can be enforced by practice.

6. That to the traffic in intoxicating drinks as a beverage may be traced a very large poras a between the pauperism, insanity, crime and casualties of the country, and that against these evils as a civil right the people should be protected by wholesome legislation, and that as a license gives freedom and apparent respectability to the traffic and denies the proper protection to the people; therefore, it ted assault and buttery, was found is the right and duty of the people of this guilty. Pending the consideration of the first resolution the President elect, Mr. Scott, made his appearance, and was nvited to preside and also to favor us with an address. He declined the former, having as he said only a few minutes to remain in the Convention, but favored the Convention with a short address, after which he excused himself, and retired from the room, when the Convention resumed the consideration of the resolutions before it.
