to come from the bedroom. It was surely the raising of a sash. Then there was the sound of a movement as though some one was entering that way.

Fear nearly paralyzed her for a moment but she quickly rallied, and taking up the lamp, proceeded to investigate the matter. She had scarcely opened the bedroom door when she staggered backward with a half suppressed scream. Two men in hideous disguises were already in the room and a third ruffian was in the act of crawling through the window. Involuntarily she clutched the pocket which contained the money, thinking meanwhile how she could

The level or terrace upon which the principal active springs are located is about midway up the sides of the mountain covered with the sediment. Still farther up are the old ruins of what must have been at some period of the past even more after more than fits and starts of fortunate speculation. Little flashes are sweet. Every day a thread makes a skein in a year. Brick by brick houses are built. We should creep before we walk, walk before we run, and run before we ride. In getting rich, the more haste the less speed—ting rich that we are able to see why remark had I known you were near me; and lam ready to make the most humble applicants at this found that have are able to see why remark had I known you were near me; and lam ready to make the most humble applican and sure is better than last and sure is all sure is better than last and sure is all sure is and sure is all sure is and sure is all sure is all sure is and sure is all sure is and sure is and sure is all sure is and Be just before you are generous.

He only is bright who shines by himself.

An honest death is better than a dishonest life.

The fickleness of fortune is felt all over the world.

Little can be done well to which the whole mind is not applied.

portion of the West. From its peculiar form we almost involuntarily named it the "Liberty Cap." It is entirely composed for arbonate of lime, in flexible cap-like layers, with a diameter at the base of fiften feet, and a height of about forty feet. It is completely closed over at the summit. This is probably an extinct geyser, and was the most powerful one of this group.
