Announcements.

LOCAL & PERSONAL.

ASSEMBLY. The friends of JOHN M. STONEBRAKER Esq., of Brady township, will present his name to the coming Republican Convention, in August, for the office of Assembly. Mr. Stonebraker has the ability to make a good representative, and his nomination will be hailed with delight by the entire party.

June 10, 1868-pd.

Without any solicitation whatever from either friends or enemies, I have concluded to announce myself as a candidate for Assembly in this legislative district, subject to the decision of the Republican County Convention and district conferees. I wish it to be understood that I do not hereby undertake to loan money, endors notes, and contribute to all the religious, charitable, literary, and benevichen objects on this continent. If cleeted, I will attend to the people's business, if not I will attend to my own.

Huntingdon, June 3, 1803-pd

The undersigned respectfully offers himself as a candidate for Assembly, subject to the decision of the Republican County and District Conventions, and if nominated and elected, he pledges himself to discharge the duties of the office honestly and to the best of his abilities.

IENNEY GRAFUS. Porter twp., June 1, 1869-pd

SHERIFFALTY.

I respectfully announce myself as a candidate for the effice of Shoriff of Huntingdon county, subject to the decision of the Republican County Convention.

I. W. MYTON. Huntingdon, June 10, 1868 pd

I respectfully announce myself as a caudidate for Sher-iff, subject to the decision of the Republicas County Con-vention If nominated and elected, I will discharge the duties of the office to the best of my ability.

The decoration of the soldiers' graves or the 30th ult. was universally celebrated, and everywhere the ladies took a prominent part. Just like them—they are ever ready to do no-

evening, at 9 o'clock. Some of our exchanges are put to their wit's end in regard to a notice posted in Altoona, which reads thus: "All prepaid mea-

There is too much reading done for amusement and not enough for instruction. If the American people devoted one-third the time they now waste in perusing flash literature to reading works of instruction, examining subjects of importance in science, the mass of our fellow-citizens would be the best informed people that ever lived.

A recent storm passed over Bedford county, and did some damage. The house of Mr. Charles Stuckey, near Bedford, was struck by lightning, and somewhat injured. Capt. Simon Dickerhoof, working in the building, was shocked. Mr. Joseph Gohn, of Juniata township, was out in the storm with his team and the latter were instantly killed by light ning, and he seriously injured.

We have received a book entitled "Vulgar we inverted the observation of the regardisms, and other errors of speech," which if placed in the hands of many who murder the King's English, would be a material aid in teaching them to avoid the popular vulgarisms and use of improper words. Terrible Accident on the Broad Top Biair County Republican Ticket.

For the first time since the Broad Top Railroad has been in existence. has one of the trestles given way while cars were passing over; but it was left until Friday morning last for such an accident to occur. A coal train of twenty-five cars was passing over the trestle-work above Rough and Ready, when the supports commenced to give way, and suddenly the structure for a distance of sixty feet, together with all the cars, were precipitated seventy feet below, producing a wreck of cars that

has seldom if ever been surpassed. The locomotive passed over the dangerous place, but the tender broke loose at the coupling and went down with the other cars. There were three brakemen on the cars—one of them named Al fred Houpt jumped from the train as it commenced to fall, and landed seventy feet below on soft ground, and escaped miraculously from instant death, the only injuries he received being a bro ken arm and some wounds in the side. Another brakeman named Samuel Reid failed to jump from the falling mass, and was carried down with the cars, and was buried under the coal, from which he was not excavated until in the evening, when it was discovered that he had a terrible gash in the head that must have killed him instantly. The flagman had barely time to jump from the rear car to the remaining trestle work, or else he too would have been injured or killed. We also learn that the fireman was on the tender of the engine as the trestle gave way, and jumped to the engine, but missed it, and falling, eaught hold of a part of

the trestle, and drew himself up.
This trestle work is nearly as high as the Stonerstown trestle, and though constantly kept in repair, yet it is be lieved some rotten supports have caused the ruin and death. The train was heavy, and it is supposed that the drawing of heavy trains over the road, caused by increasing business, has had the effect of weakening the wood work. There ought to be iron suspension bridges in order to make the road as secure as it should be, and we think increasing travel and business would emunerate the company for the ex

conse attending their crection. The travel on the road still continues ut the carrying of coal and other damage is repaired, which is now being done as rapidly as possible.

l Sharp Dodge by a Prisoner. A man named DeArmitt, who has been arrested the second or third time for stealing horses, was again placed in our jail last week, and on Friday last he told the Deputy Sheriff, Mr. Wm. Bathurst, that he would not sleep on the bed clothes in his room, as they were full of vermin. The Deputy told him it was not so, but the prisoner insisted that it was, and told him to come in and see He had just got in when the prisoner slipped out and quickly turned the key of the door on burg, was last in a clump of woods, but was found after six or seven hours' search.
