Monday's Wash.

We can imagine no more interest ing spectacle than that of a woman gazing on her Monday's "wash," as it hangs on the line, and swings backward and forward in the soft breezes, rising and falling as gently as the breathing apparatus of babyhoodwhite, clean and sweet as the breath of cows-and times without number have we witnessed such a sight, and longed to be a clothes line. Who has not noticed the look of satisfaction and pride that rests on the countenance of woman as she regards her Monday's "wash"? Standing equi-distant from each end of the line, with feet planted squarely and with a slightly turnedout inclination on the green sod, hands on her hips, and her calico suds-dripping apron kept on her head by hold ing on a corner of it with her teeth, she views that "wash" with proud satisfaction, and is as vain of its purity as a conquering hero of his success on the field of strife. She feels herself a victor! She realizes that it is her elbow grease that has produced the happy change in that string of linen; her muscle that cleansed that line of clothes and made them a third whiter than Mrs. Jelleyberries' that hang on the other side of the fence. There are no yellow "streaks" in all the "washing" physical power and Bohea tea have won a victory for our woman of which she has a right to boast. The woman and her wash is a study for a painter! What scope for slinging paint! We wonder it has never been put to can-

TAN BARK FOR POTATOES.—This subject is brought before the farmers of England, by a communication in the Mark Lane Express. Mr. R. B. Bamford claims thirty-five years' practice and experience in this matter; and has issued a pamplet giving his method of using it, which is in brief the following: He does not cut his potatoes for setting, but sets them whole, and the largest he can select. The rows are thirty inches apart, and the potatoes are put in nine inches from each other in the row. The land is plowed only eight inches deep, treads the manure firmly in the furrows, puts in the tubers, and covers them with tan refuse, nine inches deep, instead of earthing up. In this way he reports that in 1857 he raised 575 bushels of potatoes-not a rotten one among them, to the acre, with nothing but waste tan as a covering. This is of great importance, the tan refuse being of little or no value, and if it can be put to so important and advantageous a use as in this case, it should be widely known and practised.

COST OF LIVING EAST AND WEST .-The cost of living in the east and in the west is contrasted by a correspon dent of a Chicago journal, who says have been surprised to learn, while in New England, that the cost of living is really less here than in the West from which bread and meat is transported to supply New England. Flour is only a trille higher per barrel in Portland than it is in Chicago, and po-tatoes and all other vegetables are considerably cheaper. Only four articles cost more there than in Chicagobread, meat, butter and lard; all else which is needed in a family costs less. Rents here and in Boston, in the man-ufacturing towns of New England generally are nearly one half less than in Chicago and the small towns of the West. Wood and coal are no higher, while clothing, furniture, dry goods, boots and shoes, are from ten to twen ty per cent. cheaper.

PAINT FOR BRICK HOUSES .- A correspondent of the Ohio Farmer has used a cheap and durable paint for the exterior of brick dwellings, which has stood several years, and is now quite as fresh as when first applied. It con sists simply of lime wash, with sul phate of zine as a fixing ingredient. Any requisite shade is given by adding the colors used by house painters. A clear and rich cream color may be obtained by applying yellow other to LARGE STOCK OF GOODS, the common new brick. A livelier and warmer shade will be added by a little Venetian red. Burnt Sienna may likewise be used. The paint is far cheaper than oil paint, and costs butlit- DRY GOODS, tle more than common whitewash.

A useful cement is made by taking two parts of finely sifted unoxidized iron filings, mixing them with one part of perfectly dry and finely pow dered loam, and kneading the mixture with strong vinegar until a perfeetly homogeneous plastic mass is formed, when the cement is ready for use. It must be made as wanted for it quickly hardens, and once set, is never fit for use again. The cement is said to resist fire and water.

REMEDY FOR A BURN. -The best thing for a burn is the following, and every family ought to know it:

As soon as possible after the burn. throw a little green tea into hot water; let it steep. Stir up an Indian meal poultice. Spread the tea leaves on the poultice, put it on the burn or scald, whichever it may be. If burnt DRESS TRIMMINGS, EMBROIDE with powder, it will take the powder out, and the skin will be as clear as

PROF. . H. M'ENTYRE'S GREAT REMEDY.

Internal and External Medicine WILL CURE:

23- Diarrhea, Bloody Flux in one day, 23- Headache and Earache in three minutes. 23- Toothache in one minute. Do- Neuralgia in five minutes, &B Sprains in twenty minute

Dr Sore Throat in ton minutes, Mir Rheumatism in one day, D. Bad Coughs or Colds in one day,
Exerc and Ague in one day,
D. Cures Deafness, Asthma, Piles,

Bronchitis Affections, Dyspepsia, 13. Liver Complaint and Palpitation of the Meart Keep it in your Families—Sickness comes when least expected.

I propose to check, and effectually dissipate more ache and pain, and to accomplish more perfect equilibrium of all the circulating fluids in the human system, than can be effected by any other, or all other methods of medical aid in the same space of time.

THIS POPULAR REMEDY is fast coming into use, for the fact that I cure, free of charge, all these complaints whenever there is an epportunity to do so. As soon as it is applied it almost miraculously kills the pain. I do not ask you to buy before you are certain of its efficiency. If you have an acheor pain, it is warranted to do all it purports on the label.

I do not propose to cure every disease—only a class named by my directions. My liniment operates on chemical and electric principles, and is, therefore, appliable, to the cure or natural restorative of all organic derangement arising from an improper circulation of the nerve vital fluids.

vital fluids.

Prof. J. H. McEntyre's INDIAN COMPOUND acts directly on the absorbents, reducing glandular and other swellings in incredible short time, voitiont any possible danger from its use under any possible circumstances.

This is an internal and external nedicine—composed of roots, herbs and barks, such as our forefathers used.—
There is a bountiful supply on earth to curvall complaints if we only know what they were.

This has been a great sindy with the Medical Faculty for many years, to find out the kinds best adapted to the above complaints—low to put them together, and what proportions to use.

Terra Cotta DRAIN PIPE, Hot Air REGISTERS for

JAMES A. BROWN.

Hitherto there has been nothing introduced in way of a Marriago Certificate that has excited any interest or attraction; but the originators of the PiloTrOGRAPH MARRIAGE GERTIFICATE claim: that they have gotten up something that will be most heartly welcomed by all persons now married and all those who contemplate marriage. Size and Plan of the Marriage Certificate

And others will see that my stock comprises many more fair articles in their line, such as Seythes, Rakes, Spades, Pointing axes, Girindatones, Wove wire, Gardon Rakes, Horse hanes, D18570N'S MILL SAWS, Trace Chains, Hatter chains, Circular, Crosseut, Wood Curry combs, Horse brushes; and Meat Saws, Wagon Jacks, Shovel Myndls, Mann's axest Trowels, &c.

Also, two or three kinds of the best

HORSE HAY FORKS.

Made in the United States and by which a load of hay can be taken from the wagon to the mow in about, fare minutes. These forks save labor, hay and money, and no triving farmer can afford to do without one. The EXCELSIOR FORK has been extensively need and gives great satisfaction.—I warrant all the forks I sell.

COALOIL LAMPS & LANTERNS

COFFIN LACES and all Trummings for Cabinet-makers of the money from the wagon of the water. They are light and convenient, so that every man can put in his own pump, the whole only costing him about one half the price of other pumps. Pumps, and wooden pipe to suit them, promptly shipped by railroad on receipt of orders. Give depth from floor to bottom of well.

Terra Cotta DRAIN PIPE, Hot Air REGISTERS for Ceilings, COOK STOVES, of any pattern desired.

Park and the first a place for the photograph of the price of other pumps. Pumps, and wooden pipe to suit them, promptly shipped by railroad on receipt of orders. Give depth from floor to bottom of well.

Terra Cotta DRAIN PIPE, Hot Air REGISTERS for Ceilings, COOK STOVES, of any pattern desired.
