

Brief Mention—Homo-Mado and Soten

The Juniata river is ice-bound. Lead commences on the 18th inst. Old Maria is still on the war path. Traveling swindlers are numerous. The rolling mill project is moving along. Prof. Mills is holding forth in Johnston. Railroad smash ups are the order of the day. Tyrone is talking of raising a military company. For next job work come to the Journal office. The sleighing is "gone where the woodbine twined."

Harmess—The snapping and snarling of muzzled cows. Maj. John Thomas will orate in Altoona on the 22d inst. Failed to reach us this week—Our Washington letter. Johnston has organized a building and loan association. Our streets have been quite lively since the recent fall of snow.

The ice on the Raystown Branch is said to be 18 inches thick. The Tyrone Blade thanks "Senator" R. M. Spear for pub. docs. Don't fail to call at the Journal office to get your sale bills printed. Almost visible to the naked eye—Our Paul's "lamb chop" whiskers. Remember that it is always in order to subscribe for the Journal.

Perry county, in some portions, is scourged by the "red demon of the nursery." U. S. District Attorney, H. Bucher Swoope, is confined to his room by sickness. Rumored—that a "calico sociable" is to come off, in this place, at an early day. The stable of Sheriff Myers, in Ebensburg, was destroyed by fire a few nights since. We publish elsewhere, in to-day's issue, an exhibit of the county finances for 1871.

The school directors of Lewistown want to borrow \$20,000 to build a school house. The colored citizens of this place have organized a Lodge of Sons of Temperance. Mahony City has closed its churches and Sunday schools on account of the small-pox.

"The snow, the beautiful snow," fell to the depth of six or seven inches on Friday night. The General Pennsylvania Conference of the M. E. Church meets at Lock Haven on the 20th of March. All the old ring-boned, spavined, splint and blind horses in town have on the road since the snow fall.

Thermometers have a busy time of it in this quagmire climate—they go up and down so much and so fast. The Rev. Wm. Jarrett will preach in St. John's P. E. Church, in this place, on Sunday next, at the usual hours. There will be a lodge of I. O. O. F. instituted at Three Springs, this county, and the new hall dedicated on the 20th inst.

The man wanted to run a "buss" about the town has not turned up yet. The long look for him will come at last, never fear. A man named Miller, residing in the northern part of the borough, was sent to prison on Sunday night last for abusing his wife.

Some of the eastern towns are establishing societies for the "protection of children with bare legs from the cruelty of mothers." Money is a great lever in the affairs of men, says an exchange. It is, indeed. So great a lever that some of us can never keep it.

We had the pleasure of taking by the hand, last week, our friends, Revs. J. C. Clarke, of Sunbury, and R. E. Wilson, of Philipsburg. The sale of the residence of the editor of this paper, at Bedford, has been postponed until Tuesday next, 13th inst., at 10 o'clock. Fifty truck cars, loaded with railroad iron for the Bedford and Bridgeport railroad, have been standing on the long siding for the last week.

The Franklin Manufacturing Company have sold out to Bartol, Kennedy & Co., by whom the business will be conducted in the future. The house of John Hartman, in Reedsville, Millin county, together with nearly all its contents, was destroyed by fire on the morning of the 24th ult.

Don't buy a Sewing Machine until you give the Singer a trial. Blair has plenty of Agents. If you want a machine drop him a line and you will be sent for you to try. Rev. Dr. Hamlin, of this place, delivered his lecture, "Learning to Read," before a Shipensburg audience, last week. It is very highly spoken of by the press at that place.

John Bennett, an employe at Ross' ore bank, in Bratton township, Millin county, died, the other day, from having his spinal column dislocated by a quantity of ore falling upon him. Adolphus Patterson, of Williamsburg, recently received a verdict of \$16,871.44 against the P. R. R. Company, in Philadelphia, for damages occasioned by the detention of his boats in the canal.

Tuesday last week was ground hog day, and as his hogship could see his shadow, we may expect six weeks of wintry weather, that is if there is any reason to be placed in the prophecy of Mr. G. H. I. An unfortunate, owning property in Bedford, which cost him \$10,000, may sell it for \$5,000, while a lucky fellow owning property in Huntingdon which cost him \$5,000, sells it for \$10,000. That's the difference.

Our country friends, when they come to town, will do well by consulting our advertising columns before making their purchases. We can reach that mechanics who advertise in the Journal will deal honorably with you and give you your money's worth. The paper is to the people what a sign-board is to the traveller. The paper tells who is in business, and where to trade, and the sign-board tells the name of the place and the direction. Then, if you want people to buy, tell them through the paper where you stay, and what you have.

Miss McCracken, of Washington county, was caught up by the storm in the Coughleny valley, on Sunday two weeks, carried four hundred and sixty yards, by actual measurement, and came down crackling through an apple tree. She received a few bruises, but sustained her chignon intact. Theophilus Popp, of Poppsville, Popps county, a vendor of pop-corn, fancying himself to be very popular with his lady love, popped the question to her under the poplar tree, when she referred him to her poppy who, when asked his consent, was laboring under the influence of ginger pop, popped him out of the door to the tune of pop goes the weasel and Mr. Popp hasn't popped any since.

By reference to our terms it will be seen that we charge ten cents a line for all our notices exceeding five lines in length. This becomes necessary owing to the great length that relatives are disposed to string out their notices. We could fill columns full of this kind of matter, which would be of no interest, outside of the mere announcement of death, to perhaps a half dozen of readers.

FROM BEDFORD TO HUNTINGDON.— Bedford, our readers are aware, has been connected within the last six months, with the world at large, by means of the Bedford & Bridgeport railroad. Its citizens have become so elated at this good fortune, that they have been "puffed up," as the old ladies say when they see any one putting on airs, and the result has been that the deity, who directs the destinies of railroads, determined to punish them summarily for their vanity, by cutting them off again from the outer-world, and reducing them to the "coach and four," at an average speed of five miles an hour, and this, verily, is fast enough for Bedford! We know this to be so! Why didn't our wicked Bedfordian, without the fear of the Great God before his eyes, tell us that if they had another railroad the place would be ruined? And hadn't we a right to believe him when he cited the fact, that before the completion of the railroad they shipped through the town, at least twice a week, a great load of staves, and the drivers always stopped to take a drink and buy a plug of tobacco, and now there is nary stave passes through the town, nary dime left by the thirsty and tobacco chewing drivers, and the consequences are that the whiskey business is about ruined and the stores are at a stand still. One landlord has already retired from business and another will, in a month or two, and the store-keepers want to sell out. We sympathized deeply with the young man who told us this lamentable tale and, at once recommended him to President Cass for a "push" on the railroad. We have no doubt but that he was appointed. The President always hearkens unto us. But we have drafted several leagues from our subject. It was on Wednesday morning last. The thermometer indicated far below zero, and if we are not mistaken, the mercury was doing its level best to hide itself in the ball. While it was cold! The wheels creaked and yawned as if they had been on a high on the night before, and couldn't get over it. "Hello! There comes the buss." In a moment we were at the door. Down the street it came with a perfect rush. Col. Gordon on the box, U. S. District Attorney, H. Bucher Swoope, is confined to his room by sickness. Rumored—that a "calico sociable" is to come off, in this place, at an early day. The stable of Sheriff Myers, in Ebensburg, was destroyed by fire a few nights since. Proceedings of the LXXXVI BOROUGHS COMMISSIONERS meeting, January 2, 1872. Present—Chief Stated, Mr. Africa. Asst. Burgesses, Messrs. Murray and Boring. Council, Messrs. Buchanan, Barchinell, Leister, Shafer and Strickler. The minutes of the last stated meeting were read and approved. The committee on Fire Engine made verbal report and presented some communications and circulars from manufacturers and others which were ordered to be filed and the committee continued. The committee appointed to examine the Fire Engine, No. 568, Washington street and report upon the propriety of purchasing it, reported that it was practicable to use a part of the room for that purpose. On motion, the report was accepted, the committee discharged, and a special committee, consisting of Messrs. Murray, Boring and Leister, was appointed to make the necessary alterations for the purpose intended. The special committee appointed at the last stated meeting, relative to widening Seventh street, reported progress and was continued. On motion of Mr. Boring it was Resolved, That it shall be the duty of each member of the Council or other borough officer, member of the Board of Health, or member of the Board of Public Works, to see that the streets under his jurisdiction are kept in good order, and that he shall be held responsible for the same. The Chairman made inquiry before the adjournment at each stated meeting if all delinquent taxes had been paid, and that if not, the same should have been presented in accordance with this resolution. The report of Hugh Lindsay, Weighmaster, was received, read, and referred to the committee on Finance. Mr. Z. Turner reported that he had received and paid to the Treasurer licenses for exhibitions from June 30, 1870, to Dec. 12, 1871, \$55.88. The Sexton reported six interments in the Cemetery during the month of January. The policemen report arrests during January, as follows: East Ward..... 2 West Ward..... 3 Total..... 5 Bills were presented and orders granted as follows: Wm. Sturtevant, blacksmithing, 70-71-72..... \$ 43 Anthony White, remaining payment, 400..... 10 A. Hoffman, notice boards for bridge..... 10 00 Josiah Cunningham, coal bill, 1869, 1870..... 8 70 A. H. Jacobs, fire patrol, Nov. 25, 1871..... 1 00 Anthony White, fire patrol, Nov. 23, 1871..... 2 00 Chas. R. K. Street Commissioners, Jan. 2..... 2 75 Gas Company, 25 Street, 2 months, Jan. 1..... 41 80 Gas Company, Council Chamber, 13 months, 2 29 A bill of P. Schneider for 2 loads of stone delivered in August, 1865, was read and laid upon the table. Mr. Murray, Assistant Burgess, and committing magistrate, made a detailed report of the number of arrests made by the policemen since August 25, 1871, costs, etc., which was read and ordered to be filed. By this report it appeared that there had been arrests made of parties brought before him as follows: August, 1871..... 11 October, 1871..... 12 November, 1871..... 3 December, 1871..... 41 January, 1872..... 2 Total..... 73 The Burgesses were authorized to settle with the Sheriff for the jail fees and with the committing magistrate and draw orders for the balance found due. Adjourned.

SMALL-POX UP SIX MILE RUN.— About two months ago a worthless individual, named Blair, was induced to leave his wife, Hopewell, Bedford county, for a consideration of fifty-dollars, she, the wife, paying the consideration, and the community considered it a good riddance. He left Hopewell and went to Johnston, where he remained a short time, and we suppose spent his fifty dollars. He took sick and returned to Hopewell his wife, and in a day or two later small-pox manifested themselves, and the little village was terribly alarmed. The university of the community was that the fellow would die, and the Doctor thought him an excellent case for an experiment upon, but there were no rights in the place, evidently, for the man survived. He had found his wife at the residence of our friend, George Cartwright, and here he lay until he recovered. Both Cartwright and his wife took the disease, but owing to strict sanitary regulations the terrible disease spread no further in Hopewell, but while Blair was sick he was visited by an individual named Eichelberger, who stopped at the hotel. An old lady from Coaldale came down to Hopewell and stopped at the hotel and was put into the bed previous to being occupied by Eichelberger, and a few days later she returned to Coaldale, she went down with the small-pox. No one suspected that it was a real case of this loathsome disease, but all contended that it was only a case of chicken-pox, though the Doctor had pronounced it the former; the result was that in a short space of time there were ten or a dozen cases in Coaldale, and a death or two, and from here it spread to North Point, where we learned a few days ago there are some nineteen cases, and it may spread all over the coal field. Thus this community has been scourged through a worthless creature that was fit for nothing else but to disseminate the horrible disease.

SCHOOL DIRECTORS.—Mr. Bucklewell's bill "to authorize reformed voting in the election of Directors of Common Schools," has passed the Senate. This bill contains the provisions recommended by Supt. Wickham in his annual report, and is as follows: SECTION 1. That in all future elections of directors of common schools in this commonwealth, wherever two or more persons are to be chosen in a district for the same term of service, each voter may give all his votes to one or more candidates to be voted for as he shall think fit, and the candidates highest in votes shall be declared elected. Any appointment to fill a vacancy in a board of directors shall, whenever practicable, be made from among the voters of the district who shall have voted for the director whose place is to be filled. SECTION 2. Whenever a voter shall intend to give more votes than one to any candidate for school director, he shall express his intention distinctly and clearly upon the face of his ballot, otherwise but one vote shall be counted and allowed to such candidate; but any ballot which shall contain or express a greater number of votes than the whole number to which the voter shall be entitled, shall be rejected. The design of this act is to take the election of school men out of partisan politics, and to insure minority representation in the constitution of the Board.

SCARLET FEVER.—Saxton and the surrounding country has been visited by scarlet fever in a most malignant form. It has visited almost every family and carried off quite a number of small children. Window Glass and Putty at Patton's, March 22, 1872.

NEWS FROM THE LOWER END.—RAIL ROAD STRUGGLES.—The engineers who have been locating the route for the East Broad Top Railroad and Coal Company have, since the meeting of the 8th ult., been instructed, it is said, by the Penna. R. R. Company, to run a preliminary line, commencing at gap of Siding Creek, in Fulton county, and then down said stream to its confluence with the Aughwick, down the Aughwick to the Juniata river, and down the Juniata to Manayunk station on the Penna. Central. This survey they have nearly completed, having but one or two short routes to run, when they will make a full report of all the lines run, after which the most practicable route, with the lowest grade, will be adopted. If the Aughwick route is established, it will leave Orbistonia out in the cold. Since the various lines have been run the citizens along the different routes are considerably excited and express great uneasiness. THE WEATHER. For the last three days the mercury has been below zero, and our streams are all well bridged, so that they can be crossed at any point; good for surveying along the Aughwick. RELIGIOUS. The religious interest is moving on without any abatement. Rev. M. S. Alexander, of the Presbyterian Church, is conducting two very interesting revivals in Shirelyburg and Orbistonia, and quite a number have professed conversion at each place. Rev. S. Alexander, Presbyterian, is now holding a series of meetings in Shirelyburg with considerable encouragement. The Rev. J. W. Evans has just closed a meeting in Germany Valley, during the continuance of which fourteen professed conversions. TEMPERANCE MOVEMENTS. Petitions are circulating freely and being numerous signed, in this end of the county, in favor of the Local Option Liquor Law. LEAP YEAR. As this is leap year the ladies appear to improve it with considerable zeal and animation. Several weddings have taken place this week in this neck of woods, of which you no doubt will have due notice. I see in some of our daily papers that some of the ladies have brought actions for breach of promise, of which Bart Pomeroy is about to be manipulated in the tune of \$25,000. DEATHS. Died, in Germany Valley, on the 24th ult., of measles, young son of Samuel Lathrop. In the same Valley, on the 30th ult., of pulmonary affection, Mrs. Foutz, wife of Charles Foutz. ABSENY FROM DUTY. Gen. Lane, our Representative, has been confined to his room, at home, for the last four days, with bilious affection, a disease that is prevailing to considerable extent at Harrisburg. The General is now convalescent, and has left for Harrisburg. ANNUAL. COUNTY PAPERS.—The status of the county paper is truthfully set forth in the following, by an observing country editor: "We sometimes meet individuals who complain about their county paper and cease to take it, preferring to subscribe for a city paper. They do not seem to comprehend the facts in the relation to publications and support of papers. The county papers are the same as the city papers, and are published for the same purpose, \$2 for a single copy, and the only way they get them for less than that price is by clubbing; and sending for a number of copies at a time. Then again they must invariably send the money in advance, which they seldom do for their county paper. But the principal difference consists in the fact that it costs the publisher of the county paper the same to set his types that it does the city publisher, and setting type is the principal expense in publishing a newspaper of small circulation. After the type is once set the expense is then merely for blank paper and press work, and the paper is published for the same price, and the publisher of the county paper is at the same advantage to two dollars. Of course the large city papers contain a greater amount of reading matter than the county papers, but which is the most useful and interesting? It they contain notices of our schools, churches, meetings, marriages, and hundreds of other local matters of interest which the country papers publish without pay? Not an item. They ever say a word calculating to draw attention to our county and to its numerous thriving towns, and aid in our progress and enterprise? Not a word. They get their money, unless they are contracted for by the county, and unless they are getting the worth of their money. It reminds us of the person who takes the largest part of the boots in the box, simply because they cost the same as the pair much smaller that fit."

THE THIRD ANNUAL RIFLE TOURNAMENT of the Huntingdon Sportsmen's Club will be held, as usual, on the 22d of February. Two valuable prizes will be given away to the marksmen making the first and second best shots. The shooting to be done as formerly—ten consecutive shots, off hand, at sixty yards. The marksmen to be invited are marksmen from all parts of the county are invited, especially from Blair, Millin, and Cambria counties. Persons wishing to compete will send their names to Thos. C. Fisher, Sec'y, Feb. 7, 1872.

The firm of Wm. March & Bro., having taken a share in the late Franklin Manufacturing Company, are obliged to request notice or withdrawal, to settle up at once, or they will be compelled to leave their accounts for collection, as they need their money for that business.

OLD BOOKS WANTED.—Persons who have copies of Smith's history of Virginia, New York and New Jersey; Proudt's history of Pennsylvania; Rapp's history of counties of Pennsylvania; Ramsey's history of South Carolina; Hutchison's history of Massachusetts; and old histories of America, old travels in America, old memoirs of Americans, old pamphlets of local interest, old pamphlets early printed in America, old almanacs, old newspapers, and everything relative to the revolution of 1776, will do well to confer with the editor of this paper who will buy them at reasonable figures. Jan. 24, 1872.

"HOW TO GO WEST."—Forty years ago, Illinois was as far West as most people wish to go, and journeys were made in the legendary "Prairie Schooner," but in these days of progress and improvement, the word West has come to mean Iowa, Nebraska, Kansas, Colorado, California and the Territories, and the traveler reaches almost any point there by a splendid line of Railroad, connecting the West with Chicago, and from Logansport, to Toledo, Peoria & Warsaw R. R., and running through Hannibal, St. Louis, Lincoln, Nebraska City, St. Joseph, Atchamofeen, Leavenworth and Kansas City, connecting with the Union Pacific, Kansas Pacific, and other Railroads running from those cities to "Always go 'By way of Burlington," and you will be right. The Burlington Route has admirably answered the question "How to go West?" by the publication of a truthful and interesting document, filled with facts in regard to Time, Connections, Accommodations, rates of Fare, and other interesting items, and illustrated by a large map, truthfully showing the whole West, which they distribute free of charge. Copies, and additional information, can be obtained by sending a card to the General Agent, B. & M. R. R.
