**HOW TO CURE CONSUMPTION** 

THE PHILOSOPHY OF DR. SCHENCK'S GREAT MEDICINES.—Will people never learn to know that a diesased liver and stemach necessarily disease the cutire system? The plainest principles of common sense teach this and yet there are hundreds who ridicule the id-a and continue in the course which almost inevitably brings them prematurely to the grave. Living as the imajority of the people do, at complete variance with the laws of nature, it must be apparent to all that, sooner or later, nature will revenge herself. Hence we find that persons who indulge to excess in the use of very rich or indigestible food or intoxicating drinks, invariably pay a heavy penalty in the end. The stomach becomes disordered and refuses to act: the here fails to perform its functions, dayepisa and its attendant evils follow, and still the suffering individuals persist in clinging to the thoroughly exploded idea of the past. Dr. SCHENN'S medicuses are recommended to all such. They bring sure and cartain reliaf wherever they are used as directed, and all that is necessary to establish their reputation with every alling innor woman in the landia a fair and impartial trial of them. Let those who are skeptical on this point, and whe have permitted interested persons to prejudice them against these now celebrated remedles for consumption, discard their prejudices, and be giverned by the principles of reason and common sense. If the system is disordered depend upon it, in nine cases out of ten the seat of the disorder will be found in the stomach and they. To cleans and invigorate the stomach and to stimulate the liver to healthy action, uso
