

The Globe.

HUNTINGDON, PA. Tuesday morning, Oct. 18, 1870.

LOCAL & PERSONAL.

Meetings. Monday evening, Oct. 18, at 7 1/2 o'clock, at the residence of Mr. J. M. ...

On the Wings. Our Y. M. C. A. is dead. Give employment to the poor.

What has become of our last literary society? I. D. Massey has our thanks for western papers.

The question of the day—Have you a ticket for Salt River? Don't let the winter go by without subscribing for the Globe.

Our sports want the Fair course to treat their horses. The western end of Hill street is being macadamized.

The most successful merchants are those who advertise most. Leonard Brown, a writer in Allouan, robbed a fellow traveler of \$95.

Connecticut frogs, it is said, root off their noses in search of water. The "Junonia jig" is getting popular as a name for fever and ague.

A Louisville girl sold her hair to get money enough to go on a visit. Leather is now manufactured from seal-skins. Alaska is not bootless.

The stone work of the Washington street bridge across Muddy run is done. Ebersburg will have the Court House for the best managed farm in Oxfordshire, England.

It would puzzle the reckoning of the most astute to tell what cock crows first these mornings. A woman has carried off the \$500 prize for the best managed farm in Oxfordshire, England.

The Fowlton Coal and Iron Company shipped 5588 tons during the month of September. The martins and the swallows have gone, and left us to reflect on the approach of winter.

An Oregon man has just died from the effects of an operation on his foot by a professional barber. A doctor has been called to the aid of a young man who has been poisoned by eating corn meal which was mixed with arsenic for rats.

Some of our farmers have overbearing fruit trees. They (the trees) should have been nipped in the bud. The Lewistown Democrat is publishing a roll of honor. There don't appear to be a rash of many dollars.

The Tyrone Herald man Brainerd likes to talk to barnhogs. Of course he can be judged by the company he loves to keep. A little boy named Johnny Gobright was recently sent by express from Boston to Pittsburgh. Johnny did go bright that time.

A Nebraska girl speaks four languages; sings, plays the piano, dances, chews, smokes, drinks and swears, and no boy of her age can beat her. Rev. Dr. James of Bustleton, Penn., is the oldest Methodist preacher in the world. He is in his 94th year, and has been a preacher for seventy years.

The Altoona post-office was recently entered by burglars and robbed of about \$1400 worth of stamps, and the contents of three registered letters. There are two directly opposite reasons why some men have poor credit—one because they're not known, and the other because they are known.

"Solaced in durance vile by the radiant smiles of consular life," Translation—His wife went to see him in jail where he was sent for stealing. Hon. James R. Kelley has just been elected United States Senator from Oregon. Mr. Kelley, twenty-five years ago, was a resident of Millin county.

Narrow Escape. As the fast time was passing through our town the other evening the conductor put his head upon the platform and—saw Mr. Luke Reilly's breadbasket filled with such nice-looking bread that he told him to give him a loaf. Mr. Reilly attempted to do so, but failed and came near losing his life, so he fell, and the car wheels came so close that his hat was drawn under and completely demolished. It is hoped the conductor will not give Mr. Reilly another call under like circumstances again.

The dedication of the M. E. Church at Orleans on Sunday, Oct. 9th, 1870, surpassed the anticipation of the most ardent in this community in everything connected with the occasion. A tribute of general thanks, irrespective of denomination, is requested to be tendered to the Rev. Dr. Hamlin for his masterly display as a pulpit orator and unobscured skill in equating the fire of his eloquence with five hundred dollars and adding a surplus of eighty-five dollars. The people are highly delighted with their new edifice and happy success. J. P. L.

The following borough ticket was elected: West Ward—Judge, H. W. Weaver, R. Inspectors, Leo T. Wilson, R. Christ Long, D. East Ward—Wm B Zeigler, R. Inspectors, W. J. Williamson, R. Graffus Miller, D. M. Directors, David Dunn, R. Thomas S Johnston, R.

HORSE KILLED.—On Thursday night last, as Henry Bickler and another young man were driving into town in the Philadelphia Express approaching as they were on the track. Both the men in their fright jumped out of the buggy, and the horse turned to the right and was going along the track when the locomotive struck it and mangled it in such a frightful manner that it had to be shot to end his misery. The buggy was shattered to pieces.

DEATH OF DR. COCHRAN.—The telegraph made the announcement last week that Dr. Cochran of this place had died in St. Louis from taking an overdose of prussic acid. As soon as the announcement was made public, the impression gained credence that the Doctor had committed suicide. We have learned the particulars of the sad affair, and find that this is a wrong impression. The fact is that Dr. Cochran went to St. Louis and was attacked with violent neuralgia, and suffered such excruciating pains that he took a small dose of the acid to alleviate the pain, but the pain not leaving him he repeated the doses until the acid accumulated in his stomach, when it went through his system and resulted in his death. He had been sick several days, and we are assured he had no intention of committing suicide, as he spoke encouragingly of having found a location in a western State, where he had intended moving as soon as he returned to Huntingdon. He had resided in this place a short time, where he had intended moving as soon as he returned to Huntingdon. He had resided in this place a short time, where he had intended moving as soon as he returned to Huntingdon.

Office of Josh Billings Farmer's Almanac for 1871. My Dear Editor—Some men are born great, some are made, and some are bought. A doctor has been called to the aid of a young man who has been poisoned by eating corn meal which was mixed with arsenic for rats. Some of our farmers have overbearing fruit trees. They (the trees) should have been nipped in the bud. The Lewistown Democrat is publishing a roll of honor. There don't appear to be a rash of many dollars.
