The Bankrupt law will soon cease to operate. It will not again be extended. Many of the cases in this District, we understand, will be stricken off under the law for want of attention on the part of the Bankrupt.

One hundred and sixty barrels of ale were ruined in Buffalo last week. That amount had to be drawn from the vat to fish out an individual who had fallen in and drowned. Coroner's verdict—"died from too much ale."

It is true as an exchange says that it is, quite happens that a person would give almost the price of a whole year's subscription for a single copy of the paper containing something which interests them. You can get the paper for a whole year for the sum of two dollars, which isn't four cents a week out of your earnings.

Good Templars Convention.
The Quarterly Convention of the Good Templars of this district was convened in this place on Tuesday last and adjourned on Wednesday evening. There were over twenty lodges represented, and the reports from them indicated that the lodges were in a flourishing condition, with few exceptions. The time of the Convention was taken up with the discussion of a series of resolutions, not a few of which were of the "teetotal whole-grain" complexion, and which were unanimously passed. Public meetings were held each evening. On the first evening Mr. S. B. Chas. the Grand Worthy Templar of the order in this State, delivered an able and instructive lecture, and on Wednesday evening, remarks were made by Rev. Mr. Morehead, S. T. Brown, G. W. P., and others. The next Convention will be held in Hollidaysburg on the third Tuesday in February.

In the Young Men's Case.
We find the following item in the last Monitor:
"The latest forgery—the Card" published by the *Globe* and *Journal* last week purporting to be signed by J. S. Cornman. Such a piece of malignant villany could only be conceived and perpetrated by such men as conduct the *Globe* and *Journal*."

We simply ask this week, what has been our offense? The article we published—and the *Journal* published the same—was also published in the *Monitor* for editorial use. We copied from the original manuscript, of John Scott, Esq., and the paper was signed by J. S. Cornman in Mr. Scott's office in Sheriff Neely and John. Where the forgery comes in we are at a loss to know. We ask for an explanation.

County Institute.
The attention of teachers and school directors is invited to the call of the County Superintendent for the Teachers Institute which meets in this place on Monday, the 14th inst. As every measure has been taken to provide for the accommodation of teachers in our midst, during the session, it is to be hoped that none will neglect attending; and School Directors are requested to grant the teachers the time to attend. The meeting promises to be as attractive and profitable as the Institute last year, and the attendance of teachers should be equally as large if not larger.

Mr. William Goodman, of this place, who was run over by a caboose at Mill Creek on Monday morning last, died on Monday afternoon last. His sufferings were great, mortification of his legs having taken place. He leaves a wife and two small children to mourn his loss.

County Teachers Institute.
To the Teachers and School Directors of Huntingdon County. The Huntingdon County Teachers Institute for 1898, will be held in the Court House, in Huntingdon, commencing on Monday, Dec. 13th, at two o'clock, p. m., and closing Friday evening, Dec. 18th. Teachers, School Directors and Friends of Education are invited and respectfully urged to attend.

Prof. S. G. Boyd, of York County, Miss Fannie Haley, of Boston, Mass., H. W. Fisher, Supr. of Bedford County, and Prof. M. Mohler, of Millin, will be present as Instructors.

Prof. Boyd, K. A. Lovell, and S. T. Brown, Esqs., and Dr. J. H. Witrode, will give evening readings. Essays will be read by a number of Teachers.

A spelling contest will take place, and suitable prizes will be awarded to the three teachers missing the fewest number of words.

Teachers on their arrival in town, will report immediately at the Court House, have their names enrolled and receive tickets.

All teachers who are preparing to teach, will receive tickets, and be regarded as members of the Institute on entering their names on the roll.

The committee on permanent certificates will be elected on Monday afternoon.

In accordance with a suggestion of the School Department, Thursday will be considered "Directors' Day."

It is hoped that a goodly number of directors will be present on that day, as matters in which they have a particular interest will be attended to.

It is desired that every Board of Directors in the County will grant their teachers the time to attend, by this course, for teachers who attend County Institutes invariably teach better than those who do not attend, and as to "putting in time," there is only too much of this kind of teaching done in many counties than is done in four. We ask School Directors then as guardians of the interests of our common schools to lend their influence to induce teachers to attend the County Institute.

Teachers of Huntingdon County, we ask and expect every one of you who has any professional pride, every one who does not wish to see our county disgraced by a want of professional zeal, and every one of you who realizes the responsibility of his position, not to batch worthless excuses but to come on Monday and stay till Friday. And we promise you a good time. Arrangements have been made for the accommodation of teachers at the hotels at reduced rates.

A Man Killed.
The train duo here at 8 p. m. on Saturday evening last, instantly killed Mr. John Broughton, near the first bridge above Lewisport. Mr. B. is a respectable farmer living near the second bridge. He had been down the road on business, and was returning home—walking on the left track, and when the accident occurred, he stepped to the right to get out of the way of a train going east, when the locomotive of the passenger train coming west struck him. His head was completely severed from the body close to the lower jaw. The train was stopped and the body taken on board and left off at the first division house nearest the farm of the unfortunate man. It is supposed the noise of the train going west prevented him from hearing the approach of the passenger train west.

Accident.
A little son of Mr. John Shriver of this place met with his death under very peculiar circumstances. On Saturday last he found a bottle of liniment containing kerosene which his father had been using, and drank a quantity of it, which had the effect of burning his throat and stomach. He lived until Sunday, when death put an end to his suffering.

Just week a vessel from St. Domingo unloaded in New York over four hundred tons of St. Domingo Rum for P. H. Drake & Co., of that city. This is but a few weeks' supply of this article, which gentlemen use in the manufacture of the celebrated Plantation Bitters. We are informed by an exchange that Messrs. SPECIAL NOTICES.
PAINFUL TRUTH cannot be attained while the digestive organs are weak and unclean. Indigestion, dyspepsia, and the whole physical system, from the crown of the head to the sole of the foot, is the forerunner of disease, with its indelible marks, and even prepares the way for more serious disorders. It is the duty of every man, woman and child, to keep the system in a healthy condition, and to prevent a recurrence of the same, as well as the authority of all liberal-minded people. We present a new and reliable method of attaining this end, which is the only one that is safe, and which gives relief in every case. It is a simple, safe, and reliable method, and it is the duty of every man, woman and child, to keep the system in a healthy condition, and to prevent a recurrence of the same, as well as the authority of all liberal-minded people.
