It is pronounced by Farriers, and all who have tried it to be the best application ere; used. This Embrocation has been put up for over eight years, and it is only through the increasing demand and urgent request of my Iriends and the Public that I, send it forth as the grand remedial agent for the various diseases to which that noble and useful animal, the horse, is subject.

Many remedial share for the various diseases to which that no have now any whely improper to answer the tuposes for which they are recommended.

A judicious and really useful composition, free from these objections, has therefore long been desired by many gentletnes who have valuable horses, and are unwilling to trust them to the care of designing and prelended Karriets. Their wishes are at length fully gratified, by Dr. Beate being prevailed upon to allow this valuable Embrocation (which has proved on effections to the various diseases) to be prepared and brought out to the public. Application. ilc.
This Embrocation was extensively used by the Government during the war.
