A GREAT MEDICAL DISCOVERY

THEY ARE NOT A VILE FANCY DRINK, FEE Made of Poor Rum, Whiskey, Proor Spir and Refuso Liquors doctored, spiced and swe ers." " Restorers." &c., that lend the ting runkenness and ruin, but are a true Medicine, made rom the Native Roots and Herbs of California, free from the Native Roots and Belos of Canton and Acceptation of the Great Blood Purifier and A Life GIVING PRINCIPLE a perfect Renovator an Invigorator of the System, carrying off all poisonou matter and restoring the blood to a healthy condition No person can take these Bitters according to dire tion and remain long unwell. 8100 willbe given for an incurable case, provided

S100 will be given for an incurable case, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gont, Dyspepsin, or Indigestiou, Billous, Remittent and lutermittent Fevers Discusses of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Discusses are caused by Vitinted Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Read ache, Pain in the Shoulders, Coughs, Tightness of the DYSPEPSIA OR INDIGESTION, Read ache, Pain in the Shoulders, Coughs, Tightness of the Chect, Dizziness, Sour Ernetations of the Stomach, Bad taste in the Mouth, Billous Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpiditiver and bowels, which reader them of unequalted efficacy in cleansing the blood of all impurities, and imparting now life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Biotches, Spots, Pimples, Pastules, Bolis, Car-

ROLL SKIN DISEASES, Emploon, Tetter, Sait Rheum, Biothes, Spots, Pimples, Pastules, Bolls, Car-buncles, Ring-Worms, Scald-Head, Sore Eyes, Erysip-cles, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the bkin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Ditters. One bottle in such cases will convince the most increcurative effect.
Cleanse the Vitlated Blood whenever you find its

Cleanse the Viliated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when! Keep the blood pure and the heath of the system will follow.

PIN, TAFE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four lauguages—English, German, French and Spanish.

DR. SCHENCK advises Consumptives to go to Florida in the Winter liaving for the last thirty-five years devoted my whol Having for the last thirty-five years devoted my whole time and attention to the study of lung disease and consumption. I feel that I understand fully the course that cought to be pursued to restore a tolerably had cave of diseased lungs to healthy soundness. The first and most important step is for the patient to avoid taking cold, and the best of all places on this continent for this purpose in winter, is shorida, well down in the State, where the teny country is traited, well down in the State, where the teny country is traited and intitudes. In latka is a politic I can recommend. A good horted is kept there by Peterman. Last whiter I saw several persons there whose lungs had been body diseased, but who, under the healing influence of the climate and my medicines, wire get thing well. ong Well.

One hundred miles further down the river is a point ould prefer to Palatka, as the temperature is nor Fub. 23-1 yr. 2 or 3 p.

even and the air dry and bracing. Mendonyllic and Entorprise are located there. I should give a decided proference to Medonyllic. It is two miles from river, or lake, and it seems almost impossible to lake cold there. The tables in Florida might be better, and patients complain at times but that is good sign, as it indicates a return of appetite, and when this is the case they goverally increase in flesh, and then the lungs must heally increase in flesh, and then the lungs must heally compared to the consumptives in winter. My reasons for saying so are that patients are less liable to take cold there than where there is a less even temperature, and it is not increasely the comparature, and it is not necessary to say that where a consumptive person exposes himself to frequent colds he is certain to die shortty. Therefore my advice is, go well down into the Stato and of the reach of prevanting cost what and togs Sacksonville, or almost any other of the localities I have named, will benefit thow who are troubled, with a torpid liver, a disordered stomach, accanged bowsle, sore threat or cough, but for those who as they are a sufficient that names, will be not those who are troubled with a torpic ver, a disordered stomach, accanged bowels, sore threa-r cough, but for those whose lungs are diseased a more outliers point is carnessly recommended. For fifteen years prior to 1809, I was professionally it was York, Boston, Baltimore and Philadelphia wery esk, where I saw and examined on an average five hun-

ce k, where I saw and examined on an average five hun-ired patients a week. A practice so extensive; emer-ing every possible phase of lung disease, my cutton in egulde taking cold. A prison my take wat quanti-ties of "schemets" Pulmonic Syrin, Sawsed Fond and landrake Pills," and yet dse if he does not avoid taking old. Mandiake Fills," and yet das if he does not avrid taking cold.

In Thorida, nearly everybody is using Schenck's Mandrake Fills, for the climate is more likely to produce bill outs habits than more northern latitudes. It is a well established fact that natives of Forlda rarely die of consumption, especially those of the southern park. On the other hand, in Now England, one third, at least of the population die of this terrible disease. In the middle states it does not prevail so largely, still there are many thousands of cases there. What a vast percentage of life would be saved if consumptives were as easily alarmed in regard to taking fresh cold as they are about alarmed in regard to taking fresh cold as they are about samile fore, small pox, at. But they are not. They take what they term a little odd, which they are creduced to the constant of the park of the constant of the college will were of in a few days. They pay no attention to it, and hence it lays the foundation or another and amother still, until the lungs are diseas-

for long, with the sure to have a corps on his halos before long.

Wy plant is to give my three medicines, in accordance with printed directions, except in some cases where a with printed directions, except in some cases where a few of the land and the latter in excess the properties to the second and the summarised properties of the properties of the second and the gratification of that relish comes good blood and with it more flesh, which is clearly followed by a healing of the top loosens and abutes, the creeping childs and clammy night-sweats no longer prostate and annoy, and the patient gets well provided he avoids taking cold.

Now there are many consumptives who have not the

healing of the tungs. Then the cought loosens and acates, the orceping chills and clammy night-sweats no longer prostrate and annoy, and the patient gots well provided he avoids taking cold.

Now there are many consumptives who have not the means to got a Florida. The question may be asked, is there no hope for such? Certeinly there is. My advice to such is, and ever has been, to stay in a yarm room during the winter, with a temperature of about soventy? which should be kept regularly at this point, by means of a thermometer. Let such a patient take his exercise within the limits of the room by walking up and down as much as his strength will permit, in order to keck up a healthy circulation of the blood. I have cured thousands by this system, and can do so again. Consumption is as easily cured as any other disease if it is taken in time, and the proper kind of treatment is pursued. The fict stands undisputed on record that Schenck's Phimonic Syrup, Mandrake Pills, and Scawced Tonic have cured very many of what scenued to be hopeless cases of consumption. Go where you will, you will be almost certain to find some poor consumptive who has been rescued from the very jaws of death by their use.

So far as the Mandrake Pills are concorned, everphody should keep a supply of them on hand. They act on the liver better than calomel, and leave noons of its hurful effects behind. In fact they are excellent in all cases where a purgative medicine is required, If you have partaken too freely of fruit and diarrhoea onsues, a dose of the Mandrakes will cure you. If you are subject to sick headache, take a dose of the Mandrakes and they will relieve you in two hours. If you would obviate the Cifect of a change of water, or the too free indulgence in fruit, take one of the Mandrakes and they will relieve you in two hours. If you would obviate the cifect of a change of water, or the too free indulgence in fruit, take one of the Mandrakes and they will relieve you in two hours. If you would obviate the cifect of a change of wate

itation of the brenchial tubes.

Full directions in all languages accompany my medi-inney, so explicit and clear that any one can use them without consulting me, and can be bought from any bruggits.
