-The local papers in the State are crying out against the base ball nuisance. The enthusiastic ball players may not like it, but sensible may not like it, but sensible people will. Let those who love to play the game keep a strict account of the leisure hours in which they play, the business hours in which they talk and think of it, the number of boys they have seen injured, the number of scoldings they get from their employers, what blow the horns. Our wish is that the amount of money it takes for bats, they may have many profitable occaballs, bettings on match games, cost of travel and "extras" to ditto, and then at the end of the season, see if it pays to play base ball.

The undersigned has made arrangements with Prof. Wyeth, of the Huntingdon Academy to open a school for the instruction of teachers, the term to commence on Monday June 3d, and to continue four weeks, or longer, if propor encouragement is received. chief object of the school will be to give instruction in the branches usually taught in our common schools though any of the higher branches of ers will notice that under the School Law, as lately amended, U. S. History and the theory of teaching are added to the usual branches, and that a highor grade of certificate is required Botter qualified teachers are imperatively demanded in our primary schools, and unless they can be obtain ed many of them had better not be opened at all. It is a common, though most pernicious error, to suppose that almost any teacher will suit for small children, or a school that is not advanced. We have been acting on that theory too long, and the sooner we abandon it the better.

We are well aware that teachers com plain that their compensation is too small and that they cannot afford to qualify themselves any notter. But if teach ers are ever to receive any better wages, (and we trust the time is not far distant when they will) the change must be effected by their own exertions. At the present time a well qualified teacher can command more than double the wages of an inferior one, and the truth is that though good teachers are not sufficiently remunerated, yet poor teachers are dear at any price. But leaving teaching out of the question, money rightly invested in an education, is always good stock, and no one need suffer any loss by such an investment.

Many of our teachers are making laudable endeavors to improve, and we trust that a goodly number of others vill imitate their noble example. Prof. Wyeth is a thorough scholar

and a teacher of much experience; and whatever assistance I can render him will be cheerfully given free of charge. For terms see advertisement. D. F. Tussey, Co., Supt.

Palmer left Bedford with Mr. Meyers and others to spend a few weeks in Washington, D.C. On return of the party to Huntingdon, he is represented as over-sleeping himself and going on up the road to the next station, from which he returned to Huntingdon, but too late for the Broad Top train. He loafed around Huntingdon for several hours, when he announced that he would go up to Altoona and see some friends and return with a late train. He was afterwards seen in Pittsburg, and still later by a lady of the upper end of the ounty, somewhere in Ohio. It is currently reported that he passed through Huntingdon on Sunday evening, the 5th inst., on the Cincinnati

Express. Whether this be so or not. t is evident that he has deserted his friends here. He had collected several thousand dollars of back pay, bounty and pension for different persons, a number of them poor widows,

There are eleven lodges in the county, and two more will be organized before the meeting of the Grand Lodge in June next. We doubt whether any

county in the State has as many lodges of this benevolent order, or can show as great a zeal or awakening in don. We judge there are over 1000 Good Templars in the county. All the Lodges which have been organized are working admirably, and are proparing the way for Total Prohibition.

A serious if not fatal accident occurred yesterday to James McCue, an employee on the stone wall in Jack's Narrows. The young man was assisting in shifting a derrick on the scaffold, when he accidentally fell a distance of about twenty feet, to the rocks in the bed of the canal. He had one arm badly broken, besides receiving internal injuries in head and broast. The physicians report his recovery doubtful, but at the latest accounts there was still hope.
