Jefferds was convicted of the murder of Walton and Matthews in 1860, but the sentence of death was never carried into execution. Jefferds was himself killed in Sing Sing a few months since by a fellow-convict, now awaiting trial for murder. The confession was made several years since, and is now for the first time given to the public.

The Hon. De Witt Clinton Senter will become Governor of Tennessee by virtue of his office as President of the Senate of that State, on the 25th inst., the day on which Gov. Brownlow's resignation takes effect. Mr. Senter is a young man, being only 35 by the Republican strength. Three years of age. He was educated as a lawyer, and is said to be a gentleman of marked ability and has had much experience in public affairs, having been connected with either one or the other branch of the Legislature, most of the time since he became of age. He was a stanch loyalist during the war, and met with much rough treatment at the hands of the Rebels.

se Mr. Pruyn "came to time" very promptly on Saturday with his assurance that the Democratic party would cheerfully sustain Gen. Grant. We find, however, that his action is not indorsed. "Mr. Pruyn," writes a Democratic editor, "was doubtless too sangnine and complaisant, or at least a little premature, in promising General Grant the support of the Democratic party, when he has not yet delivered his Inaugural Address, nor shown his by Gen. Logan, who was defeated by hand in his appointments." There is year 71, nays 97. An analysis of this the rub! Gen. Grant must understand vote shows that the vote to strike out that Democracy Means Post-Office!!! He may adopt any policy, however wise and statesmanlike; Democracy will not assent until he "shows his hand in his appointments."

The Supreme Court of the Uni ted States has decided that a contract entered into before the passage of the Legal Tender act, and made specially payable in coin, is valid and can be enforced. Such a decision would excite Solye, Smith, Spalding, Starkweather, Stevens, Williams, of Indiana, and no special interest, did not the dis- Woodbridge. patch announcing it state as part of the opinion of the Court, as delivered by the Chief-Justice, that "when the kind of currency is not mentioned, then legal tenders are lawful in such tion was adopted for the appointment connection." The Suffrage Question.

The overwholming rejection by the louse of the Senate amendments o the Constitutional Amendment concerning Suffrage, leaves that whole question uncertain. The difference beween the plans of the two Houses is marked. The Representatives merely sought to guarantee suffrage from limitation on account of race, color, or previous condition of slavery, thus:

"The right of any citizen of the United tates to vote shall not be denied or abridged by the United States, or any State, by rea-son of race, or color, or previous condition of slavery, of any citizen or class of citizens in the United States."

The Senators extended the guaran too to office-holding as well as suffrage, out of the old slavery distinctions: "No discrimination shall be made in th United States among the citizens of the Uni-

ted States in the exercise of the elective fran-

chise, or in the right to hold office in any

State, on account of race, color, nativity, prop-erty, education or creed." LATER. The Constitutional Amendment has progressed one stage farther. The Senate proposition was taken up in the House about the middle of Saturday afternoon. Everybody was tired of talk, there was less than an hour's a contumacious fellow in court who debate. Gov. Boutwell then brought in his motion making it allowable within ton days of the adjournment to suspend all rules, so as to prevent fillibustering, and it was of course carried

amendment was then carried by a party vote of 140 to 83, in the followog terms: "The right of citizens of the United States o vote and hold office shall not be denied or bridged by any State on account of race or color, nativity, croed, or provious condition of

servitude." This is much like Senator Wilson's original proposition, except that the word "education" is omitted from the last clause, so as to leave the States free to establish an educational quali- murdering of Texas drovers as they fication if they choose. The words "nativity, property and erced," were inserted on Mr. Bingham's motion by 93 to 70, and this marks the difference between the House and Senate. The latter body seems likely to accept the amendment, as it now stands, though Senators west of the Rocky Moun tains will make a strong effort to strike out the word "nativity." The most important action of the House was that on striking out the words "and hold office." The change was moved
