

HUNTINGDON, PA.
Tuesday morning, Nov. 15, 1870.
 WM. LEWIS,
 HUGH LINDSAY, } Editors.

The "Globe" has the largest number of readers of any other paper published in the county. Advertisers should remember this.

TO OUR SUBSCRIBERS.
 We are now sending out bills to our subscribers, on which is written the time and amount of their subscriptions. We hope none will take offence at receiving these gentle reminders of the amount of their indebtedness, but will rather endeavor to call on us or send the amount due before the year 1870 closes, and bring or send in as many new subscriptions as they can. We will return the favor with all who get us new subscribers, according to the number they send us.

Some of our subscribers are a number of years in arrears, and we are grateful that some of these to whom we sent bills last week have responded promptly, and are now square again. The largest number are about a year in arrears. This time may seem short to them, and for fear they may slip another year slip round and have a larger amount to pay, we have sent them a bill. We hope they will call on us or send the money as soon as possible.

Our town subscribers will call at our office, and for their satisfaction and ours, learn how they stand on our bills, and pay up.

We will receive produce of all kinds and cash that is genuine in payment of subscriptions. The farming community have therefore a splendid opportunity to avail themselves of this offer, and either subscribe or pay up for the **GLOBE**.

Yours truly,
 LEWIS & LINDSAY,
 Publishers.

After many perplexities, such as the general use of newspapers establish, the **New York Globe** is established on a firm foundation, and is now dressed in a neat uniform and is as bright and new as ever. May we always have its visits, and our own **Globe** will delight to do it honor.

"No man on the ticket lost a previous election." This is the **Republican** wanted to defeat Republican nominees last fall, that it did defeat them, and that is, as the organ of Morrell and Scott, defeated Morrell at the late election.

"We have never denied that the full Republican ticket, with Spear's name in place of Morrell's, was printed at the **Globe** office." We gave orders that any and all kinds of tickets wanted by any candidate should be printed—cash in advance. We also printed 5000 full-Republican tickets, with Mr. Morrell's name. The Chairman of the County Committee didn't find our Republican tickets spurious like those he got from the **Republican** office.

"Dad" Lewis tries to make believe that spurious tickets were printed at this office and circulated by the chairman of the county committee, by which Woods and Beaver were to be stricken down, but "Dad" and everybody else knows very well that he is **falling**, and it was not necessary for Judge Beaver and Mr. Woods to contradict the falsehood, as they did, in **Cremer's Republican**.

For cooling Judge Cremer can go ahead of any editor on the Juniata. The spurious tickets circulated by Mr. Blair, were printed at the **Republican** office—Mr. Blair has said so and will say so again. Neither Mr. Woods or Judge Beaver exonerate Cremer. It can't be said.

The guerrilla organ, the **Republican**, seems to be slow to discover why Mr. Morrell was so badly defeated in this county. A year ago, Cremer was a candidate for the office of Prothonotary—he failed to secure a nomination—he was then ready to play dirty politics, and Mr. Morrell's patronage was handed over to the leading disorganizers, the disorganizing sheet, the **Republican**, was established, and several of the best Republican nominees were "slaughtered," Mr. Morrell refusing to interfere to save them. If Mr. Morrell had given his office-holders in this county notice to support Republican nominees, or expect to make room for more worthy Republicans, the **Republican** would not have been established and the whole Republican country ticket would have been elected. It will not do for Mr. Morrell's select friends to say that he was not responsible for the defeat of the Republican ticket a year ago. Mr. Morrell and Mr. Scott, are equally guilty with the other, were the head and front of the guerrilla movement, and they fed the flames that destroyed the Republican organization. If Mr. Scott had been a candidate in place of Mr. Morrell he would have received about the same measure of justice.

There is no news of battles in France, but the Prussians are determined to bombard Paris.

The Late Elections.
 In New York Hoffman, Democrat, is re-elected Governor by about 30,000 majority, same as two years ago. The Democrats seem to have elected fifteen out of the thirty-one Congressmen.—The Legislature is a tie—64 Republicans to 64 Democrats.

New Jersey has been completely redeemed. The Republicans elect four out of the five Congressmen—a gain of two.—The Legislature is also Republican, giving us a U. S. Senator in lieu of Cattell, Republican.

Minnesota is reported to have elected two Republican Congressmen, which if true is a gain of one.

Florida has elected Conservative Congressman and Lieutenant Governor. The Legislature is Conservative.

Michigan has gone Republican by about 20,000 majority. Probably the whole six Republican Congressmen are elected.

Iowa has elected her whole six Republican Congressmen by majorities ranging from 8,000 to 10,000.

Nevada, it is believed, has been carried by the Democrats, except for Lt. Governor and member of Congress.

Arkansas will send two Democratic Congressmen certainly, and probably one Republican. The Legislature is Democratic.

Kentucky went Democratic of course, but by a reduced majority of about 15,000. It is thought one Republican Congressman is gained in the Eighth District, and also one Republican in the Ninth. About 20,000 negroes voted.

Alabama has gone Democratic, and elects three Democrats to Congress out of the six. Turson, a negro, is elected to Congress in the First District.

Kansas has gone Republican by 18,000 majority. There is only one Democrat in the Senate, and the House is four-fifths Republican.

Delaware has elected a Democratic Governor, Congressman and Legislature by a reduced majority.

Old Massachusetts re-elected all her nine Republican Representatives in Congress, with a Republican Legislature. Gov. Claflin is re-elected by about 40,000 majority with the entire Republican State Ticket. Wendell Phillips polls about 20,000 votes for Governor, mainly Republicans.

Rhode Island elects Republicans to Congress in her two districts, same as before. They are both new men.

Illinois has gone Republican by about 40,000 majority. The Congressional delegation to Democrats, same as before.

Maryland has gone Democratic by a reduced majority—say 15,000 now against 32,000 for Seymour in 1868.—Her Congressional delegation will probably be all Democratic, as at present.

Missouri has elected the Bolter's State Ticket, mainly by Democratic votes. Finkolburg, (bolter), is re-elected to Congress, with Burdett and Parker, Republicans, and McCormick, Democrat.—The Legislature is Democratic.

Louisiana elects the Republican State Ticket and an entire delegation of Republican Congressmen.—The Republican majority in the State is large.

Old Virginia elects three Republican and three Democratic Congressmen.

In Wisconsin the Democrats gain one Congressman. The delegation will stand 4 Republicans to 2 Democrats.

Tennessee elected a Democratic Governor, and Legislature, and five Democrats and three Republicans to Congress.

A Washington correspondent of the **Philadelphia Telegraph**, speaking of the late elections, says: "It was not dignified today in Administration circles that the disaster is serious, and the President feels keenly disappointed and mortified at the general political aspect of the country."

The "situation" is bad everywhere, and the President may very well feel mortified. The President has been deceived by political tricksters—they have abused his confidence, deceived the people, and the people are quietly speaking in thunder tones where they can be heard. So don't know what excuse Messrs. Scott and Morrell will have to offer for Mr. Morrell's defeat in this county. We would like to be on hand to hear it. It could be given shortly, thus: "A year ago we used the patronage you gave us to defeat several good Republican nominees—at the late election those candidates and their friends retaliated and **scooped** us, and while we admit the blow to be a heavy one, we could not expect it to be any lighter from men free from the control of a few political nobodies in Huntingdon."

One of the Building Associations at Williamsport recently lost \$1000 by delay in recording a mortgage. The borrower afterward obtained money from another party to whom he also gave a mortgage, and it being recorded at once, it became the first lien, so that, as the property being sold by the sheriff, it absorbed the entire proceeds.

Clayton Courman, seventeen years of age, left Abilene a few days since, and was found on the track near Westchester, Tennessee, his body terribly mangled, cut in twain, and having one arm severed from his body. His parents live at Bolivar, Westmoreland Co.

Teachers' Institute of Huntingdon Co. The Huntingdon County Teachers' Institute for the present year will be held in the Court-House, in the borough of Huntingdon, commencing on Monday, December 26th, at 2 o'clock, p. m., and closing on Friday, December 30th.

Teachers, School Directors, and friends of education are respectfully invited to attend.

The law evidently contemplates that Directors shall grant teachers the time to attend the institute and count the same for teaching. This, considering the small compensation most of our teachers receive and the expense they incur while attending the institute, is nothing more than right; but should directors under a mistaken view refuse to grant the time, this should attend, for teachers not to pretend for not attending, but for the teacher who properly realizes the dignity and responsibility of his calling will not hesitate to make large sacrifices to promote the great cause of popular education. If every teacher in our county were to set earnestly about the work of self-improvement there would be less complaining of low wages and a brighter day would dawn upon our schools.

This year it is intended that the work shall be done chiefly by our own teachers and it is for them to say whether it shall be done or not.

These will consist of instruction in the branches taught in our common schools, lectures, essays, &c.

Orthography and Orthoepy will be presented by R. S. Henderson. Writing, by W. S. McPherson. English Grammar, by Prof. H. L. Atkinson. Arithmetic, by S. B. Taylor. Geography, by E. White. Map drawing, by J. H. Black. U. S. History, by J. H. Michener. Geometry, by Prof. J. A. Stephens. Algebra, by Henry M. Kisbin. Education, by Prof. J. W. Shoemaker, of Philadelphia.

The following subjects will be discussed:—
 1. Should physical culture be made one of the regular branches of study in our common schools?
 2. How can pupils best be taught good manners?
 3. Should singing be one of the regular branches taught in school?
 4. Are our courses of study and methods of instruction sufficiently practical?
 5. What disposition should a teacher make of his time out of school-hours?
 6. What motives and incentives to study should be held out to the pupils?
 7. Are public school examinations and exhibitions advisable?
 8. What is the true philosophy of illustration?
 9. What are prominent causes of failure in teaching?
 10. Messrs. Taylor and Schock are requested to open the discussion on the first named question; Rev. A. J. Guss the second, Mr. W. Johnson the third, Prof. J. A. Stephens the fourth, Mr. Michener the fifth, Mr. Kauffman the sixth, Messrs J. P. Giles and J. J. Atkinson the seventh, Messrs J. R. Baker and S. D. Caldwell the eighth, Messrs. Lloyd, Griffin, Lightner and W. R. Baker the tenth.

THANKSGIVING.
 By the President of the United States: A Proclamation.

Whereas, It behooves a people sensible of their dependence on the Almighty, public and collectively to acknowledge their gratitude for his favors and mercies, and humbly beseech for their continuance; and

Therefore, The people of the United States, during the year now about to end, have special cause to be thankful for the general prosperity, abundant harvests, exemption from pestilence, foreign war and civic strife; now, therefore, be it known, that I, Ulysses S. Grant, President of the United States, do hereby recommend to all citizens to meet in their respective places of worship on Thursday, the 23d day of November next, to give thanks for the bounty of God during the year about to close, and to supplicate for its continuance hereafter.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the city of Washington, this 21st day of October, in the year of our Lord, one thousand eight hundred and seventy, and of the independence of the United States the ninety-fifth.

U. S. GRANT.
 HAMILTON FISH, Secretary of State.

Proclamation from the Governor.
 In continuance of an honored State and National custom, and in devout recognition of that human dependence upon Almighty Father, I do hereby appoint Thursday, the twenty-fourth day of November next, as a day of general Thanksgiving and praise, being the same day, and for the same ends and uses, set forth by his excellency, the President of the United States, in his proclamation of the 21st instant.

Pennsylvania, unsurpassed in blessings, should not be surpassed by any in acknowledging her gratitude to God. Let us, then, as citizens of the Commonwealth, unite in devout prayer for the prosperity of our commonwealth, and for the peace and happiness of our country.

Let us invoke divine favor upon our beloved State and Nation, and pray that all who are called to administer the Government may be actuated by the spirit of wisdom and understanding, the spirit of knowledge and the fear of the Lord.

Given under my hand and the great seal of the State, at Harrisburg, this twenty-eighth day of October, in the year of our Lord one thousand eight hundred and seventy, and of the Commonwealth the ninety-fifth.

JOHN W. GEARY,
 By the Governor:
 F. JORDAN, Sec'y. of the Commonwealth.

 101 North Second Street, Harrisburg, Pa.

AERATED BREAD.
 EASY OF DIGESTION!
 SWEET (AND DIGESTIBLE!)
 Professor Sillman, of YALE COLLEGE,
 says:—"The experience of the London Hospital shows that this Aerated Bread is digestible without inconvenience to stomachs which wholly refuse fermented bread. Whiter, sweeter, lighter, more digestible than bread, and more from a given quantity of flour, is made by this process than by fermentation; while other cleanliness and the absence of any deleterious substances are secured at the same time."

FOR SALE BY LUKE REILLY, AGENT FOR CENTRAL PENNSYLVANIA. Oct. 18, 1870.
