On the Wings.
St. Valentine's day will soon be here. There are 157 mechanics resident of Altoona. A jail in Wilkes-Barre is cost \$950,000. "Shoo fly."

Belmonte has inaugurated a series of female prayer meetings.
A revival is in progress in the colored church of this place.
What has become of our local correspondents? Let 'em speak.

The Presbyterian church of this place is undergoing repairs, shortly.
Somebody wants to know how many of our lawyers are sons of farmers.

An Indian scalping-knife has been dug out of a mound, a short distance above Bloody Run.
The Johnstown Tribune has an agricultural column, with Akers as editor. Nothing said about Perches.

The Somerset stage while entering Bedford the other day, careened, landing four passengers in a mortar box.
The lawyers of Johnstown are all said to be stockholders in the Co-operative Life Insurance Association in that place. "Natural enough."

The revival in the Methodist church will continue. Up to this time over one hundred persons, young and old, have professed belief.
A hat manufacturer at Norristown claims for himself the title of "Universal Sympathizer" because, he says, he has felt for every one.

There is a rumor that the devil appeared in a mobcap, in this place, on evening last week. There are some silly enough to believe that he actually did.
Ten bushels of suckers and cat-fish were caught at one haul in the Juniata, at Mexico, recently. We thought that kind of hauling had been done away with.

It is stated that the liabilities of the Freedmen and Soldiers Commission at Lewisport, which amounted to one million eight hundred thousand dollars.
A big "let" at a tannery in Monroe county recently, threw a piece of a boiler weighing one ton through a roof, breaking twenty joints, and landing it a thousand feet from the plant situated.

A brakeman named Jordan Ormiston, of Thompson's, Juniata Co., fell from top of a car near the Lancaster freight depot, and had both legs crushed by the wheels. Death ended his sufferings in a few hours.
We have learned that the supposed father of the child left at Dr. Greene's some weeks ago, has been discharged from his position at Harrisburg, and left for a Southern climate. Before he went the mother twenty dollars.

John Armstrong, an aged citizen of Buffalo Run, Centre county, a short time ago had an attack of epilepsy while in his barn-yard, and while in a helpless condition was attacked by his dogs and horribly mangled. He is lying in a critical condition.
We need this week a number of bills to delinquent subscribers, which we hope will receive immediate attention. We know our subscribers don't intend to get too far in arrears, and that is the reason we are letting them know how they stand, and what we expect of them as friends.

At a recent donation party at the house of Mr. G. Gray, Methodist minister at Danand, some rascally wags left a sack of sawdust one in imitation of flour. The minister did not discover the snarl until he had emptied it into his flour barrel, thereby spoiling his contents.
Two young men named Baum and Lloyd of Susquehanna township, Cambria county, were filling timber on Saturday-week, and while chopping the same tree, Lloyd's axe would take his brother, instead, but the Association told him they didn't want either, but would like very much if he would pay some little bills they incurred.

Rev. T. DeWitt Tallage failed to put in an appearance at Harrisburg, according to promise; and thought the Y. M. C. A. would take his brother, instead, but the Association told him they didn't want either, but would like very much if he would pay some little bills they incurred.
Rev. William B. Collins, of Philadelphia, is announced to lecture for the benefit of the Y. M. C. A. in the Court House this Tuesday evening; subject, "Apparatus." Mr. C. is said to be an eloquent, instructive and amusing lecturer, and we hope he will have a full house. Tickets, 25 and 50 cents.

Our young friend and former "typpo" on the Clinton Democrat, Walter Dieffenbach, who is now studying for the ministry, delivered a sermon in the Lutheran church of this place on Sunday evening last, which was worthy of credit, and gave indications that he has chosen his proper calling.
A son of Rev. Logue, living on Clear ridge Bedford county, was killed on the morning of the 1st inst., by his horse running away. It seems that some means they became unmanageable, and in endeavoring to check their progress, by leaning too far over the dash-board, he fell to the ground and the wagon passed over him; he survived but a short time.

BUILDING ASSOCIATIONS.—For the information of others, here or elsewhere, who may desire to join one of these associations, we publish the following from a communication in a recent number of the Johnstown Democrat showing the manner of their organization and working:—

A building association is a co-operative society, its object being to save money in small sums from the earnings of its members, which to build or buy houses for them. These associations are organized under a general law passed by our legislature in April, 1859. Those who desire to make themselves fully conversant with that law, must refer to the pamphlet laws for that year, and especially not to go into details, but simply to convey your readers an idea of the general principles of these societies.

The stock of a building association is limited by law to two thousand five hundred shares, of two hundred dollars per share. The holder of a stock is required to pay one dollar per month on each share held by him until the stock comes to par, or in other words, until each share is worth two hundred dollars. Of course, if the money was not improved it would require exactly two hundred months, or sixteen and two thirds years, to bring the stock to par; but by the method of loaning the money, which we will describe, the period is reduced to from eight to eleven years.

Now to the method of disposing of the funds. Let us suppose we have organized and set in motion an association which has disposed of two thousand shares, and is in a plain from that has been already stated that we would, during the first month, receive into the treasury two thousand dollars.

HARRIS BARR'S ROMANCE.—These poems were written under circumstances of a peculiar character, and are the product of a mind trained in the school of more than ordinary affliction. During a period of eighteen months the writer was confined to a bed of sickness; her disease being a spinal affection, disabling her from walking or even assuming an erect position on her couch of affliction. What renders her condition still more painful, is the fact that both her parents, whom she dearly loved, and who always faithfully supported her, were, in the providence of God, removed by the hand of death.

Being thus left to herself, with an affectionate sister as her only companion, and secluded from all personal intercourse with society at large, she devoted herself, as she had previously done, to the reading of useful books—books of devotion and science, and to the composition of prose and poetry in both the English and German languages, with a zeal and pertinacity rarely associated with the different subjects, and which the poems treat, have been a source of rich consolation to the writer in her affliction, the hopes indulged that they will prove equally beneficial to others, in similar circumstances.

These Poems are for sale at Lewis' Book Store. Price \$1.75.
"EUROPEAN MAIL."—We are in receipt of the European Mail, a weekly publication which gives a complete summary of the latest news from the Kingdom, France and the whole civilized world; besides leading, well-written political articles; reviews of books; prices current of all the principal markets on the continent, collected from the latest and most trustworthy sources. It is of folio form, and contains 32 pages, printed in good style, and in plain and readable type, making it one of the most interesting publications extant. Besides this large amount of valuable reading matter, the proprietors furnish their subscribers one month, with a literary supplement of 16 pages, gratis.

After giving this publication a careful examination, we are satisfied that it is the most complete news publication we ever had the pleasure of perusing, and no person who can afford it ought to be without it. Subscription price, thirteen shillings per annum. Address: Europa-Office, Colonial Buildings, 44 A. Cannon Street, London.

SHOOTING FESTIVAL.
A shooting festival will be held at Huntingdon on Tuesday, the 22d of February, inst. The shooting will be done at six o'clock, and the man making the shortest string, with ten consecutive shots will be presented with a magnificent Silver Pitcher. No entrance money will be required. The pitcher will be a present to the man making the best string. But one trial will be allowed. The festival is open to the United States. All persons wishing to compete, will be required to report themselves by letter or otherwise before Saturday the 19th to T. W. C. FISHER.

PUBLIC MEETING.—The annual public meeting of the Young Men's Christian Association, of Huntingdon, will be held in the Court House, on Friday evening, next, February 14th. All speakers will address the meeting. The exercises will be interspersed with select pieces of music. The invitation is extended to friends of the cause from town and country. Admission free.

A Koppin, a well-known lawyer of Cambria county, with four children and a nurse, on Friday night arrived in Pittsburgh, and was followed by a telegram from his wife to the police to detain him in the night. He was found at the Union Depot, and was taken in charge by the police. On Saturday he was taken home by a Johnstown gentleman.

Snow.—The beautiful snow fell last night (Monday) in a beautiful manner over our beautiful vicinity, and covers everything with a mantle eight or ten inches thick. It is hoped that it will not deprive Mother Earth of this mantle until Old Winter passes away.

POWDER EXPLOSION.
One Man Killed and another Mortally Wounded. A violent explosion occurred at Matilda Furnace, near Mt. Union, this county, on Wednesday last. Two men named John Dolan and Patrick Sloan, had gone into an engine room near the furnace, carrying lamps. They were stooping over a box containing powder, when a spark from one of the lamps fell into the powder, and an explosion immediately ensued, and Dolan was instantly killed, and Sloan received such injuries that he is not expected to live. They were both horribly burned and mangled by the powder. Dolan's remains were interred in the Catholic graveyard of this place on Sunday last. He was about 28 years of age; Sloan is about the same age.

WHAT DOES IT MEAN?—It is truly surprising the amount of candy that is eaten by our juveniles, on the street, at the fireside, and even in bed; and we have heard it said that there are a few certain individuals who can't listen to a good sermon, or feel sort of good over, without chewing candy. This may surprise some of our readers, but that surprise will be abated some, when we tell them that said candy is manufactured by Summers & Reilly, of this place, and they are constantly furnishing these quantities of all kinds, in large and small amounts, to dealers here and elsewhere, at less than city rates.

Narrow Escape.
Robert Mathey, a little son of Mr. John W. Mathey, of this borough, had a narrow escape with his life on Tuesday last. The little fellow attempted to cross the track in front of a hand-car which was in motion, but before he got across he was struck by the car, and fell down, his head striking one of the wheels in the fall, and bruising his body. He is recovering.
