THE GENERAL BILL FOR THE REGULATION OF LEGAL ADVERTISING.

A Bill has been introduced into the will look for their legal advertising and legal advertising, which provides that all is said that it does not allow the individuble with that of an independent journalist. gal advertisements, of whatever charac- al to control his own business; the law aler, "shall be printed and published in at ready says he shall advertise, if it were least two newspapers, one of each repre- left to his own centrol he would find it enting the leading political parties" "hav- advantageous not to do so very frequently. ng the highest number of bona fide sub- We only want the law to go a step furthmay be published." These are the principal provisions of the Bill. The original and not to allow him to select that medidraft, it is true, contained a clause confining the publication to papers printed and not see. The law docs not prohibit him striking out of this clause and the Bill has good to be subserved and not individual been so amended. In our estimation there favoritism and whims. And this the Bill never was a fairer or more judicious meas- in question will accomplish, and we hope

Such contracted selfishness must, sooner or later, be fully understood, by the public at large, and must return upon them with ten fold force. Let us then closely scrutinize the provisions of this Bill and see whether good common

ense and the best interests of the people do not demand that it should become a law.

The Bill provides that "all legal adverisements, required to be published, by the These are the very words." It makes no new publications. It makes no new patronage. It simply directs where advertisenents, now authorized by law and the rules of the courts to be published, shall be published. This is all. And is the law which, as a wise precaution, directs that certain information shall be published and leaves everybody to discriminate where it shall be published, not very deficient? What is the object of publication? It is to inform the public so that great wrongs nay not be perpetrated upon individuals. And why select newspapers to make these publications? Because the law presumes that the highest number of individuals will be reached and informed in this mode.

Then, if this be the object of the law in authorizing publications, why should not the newspapers be selected that reach the highest number of readers? Why leave that which is directed for the public good to be hawked about, at the whim of individuals, perhaps as so much favoriteism, to be published in some obscure sheet that has only a circulation of a few hundred words. Which were as follows:

"The history of the Alabama and other cruisers which had been fitted out, or armed, or equipped, or which had received augmentation of force in Great Britain, or in her Colonies, and of the operations of those vessels showed extensive direct lossess in the capture and destruction of a large number of vessels, with their cargoes, and in the heavy national expenditures in the pursuit of the druisers, and indirect injury in the transfer of a large part of the American commercial marine to the British flag; in the enhanced payments of insurance, in the prolongation of the war, and the suppression of the rebellion."

Here was a brief but candid statement of our case, and for its settlement the Arbe reached and informed in this mode.

readers, simply to meet the requirments of of our case, and for its settlement the Arbitration was proposed, and provided for the law? And does not such a deficiency admit of fraud upon the public, and does in the Treaty itself, in the following lanit not permit an obvious violation of the spir- guage embraced in the first article:

it not permit an obvious violation of the spirit and reason of the statutes? Every school boy would say that it does. This, then, has become a crying evil. There is not a practitioner in the State, of any standing, who cannot enumerate instances, if he desired, of the abuses of the spirit of the present laws. It is to remedy these abuses that the present bill is intended.

The Bill further provides that all such legal matter as shall be required to be published, from time to time, shall be pub-

The Arbitration was authorized for the lished "in at least two newspapers, one of express purpose of deciding upon the mer-South African diamond fields, writes to each representing the leading political parities of whatever claims might be presented, ties." Is this not fair and judicious? No as well as upon the amount of damages, if one expects both Democrats and Republiany, that should be awarded, and the two cans to take the same newspapers, and yet Governments agreed to abide by the decicans to take the same newspapers, and yet they are equally interested. If the publication is in a Republican paper, Democratis are not expected to see it and, if in a Democratic paper, Republicans are likely.

MANNER OF DRAWIN

WARNING.

MANY CITIZENS of this county who, had been persuaded to buy other kinds of Sewing Machines, which seemed at first to work well on a tolerable range of work, have expressed to me their regrets that the genuine original Elias Howe Sewing Machine—the best in the world—had not been brought to their notice before purchasing. And Judging from the number of cfers I have, to trade Howe machines for all other kinds, I estimate that the people of this county have lost more than \$20,000 by failing to get, at the first, the genuine House Machine. It is made on sound mechanical principles, avoids rickety cog-wheels, and is so constructed as to have perfect control by adjustment, and provision made to restore lost motion when it wears, thereby securing extraordinary durability, and provision made to restore lost motion when it wears, thereby securing extraordinary durability, and provision made to reactest range of work. Now as my traveling agents may not be able to visit every person in time, and as many inferior machines of different kinds are still being urged on the public, I hereby GIVE NOTICE, that before you spend your time or money on any other machine, the safest plan is, either to write to me direct, or inquire of agents for the famous Elios Hoace, machine, from Brown's Carpet Store, Huntingdon, Pa., and take no agents word for it, that the machine is genuine, unless it has the medsilion at the head of this article, imbedded in the bed plate of every machine.
