

"GOD SAVE OUR PRESIDENT"

BY FRANCIS DE HAES JUNIOR. All hail! Unfold the stripes and stars? Ten times ten thousand patriots greet...

Economy in the Family. The time is arriving when more economy in the family expenses will become imperative.

Never shall we come to their level, for our country is new and differently situated, but the next generation of Americans cannot hope to live as we have, and there we would take our lesson.

STUR ON WOMEN.—Of all the evils prevalent among young men, we know of none more blighting in its moral effects than the tendency to speak slightly of the virtue of women.

As a rule, no person who surrenders to this debasing habit is safe to be trusted with any enterprise requiring integrity of character.

Plain words should be spoken on this point, for the evil is a general one, and deep-rooted. If young men are sometimes thrown into the society of thoughtless or even lewd women, they have no more right to measure all other women by what they see of these than they would have to estimate the character of honest and respectable citizens by the developments of crime in our police courts.

Let young men remember that their chief happiness in life depends upon their utter faith in woman. No worldly wisdom, no material philosophy, no generalization can cover or weaken this fundamental truth.

We Pass For What We Are.—A man passes for what he is worth. Very idle is all curiosity concerning other people's estimate of us, and all fear for remaining unknown is not less so.

Many men and women have had occasion to know that two do not necessarily make a pair.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair.

Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.

This hair is thickened, falling hair checked, and baldness cured, though not always, cured by its use.

Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed.

But such as remain can be saved for usefulness by its application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous.

Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a

HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co., PRACTICAL AND ANALYTICAL CHEMISTS, LOWELL, MASS.
