Wherever Poke Root grows, it has a local reputation as a Blood Purifier, and for the care of Rheumatism. With all this local reputation, and the praise of distinguished Physicians, (Drs. Co. Lee, King, Wilson, M. Hunt, Griffits, Copland and others,) who have tested its medical powers; it has been neglected by the profession at large, as much through a want of a proper appreciation of its merits, as a knowledge of the proper way to prepare it for medical use. Dr. Oliver Crook, (a-physician who devotes his entire time to the duties of his profession), has fully tested the active medical qualities of Poke Root during the last 23 years, and unhesitatingly pronounces it to have MORE MERIT—For diseased depending on a depraved condition of the blood,—than any and all otherarticles named in the Materia Medica. Under his instructions our Chemists have combined the nettive medical qualities of Poke Root with the best Tonic Preparation of Iron, and we offer this preparation to the public under the above name.
