A person asked Mr. Patrick Maguire if he knew Mr. Tim Duffy.—

Where are the lightest men to be found-in England, Ireland, or Scotland? In Scotland there are men of air (Ayr); in Ireland, there are men of cork (Cork); but down the Thames you will find lighter men (lightermen.) "I don't want mother to marry

he could not sleep one night, summed up the causes: "A wailing babe of sixteen months old, a dog howling under the window, a oat squalling in the alley, a colored serenade in a shanty over the way, a toothache, and a pig trying to get in at the back door."

A gentleman who wanted to make a speech to a Sunday school, thought he would adopt a colloquial style, and this is what happened: "Now, boys, what does a man want when he goes a fishing?" # Hair Vigor

For restoring Gray Hair to its natural Vitality and Color. A dressing which is at once agreeable, healthy, and effectual

for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.

Thin hair is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sedi-ment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted

merely for a HAIR DRESSING, nothing else can be found so desirable Containing neither oil nor dye, it does not soil white cambrie, and yet lasts long on the hair, giving it a rich glossy

lustre and a grateful perfume. Prepared by Dr. J. C. Ayer & Co., PRACTICAL AND ANALYTICAL CHEMISTS, LOWELL, MASS. PRICE \$1.00.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists.
