

REPUBLICAN STATE TICKET.

FOR AUDITOR GENERAL: COL. DAVID STANTON, of Beaver.

FOR SUPERVISOR GENERAL: COL. ROBERT B. BEATH, of Schuylkill.

Union Republican County Convention.

The Republican voters of Huntingdon county are respectfully requested to assemble in their wards, townships and boroughs, at the usual places of holding elections...

REPUBLICANS, READ OUR POSITION, OUR FACTS AND OUR CONCLUSIONS.

It was universally thought, for the best of reasons, that the difficulties which have heretofore existed in the Republican party in this county, would entirely disappear from the surface, and that the party, united as one man, would go to the polls, at the approaching October election, and administer an overwhelming defeat to our Democratic opponents.

Fellow Republicans, it is not a terrible thought? Just suppose that you were unfortunate enough to come into one of the several Courts, and because your prosecutor or antagonist secured the services of a certain gentleman for counsel before you could, if you had desired to do so, that there in the jury-box sat twelve men, whose minds should be as blank paper to your case, sworn to stand by and to assist your opponent's counsel!

It is his universally known, that the Republican party has been duped into filling almost all the valuable offices with Democrats, and that the time has come for a different order of things, and especially for the discontinuance of such folly.

It has been our sole end and aim to accomplish this. We have endeavored to conduct the JOURNAL, for the last six months, so that it might meet the approbation of every sound and sincere Republican in the county. We have kept aloof from everything that might be construed to favor of a factional character.

And we say further: That any gentleman of this community, be he rich or poor, high or low, learned or unlearned, who is unjustly assailed, as a Republican, editing a Republican paper, in harmony with the great majority of the party, as we do, we will defend him to the best of our ability.

And beyond all this: When a United States Senator from this town, the first and perhaps the last one in a century, is assailed by Democratic stool-pigeons, we will defend him; especially so when we believe him to be honest and laboring for the best interests of the party whose cause it is our duty to uphold.

ing any point they may wish. This was the case of the Ring or League. A man who was not a member had no chance of getting into office. Of course they used everybody who came in their way, but nobody knew that he was used, because he did not know who belonged to the order, and those who did belong made it a point, on all occasions, to swear most lustily that they did not.

They did not. It would have been suicidal to have pursued any other course, because if their adherents had known that they were only tools—the cat's-paw to rake the chestnuts from the fire—they would have dropped them quicker than a "hot potato," and consequently they were obliged to deny the existence of such a Ring.

Of course the Ring flourished for a season—all Rings do—and was, no doubt, much magnified. It was a source of profit and success to those who could not have obtained success in any other way. This brought down upon it the envy and jealousy of some, as well as the honest and hearty condemnation of those who would spurn this kind of chicanery.

But it is quite probable that no effort would have been made to break it up had it not endeavored to pack the jury with its sworn adherents or their cat's-paws. In the meantime some of its members had "blown," and its Constitution and By-Laws had been placed in the hands of Hon. John Scott, who, until this indubitable evidence was placed in his possession, was unwilling to believe that such a sworn Ring existed.

But here was such evidence that no mortal man could successfully contradict. It was overwhelming. Under such circumstances Mr. Scott, sworn to be true to his clients, was obliged to sit the packing of the jury, and to the result was that the Court was satisfied with the evidence and the jury set aside.

and its handful of conspirators who are trying to mislead the genuine Republicans, but which they shall no longer! We doubt whether there are fifty Republicans in Huntingdon county to-day who desire to keep up strife in their party, perhaps not half that number.

Originally there were not three hundred members of the Ring, if we understand it, in this county, and those who were not members only wanted to know that they were only used to elect those who were in, without having a ghost of a chance of being elected themselves, (because that was not the game,) and they would leave it at once, while many of those who were in were ashamed of the disreputable association to which they belonged and abandoned it.

This being the case, we have no fears of the mischief that Messrs. Speer, Woods & Co. can do. They might as well consolidate the Globe and the Monitor now as after the election.

REPUBLICANS! We have waded through this statement for the purpose of reviving in your memory an old told tale, that you may consider whether it is advisable and judicious to keep up feuds in the Republican party on the strength of these facts. Whether there is to be an eternal political warfare for the satisfaction and benefit of the Democrats and a handful of sore-heads. Whether you are going to lend yourselves to Mr. Speer to accomplish his bad purposes.

Whether you are going to allow the ticket to be made on the 15th of August such a sworn Ring existed. But here was such evidence that no mortal man could successfully contradict. It was overwhelming.

It is his universally known, that the Republican party has been duped into filling almost all the valuable offices with Democrats, and that the time has come for a different order of things, and especially for the discontinuance of such folly.

The League Ku Klux (who are left of them,) believing that their chances are less for obtaining offices in the Republican party now than they were before they swore to cheat their neighbors at this time playing into the hands of the Democrats on the promises to the effect: that if they can cheat their neighbors into electing the Democratic ticket they will be handsomely rewarded.

Republicans, are you going to allow these men to cheat you into aiding the Democrats? They have succeeded once, shall they succeed again?

The Democratic party, in casting about for a Presidential candidate, are woefully in the woods. Not that they haven't abundance of aspirants, but they want somebody who is available,—one who can ride a dozen of horses, say one thing and mean another, and look at the four points of the compass at the same time.

Hon. John Scott, and the best men of Huntingdon county, found that they could only strike a parasite that had secretly fastened upon the party, by defeating it at the polls, in which they were endorsed by all the true men of the party who understood the evil they were trying to eradicate.

The crippled birds are the ones who, encouraged by Democrats, are now filling the Globe with their cries. Wounded pigeons are always known by their flutterings.

The JOURNAL has done all that it could to harmonize the party; the Globe is doing all it can to disorganize the party. We learn, however, that the best interests of the party at heart?

The League, like a fatally wounded serpent, is all dead but the tail, but the Democratic doctors are determined to make the best use of all the remaining evidences of vitality. The Globe is the tail.

The Globe don't scare, but it gets awful mad! and then! Oh, ye gods, but the dirt has to fly! We have seen a mad animal in the fields before now of which it reminds us very much.

The Globe says: "The past cannot and will not be forgotten." This is just what the Democrats want. They can afford to pay the Globe for such little-tidbits.

The JOURNAL wants harmony; the Globe strike and contention. Republicans, which do you think is in the interests of the Democrats?

John McCurdy, Esq., of Shippensburg, has been appointed by the Governor, Superintendent of Public Printing.

We are compelled this week to omit a number of advertisements, but the omission will be made good.

tators appeared the belles of Franklin street, in all the gorgeousness of dress and fashion. And a thousand eyes and hearts are at once set upon these gay specimens of human folly.

But what West Point? It is the terminus of the great Erie River Railroad, and is in daily communication with first-class steamers for Baltimore and New York. It is noted also as a famous watering place and health resort.

The great event of Richmond during this season was the trial in the Hastings Court, last week of Mr. Caboon.

This is one of those cases of political preference which occur in the State. Mr. Caboon was the legal candidate for Mayor of the city, and as all agree, would have been elected.

It is no exaggeration of the state of affairs to say that loyal men have no protection for their property in the State of Virginia. True, there are people, and as in some other places of the South, drag loyal people from their homes in dead hour of night and subject them to the indignities of a chain-gang.
