THE Cumberland (Md.,) Union says: "We are informed that the crops genorally look remarkably well in many portions of this county. The fruit also promises an abundant yield, perhaps with the exception of the peach crop, which it is supposed have been seriously injured by the late frosts."

THE Council Bluff (Iowa) Democrat says :- "We learn that the crops in this county in some localities are prot-ty badly damaged by the grasshoppers. They have commenced on the corn frop, and are going for it heavy. A farmer told us yesterday that he had been trying carbolate of lime, but the grasshoppers rather liked it."

The new species of the potato bug, known as the "ten-line spearman," which created such havor in Eastern Illinois last year, is making its appearance in very large numbers in some soctions of Western Indiana. About Laporte some farners are ploughing.
