Because by conomical management its ratio of expenses to total income is less than that of any Company in the State. (See official insurance comments in the State.)

Because it has declared More Dividends in Number, and of a larger average Percentage, than any Company in the United States.

For example: Policy No. 16, for \$5000, has been paid to the Widow of a Philadelphia (Merchan), upon which 23 Dividends has been declared averaging 57 Per Cent. Had these Dividends Hen Uised to Purchase Additions To This Policy, \$5040,00 More Would Here Been Realized, Making The Policy Worth \$11,045.00.

Because it is liberal in its management.
