A FARM FOR SALE—A tract of farm and timber land, in Oneida and Henderson townships, 2½ miles from the borough of Huntingdon, is offered for sale, on reasonable terms, containing about ONE HUNDRED ACRES, between 50 and 60 acres of which are cleared and under cultivation. The upland is of a fair grain raising quality with some fifteen acres of fine meadow bottom, and the balance is principally covered with a good quality of timber, mostly white pine and hemlock, with a good saw mill seat, and never failing water power thereon.

The improvements are a neat two-story frame house and frame stable, with other outbuildings and conveniences, and a young thriving orchard of choice fruit trees. USED AND ENDORSEE BY On this subject the monthly report of the Department of Agriculture says; "The proper depth to plant seed is a question of considerable importance, and one which, like many other similar ques-tions relating to plant growth, cannot re-ceive a definite answer that would be of general or universal application.
