report of movements of the various regiments serving in this district for the car ending September 30, 1868. Armed organizations, generally known as the Kuklux Klan, exist independently in many parts of Texas, but are most of the Trinity river. The precise ob ed steel. jects of these organizations cannot be who knows anything of the organization but will not join it.

The civil law east of the Trinity in other counties, where the civil officers will not join the Klan, or some other armed band, they have been compelled to leave their counties. Examples are Van Zandt, Smith, and Marion counties. The county seat of the latter is Jefferson. In many counties, where the county officers have been driven off, their influence is scarcely felt. What political end, if any, is aimed at by these bands, I can-

not positively say, but they attend in large bodies the political meetings and barbecues which have been and are being held in various parts of the State, under the auspices of the Democratic clubs of the different counties. The speakers encourage the attendance, and in many counties men have been indicated by name from the speakor's stand as those selected for murder. The men thus marked have no course left them but to leave their homes, or be murdered on the first convenient

opportunity. The murder of negroes so common as to render it impossitween remote points, facilitate the diabolical purposes.

These organizations are evidently
