NEWSPAPER SUBSCRIBERS .-- The Lonlon "Newspaper Press" contains the following classification of newspaper subscribers, which is somewhat vaguely credited to "an American paper:"

They never entertain any other opinion. When the year runs out, or little before, they are on hand with the pay. There is no more diffi-culty with them in remembering this period, than Sunday or the first of January. A NEW BOOK of the greatest interest and importance Written from a high moral and physiological standpoint by an eminent physician and medical professor, it shows how Satan is working out his subtle and dangerous designs through our most sacred domectic and social plantations. Puno-minded, but outspoken and aggressive, the author handles the delicate subjects treated of without gloves, but in auch a manner as not to minister to a prurient curiosity. The Physical Regeneration of the Race, is a subject justly entitisting the interest and sympathy of all true philantirropists, and this book, it is believed, will contribute to that end just in proportion as it has readers.
