Cough, Bronchitis, Asthma, and Consumption.

Probably never isofore in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Group, it should be kept on hand in every family, and indeed as all arc sometimes subject to colds and coughs, all should be provided with this antidote for them. Although settled Consumption is, thought incirable, still great numbers of cases where the discase seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Peotoral. So complete is its mustery over the disorders of them yield to it. When nothing else could reach them, under the Cherry Peotoral to the subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by its.

Bronchitis is generally cured by taking the Cherry Pectorat in small und frequent doses. So generally are its virtues known that we need not publish the certificates of them here, or do more
