[We are requested to publish the following from the Bellefonte Central Press.]

Messrs. Editors:—It occurs to me that the time has come for the consideration by the Republicans of Centre county of the question of selecting a candidate for Senator in this District. Blair and Ferry having had their term in it, it is fair to presume that of the remaining four counties no one can successfully claim the nomination. There is no good reason why Centre county should not be one of the two to do so. It is a large county, and is entitled to a representative in the Senate. The Republicans of this District expect the nomination of new men, and desire it. The interests of the people of this county demand the election of Senators from men who have never been at Harrisburg as Legislators, and whose integrity for integrity is beyond question. The other counties all have candidates already in the field and will not doubt, press strongly the claims of their selected representatives for a nomination in the Senatorial conference. There never was a time when our prospect of securing a Senator was better than at this time. We are not going forward, however, as yet. I therefore propose the name of WILLIAM P. WILSON, of Bellefonte, as one on whom we can all unite, and a man who will serve us well in the Senate of Pennsylvania.

He has lived his whole life in this county, and his character is well known to every citizen of it. No man will presume to doubt his integrity, his republicanism, or his ability. He has been a faithful worker, and deserves consideration as the hands of a Republican. He cannot be purchased by any consideration to betray the men or principles he represents, and he represents the true interests of this county and District in the Senatorial and political question. I hope the Republicans of the county will unite in his support, and secure his nomination.

A CITIZEN OF HARRISBURG.

Huntingdon and Broad Top Railroad.

The following highly complimentary notice of this road has been handed us, says the Bedford Inquirer, by a gentleman whose few discriminating matters of this kind is not to be questioned. We sometimes hear of some nervous old creature who prefers thirty miles of slow coaches to this route, (whose case is to be pitied) but in general the other persons who try this road find, as it is, perfectly safe and satisfactory. The compliment is well deserved.

Messrs. Editors:—Have you traveled over the H. & B. T. M. R. lately? If you have you no doubt observed a very great improvement. Within a few weeks I have gone over it six times and with as much comfort as could be expected on a short road. When you leave Mt. Dallas you can rely upon arriving at Huntingdon at the promised time "sharp" and so vice versa. In other words the trains both ways are run according to the schedule, and when that is done travelers are satisfied even though the speed is not so great as that of the lightning line on the Pennsylvania Central. There are now no annoying delays at the different stations. The trains stop to let off and take on passengers, but there is no waste of time. What has to be done is done promptly, and you feel that all the employees are attending to their business like men determined to do their present duty to the best of their ability. The mails are brought in by Bedford regularly and passengers by the evening train arrive at Mt. Dallas in time to get a good night's rest. This gratifying state of affairs is attributable, I am informed, to the energy and business capacity of Mr. McKelips, the present superintendent, a quiet, unobtrusive gentleman, who is certainly "the right man in the right place." In going over the "irreducible work" I noticed that it had been renewed and repaired in the most thorough manner. The work was done under the direction of Mr. Fulton, the Chief Engineer of the company, who does skillfully and well whatever he undertakes. A TRAVELER.
