LEWIS' FAMILY GROCERY.

CUNNINGHAM & CARMON THE CHEAPEST AND BEST AR. PERFECT TIME-PIECE FOR ONE DOLLAR. SOLAR WATCH, or Perpetual Portable Sun-Dial. arranted to keep True Time for every Day of the Year

This valuable instrument, which is warranted by us to give the true time of day throughout the year, is constructed on strictly scientific principles, being based on astronomical tables and calculations, and affording the truest measure of time which human ingonuity and skill can devise, exceeding in accuracy and reliability the most perfect chronometers, whilst the low price at which we offer it to the public places it within the reach call. Its portability makes it convenient for travelers, and to every farmer or householder it must prove invaluable to regulate their clocks and watches by the most infallible test recognized by science. harmor or householder it must prove invaluable to regulate their clocks and watches by the most infallible test
recognized by science.

The mode of using the "Solar Watch" is the simplest
that can be devised. After screwing the Style or themon in its place in the moveable brase head and setting it
directly over the straight line corresponding to the day
or that nearest to it on the cylinder, the instrument is
placed upright in the sunshine in such a position as will
throw the shadow of the Style directly upon the line nuder it. After placing the plumb-line, by means of its
brass attachment, at a right augle with and to the left of
the Style, in order to set the cylinder perfectly level, the
opinit where the extremity of the shalow fulls, and its
distance from any of the wavy or cross lines exhibiting
the morning and corresponding afternoon hours, will indicate the true time ofday.

This whole upparatus, consisting of a Cylinder and Diagram, moveable Brass Head, Style, Plumb line, and Brass
attachment for the same, neatly put up in compact boxes,
is soil by us at the incredibly low price of ONE DOLLAR.
