilion will be complete in all its retails, and will be so arranged as to afford the best posible accompations to the public, while comfortable mass will be provided from ALL.

The Ring Performance,
which is under the practised eye of COL. DAN RICE,
will positively be, beyond doubt, the best in America.
