

REPUBLICANS ATTENTION.

The Republicans of this borough are requested to meet at the Court House, on Saturday evening, April 1, 1871, for the purpose of making nominations for Borough officers, to be supported at an election to be held on Monday next.

MANY VOTERS.

Those of our subscribers who receive their papers through the post offices, will notice a little label on each paper with their name and a few figures and letters following it, thus: "J.JonesSmith 1Jan71."

SUBSCRIBERS ATTENTION!

Those of our subscribers who receive their papers through the post offices, will notice a little label on each paper with their name and a few figures and letters following it, thus: "J.JonesSmith 1Jan71."

It is amusing how carefully the Democrats nurse a little "oppressiveness" in the Republican ranks. How they pat one fellow on the back and then slip under and hiss the other fellow on.

CAMPAIGN OF 1872.

The New York Tribune truthfully remarks that the Presidential campaign of 1872 will be "the most infuriated contest we have ever had, because, owing to feuds existing in the Republican ranks, the opposition will attempt seriously to carry, for the Democratic nominees, every State except Maine, Massachusetts, Vermont, Michigan, Illinois, Wisconsin, Minnesota and Iowa, while the Republicans will struggle to carry every one of the States, not excepting Delaware, Maryland and Kentucky.

REVOLUTION IN FRANCE.

The latest intelligence from France brings us the heart rending information that France is once more the theatre of a terrible revolution. The scenes of horror and suffering, through which the people have passed, have only prepared them for anarchy and bloody revolution.

THE LAST CHANCE!

I hereby give notice to all persons indebted to me for subscription, advertising or job work, that all unsettled accounts will be placed in the hands of an officer for collection immediately after the April Court.

FOR SALE.

The proprietors of this paper have a Gordon Cylinder Foliopress, bed 13x19 in excellent condition, just new; also a Newbury Press, as good as new, both of which they will sell on reasonable terms, and at half the original cost.

The State Journal has become alarmed at its position on the question of the deposition of Sumner, and consequently resorts to the expedient of under-rating and impugning the motives of those who sustain the majority of the Senate.

Another brutal legal murder was perpetrated at Williamsport on the 22nd inst. If these horrible exhibitions are to be continued, it would be well for the State to appoint an executioner of experience, to do all such work with some expertise and humanity.

Our friend King, of the Blair county Radical, has been appointed Assistant Assessor of Internal Revenue for Blair county. This is a good appointment, and will give general satisfaction.

The existence of which cannot now be denied, although attempts were made, at the outset, to represent them as myths. While it is not represented that all Democrats in the South are members of this blood-thirsty, cruel and cowardly organization, it has been proven, as clearly as any fact was ever proven, that all members of the Ku-Klux Klan are Democrats.

The August (Georgia) Chronicle, in its jubilation over the trifling successes of the Democratic party, bursts into an injudicious fit of ecstasy and exclaims: "How easy it will be to call a convention of States, and how easy it will be for such a constitutional convention to undo every result of the war."

It is amusing how carefully the Democrats nurse a little "oppressiveness" in the Republican ranks. How they pat one fellow on the back and then slip under and hiss the other fellow on.

Senator Billings, of Lancaster, has desired to make a political strike-out of the Sumner imbroglio, and he has the satisfaction of knowing that he has the support of every Democrat in the Senate.

Col. John W. Forney, after many years of hard service, has been offered an office, and it is said that he has accepted. The Colonel, we suspect, has set his heart upon some particular prize and the little "take" presented is not just the thing, but "small favors are thankfully received and larger ones in proportion."

The accident, which resulted in the killing of three persons and the seriously wounding of three others, at Harrisburg, the other day, was caused by some stupid policeman, "vested with a little bit of authority," arresting and taking in charge the man in charge of the "Billingsville local."

The duty on salt per year, as near as we can get at it, will cost each individual about two cents. This enormous tax the Democrats must have repealed because they should not be asked to contribute that much towards the payment of the National debt.

The Democrats have much to say in regard to two important Relations, viz: The Chairmanship of the Committee on Foreign Relations and Gen. Grants Relations. They are decidedly dissatisfied that their relations to either are not greater than they are.

The editors of the Patriot are determined to save two cents a year on their salt, by having the duty taken off; in fact the can't stand it otherwise. Those two cents are the straw that will break the camel's back.

What a superb growler the Pittsburg Commercial is. It snarls and snaps at every thing. Nothing escapes its attention, but its efforts in this line meet with about as much success as the little dog did in barking at the moon.

Hon. R. Bruce Petrikin, of the Senate, and S. P. Wishart, Esq., of the House of Representatives will accept our thanks for valuable favors.

WASHINGTON, D. C. March 24, 1871. EDITOR OF HUNTINGDON JOURNAL:—I have not troubled your readers with a communication from the Capital, since the organization of the 42nd Congress, for the reason that the proposition to adjourn has been pending from day to day, and no definite action seemed probable on any question presented.

The report of the Select Committee of the Senate to investigate the alleged outrages on the States lately in "insurrection" has given so clear an illustration of the deplorable condition of affairs in the State of North Carolina, that demands for some protecting enactment come from all quarters of the country.

The State Journal has become alarmed at its position on the question of the deposition of Sumner, and consequently resorts to the expedient of under-rating and impugning the motives of those who sustain the majority of the Senate. This is simply superfluous flattery and is generally denominated begging the question.

They are anxious to become acquainted with the political affairs of the country, but having been so often duped and deceived by the whites of the South, they are naturally becoming suspicious and their inquiries in relation to politics are very guarded and indifferent, unless they know he comes from the North, and they then converse freely and eagerly on the subject, making inquiries as to the next presidential candidate, the probable result of the election, etc. They are almost to a man Republicans and have perfect confidence in the honesty and good will of the party that freed them and gave them the rights of men and citizens.

The greatest drawback to the advancement and establishment of the race is an institution founded and carried on by the men, who having been defeated in one battle, now resort to the most cowardly means of wreaking their vengeance on the poor superstitious and uncomplaining negroes. I refer to the Ku Klux.

But having infringed on your space to a greater extent than was at first intended, I will defer the treatment of the organization and its workings until my next.

News Summary.

Mr. J. E. King, of the Alabama Radical, has been appointed Assistant Revenue Assessor for Blair county vice Geo. W. Russ, removed.

Another of Queen Victoria's daughter is reported to have been betrothed to an English lord. The good Queen seems rather disposed to seek alliances at home than abroad. In view of the importance of securing the good will of the people for her son, the Prince of Wales, this is certainly excellent policy.

The war in Europe did not materially interfere either with the production or exportation of champagne to other countries. The importation in the United States has not been so large at any time since 1849 as in the year 1870, and its value was never so great as in the last year, when we took \$1,392,690.

The total appropriations of Congress for 1872 are \$163,444,681.62, or \$5,593,549.98 in excess of those for 1871, which were \$157,851,131.64. The whole increase can be attributed to the new pension laws, which appropriate nearly double that amount, thus showing an actual reduction in the expenses of the departments.

Paris is still excited and feverish, and the mobs powerful and insolent. Putschism—a rigid disciplinarian—now commands the National Guard of the city, and order and tranquillity will be expected from his rule. Bismarck, it is stated, is preparing a history of the late war, in which he is quite severe upon the course of England.

The Black Sea difficulty is reported settled. Russia having practically gained all her demands. The Black Sea is to be open to men of war, the Sultan being permitted to admit the war vessels of other nations through the Bosphorus in time of peace. This is a sort of compromise in which the solid advantages accrue to Russia.

It is rumored that Mr. Schenck will not go to England, after all. It is said that he has accepted the position as attorney of the State Agent for Huntington, Pa., from whom they can only be obtained. These goods are not supplied to pedlars, at any price.

The first news from New Hampshire, in regard to the Democratic victory, had been gained, had the effect of carrying up the price of gold in the New York market. This shows more clearly than anything else, that after all that is said about political revolution because Mr. Sumner was not gratified in his every wish, the people are not prepared for the accession of the Democracy to power.

The Secretary of State has made a report to Congress on the subject of immigration. He shows that during the year ending 31st December last we received 250,278 immigrants, of whom Great Britain furnished 145,384 or over half, the Irish immigration not being reported separately; Germany, 83,561—less than one-third; Sweden and Norway, 14,133. China came fourth, sending us 11,553. Canada sent but 249.

The Supreme Court of Pennsylvania recently decided a case of very considerable importance. A covered box containing ninety dollars, after the note, had been given to A. inserted the words "and fifty" after the words "one hundred" in the body of the note, and sold it to C. The note falling due, A. refused to pay it, pleading that the note was a forgery. Suit was brought by C against A, and although the forgery by B was admitted, C recovered judgment against A for one hundred dollars. The Supreme Court affirmed the judgment, intimating also that it ought to have been for \$150 dollars, but as the plaintiff below had taken no exception to the judgment as rendered, it could not be disturbed.
