

LOCAL AND PERSONAL.

NEWS OF THE NEIGHBORHOOD.—The small pox has left Bedford. The passenger depot at Bedford is finished.

Patron held her county convention on Saturday of last week. The new Richard-st bridge, at Bedford, is to be completed soon.

The Democratic county convention of Franklin will be held on Tuesday the 30th inst. S. L. Creutzberg, Esq., and family, of Philadelphia, are stopping at the Cramer Cottages at Bedford.

Somerset is putting up some substantial buildings in place of those destroyed by the recent fire.

Dr. Kohler of Reedsville was recently thrown from his horse near Mann's toll gate, sustaining some injuries.

A boy named Groom, some days ago, fell from a tree in Gaysport, Blair county, and broke his arm.

The railroad is completed, and the trains are now running and connected with the P. & C. R. R. at Bridgeport.

John Otto, aged about 10 or 12 years, while bathing on the 4th of July, was drowned in the river at McVeigh town.

The Arrandale House, at Bedford Springs, is doing its full share of business this season. It is worthy of a good patronage.

The Duanees creek region was visited by heavy rain-storms. Some damage to corn fields and meadows is reported.

J. F. Campbell, Esq., formerly of the Altoona Vindicator, has issued a new daily paper in Johnstown, called the Mountain Voice.

Over a mile of the iron has been laid on the track of the Hollidaysburg and Williamsburg railroad. Look out for the locomotive.

The relief fund for the Somerset sufferers amounts to only a little over thirty thousand dollars. This is but a small percentage of the loss.

The cholera infantum is raging among our little children, several having fallen victims to it within the past ten days.—Bloody Run Press.

A little son of James A. Harris, Esq., of Harrisonville, Fulton county, fell into one of his bathtubs one day last week and was drowned.

The post-office department has re-established the post office at Dry Ridge, Bedford county, and Mr. John J. Powell has been appointed post master.

D. F. Mann, Esq., member of the State Central Committee, and Jas. B. Shires, Esq., left Bedford, on Monday, for Erie to attend U. S. District Court.

Bedford hogs are permitted to have the liberty of the town on Sunday only. Then they are allowed to do their Sabbath breaking into people's gardens.

The old Junata Crossings bridge, in Bedford county, is to be repaired by the Bedford and Chambersburg Atlantic company. The old thing needs badly.

Joseph Burns, employed in laying track on the Hollidaysburg and Williamsburg railroad, recently had one of his hands badly crushed while coupling cars.

There is possibly very few favorable places in the United States, and certainly in Pennsylvania, for a delightful summer resort than at Jack's spring on the mountain, about eight miles from Altoona.

On Saturday night last, Mrs. E. C. Jones, of Gaysport Blair county, fell from one of the upper rooms of her dwelling down a flight of stairs, receiving serious injuries.

An exchange suggests that farmers have their names painted on their road gates. The suggestion is a good one, and would be a great help to those having business with them.

Jerry Wildman, of Fermanagh township, Juniata county, was badly injured internally, one day last week, by being thrown out of a buggy, occurred by the horse running off.

On Wednesday morning of last week an unknown man, aged about 35 or 40 years, was struck by the Pacific Express eastward bound, some distance below Altoona, and instantly killed.

Perhaps young bachelors, who contemplate matrimony, can find encouragement in the fact that it only requires twenty-four yards of a costly fabric for an ordinary dress pattern nowadays.

The Supreme Court, week before last, ousted George F. Swank, editor of the Johnstown Tribune, from the Clerkship of the District Court of Cambria county, and adjudged J. T. Hite entitled to that office.

On the Fourth, a boy named Walter Lindsay, of Hollidaysburg, from a premature discharge of a pistol, had one of the fingers of his left hand badly injured—the finger was saved, but it is thought it will be of little use to him.

Messrs. M. Ritchey and H. B. Aaron, of Parkville, Bedford county, captured a large white crane last week. The beak and body measured nearly three feet in length and the wings when spread measured nearly four and a half feet from tip to tip.

The Salisbury and Baltimore railroad, and the Buffalo Valley road, both in Somerset county, are graded, but for want of capital to buy iron, are at a stand-still. We hope that both branches will soon find their way out of the present financial difficulty.

An Irishman named Gaffney, an employee of Lowry, Williams & Co., at Bridgeport, was killed by a passing train, on the B. & C. R. near Cook's Mills, on the 4th inst. He had been "celebrating" the day by a spree, and started for his boarding house, on the railroad track, with the above result.

Emanuel Shaffer, of Dauphin county, whose conviction and sentence for the murder of the wife of Nancy and John Shantz, related some time since, has been granted a new trial, by the Supreme Court. The error on which the judgment of the court below was reversed was the grouping together of testimony of two murders.

Abraham Gardner met with an accident on Monday afternoon, at Lewistown station, by which his ankle was dislocated and other bruises sustained—in fact making a very narrow escape with his life. He was on a car laden with lumber while the train was shifting, and a sudden jar threw some of it about, catching his leg, and tearing his clothing and shoe from his leg.

At Tyrone, on Friday evening, we were much pleased to take by the hand that distinguished our old friend and preceptor, Prof. Jas. A. Stephens of Huntingdon, Pa., whose visit to us we had not seen for the past six years. Father Time has apparently been dealing gently with the Professor, and we trust that the days of our old friend, who is so eminently gifted to impart instruction to the rising generation, may be long in the land. Serus in coelum redas.—Altoona Tribune.

PETERSBURG ITEMS.—Our correspondent "Sparta" writes us, though, owing to our space being limited we are compelled to curtail: "Petersburg (which is located on the Central branch of Shaver's Creek with the Juniata river) is beginning to improve more rapidly than heretofore and will eventually become an important town. It is one of the best stock-shipping stations on the road and all the products of the splendid country surrounding it are shipped from this point to my great satisfaction." "The Juniata Forge, run by John R. Hunter & Co., is located here. The iron turned out by this establishment has always been in high repute, and is now being sold at a high price. "The Fourth was celebrated at Fairfield and passed off very creditably."

MOUNT UNION AND ITS SUBURBINGS.

A reporter of the Harrisburg Patriot visited Mount Union, week or two ago, and got off the following interesting facts:

We are indebted for much valuable information about this place to Mr. John Dougherty, the efficient and experienced reporter of the Harrisburg Patriot, who has always labored for the improvement of his town, and it is to a great extent due to his energy and perseverance that we are able to present to our readers a full and complete account of this place and its surroundings. The town is situated in the lower portion of Huntingdon county, and derived its name from a union of mountains (the western rim of Kishacoquillas valley) with Jack's mountain, its southern base and Chestnut ridge with Jack's mountain by a chain of ridges forming an amphitheater, through which flows the Juniata river, the south base of which nestles the borough of Mount Union. Just below Drake's ferry, at the mouth of a gorge in Jack's mountain through which a trap and road, followed by the wagon, canal boat, locomotive and telegraph pass westward.

The Juniata river, which flows from the south base of Jack's mountain through the Juniata valley, is a fine stream, and is the source of the Juniata and Allegheny rivers. The Juniata valley is a fertile and beautiful one, and is the seat of the coal and iron industries of the region. The Juniata river is a fine stream, and is the source of the Juniata and Allegheny rivers.

A MAN DIES VERY SUDDENLY.

Suspensions of Paul Plays.—A trustworthy correspondent, at Casville, sends us the following highly interesting statement:

On the 28th of June last, a man named John Bumgardner, employed on a saw mill, in Casville, Ga., died very suddenly, and in a most mysterious manner. He was a young man, about 25 years of age, and was in the best of health when he died. He was found dead in his bed, and his death was attributed to a sudden attack of cholera. The coroner's jury returned a verdict of natural death, but the friends of the deceased were not satisfied with this verdict, and they have caused the body to be examined by a physician.

The coroner's jury returned a verdict of natural death, but the friends of the deceased were not satisfied with this verdict, and they have caused the body to be examined by a physician. The physician found that the deceased had died of cholera, and he has caused the body to be examined by a physician.

The physician found that the deceased had died of cholera, and he has caused the body to be examined by a physician. The physician found that the deceased had died of cholera, and he has caused the body to be examined by a physician.

The physician found that the deceased had died of cholera, and he has caused the body to be examined by a physician. The physician found that the deceased had died of cholera, and he has caused the body to be examined by a physician.

The physician found that the deceased had died of cholera, and he has caused the body to be examined by a physician. The physician found that the deceased had died of cholera, and he has caused the body to be examined by a physician.

The physician found that the deceased had died of cholera, and he has caused the body to be examined by a physician. The physician found that the deceased had died of cholera, and he has caused the body to be examined by a physician.

ITEMS FROM FRANKLIN TOWNSHIP.

A stage line, between Spruce Creek and Centre Hill, has been run for upwards of forty years. The line is about thirty miles long, running through a section of country densely populated. The scenery along the route is very fine.

Franklinville, a post village, is a pleasant stopping place. Mr. A. G. Erving, is the postmaster, and a most agreeable gentleman. The route is now run by Henry M. Maingal, of Grayville, who has furnished the line with very creditable coaches, and conducts the business as it has never been conducted before. The stages leave Spruce Creek at 9 a. m., and arrive at Centre Hill, at 6 p. m., making the whole trip in nine hours.

On Saturday the 11th, a very heavy storm visited the upper portion of the valley, doing great damage and swelling the streams beyond that of the last flood.

Andrew Myring had two cows killed by lightning during the prevalence of the storm. The grain is all harvested and will all be stowed away in a few days.

Political matters are very dull, but the Democrats are swelling Greeley with wry faces, they say: "Well, hardly know what to think, but any thing to beat Grant is what we want now. We would vote for Fred. Douglass or Jeff Davis if he were our nominee."

SUDDEN AND SINGULAR DEATH.—John Simpson, father of J. R. Simpson, Esq., of this place, left his residence, on Hill street, on last Friday evening, it is supposed, to bring home the cows. Not returning early in the evening, it was supposed he had gone to his son, Murray's, living up Stone Creek Avenue. A messenger was sent there, but not finding him, search was made for him in the field, whither it was supposed he had gone. He was found dead! He had apparently seated himself upon a log to rest and fell over and expired. His faithful dogs were found guarding the body. He had been unwell for some days, but no serious indisposition had manifested itself. He was highly esteemed by all who knew him, and his sudden and singular death has caused many expressions of regret that he has passed away. Death is supposed to have been caused by exhaustion and old age. He was in his 74th year.

How TO GO WEST.—This is an inquiry which every young man who is contemplating a journey westward should have answered before he starts on his journey, and a little care taken in examination of Routes will in many cases save much trouble, time and money.

The "C. & Q. R. R." running from Chicago, through Gallesburg to Burlington, and the "I. & M. R. R." running from Burlington to Iowa City, are the two main routes for passengers to the West. At Burlington they connect with the B. & M. R. R. and form the great Burlington Route, which runs direct through Southern Iowa to Nebraska and Kansas, with close connections to California and the Pacific coast.

How IT COMES.—Many persons suppose that a large paper, with three times the reading matter contained in the old Journal and American, costs no more to publish than the latter, because the subscription price remains the same. This is a mistake. It costs at least one-half more, and this extra cost must be made up on advertising, but the price for advertising is no higher, and there is but little, if any more, advertising, consequently we must charge for many things that were formerly published gratuitously. Will politicians and those who want to make money out of politics or secure political honors, remember this when we present our bills for personal advertising? The man who wants to make money out of politics has as much right to pay the printer as the man who wants to make money out of dry-goods, groceries, &c.

CASTORIA—a substitute for Castor Oil a family physic which is pleasant to take and does not distress or gripe, but is sure to operate when all other remedies have failed. It is a purely vegetable preparation, containing neither Opium, Morphine, or Alcohol. The result of fifteen years experimenting by Doctor Samuel P. Fitch. It is perfectly harmless and far more effective than Pills, Narcotic Syrup or Castor Oil. By its use, the bowels are kept in a healthy state, and the system is freed from all impurities. It is particularly adapted to crying or teething children. It kills Worms, cures Stomach, Aches, Constipation, Headache, and all the ailments of the Liver. No family can afford to be without this article. It costs but 35 cents—ask your druggist to get it for you, and he will always keep it. July 3-4.

AN INHUMAN OUTRAGE—A FAMILY Driven from Home at Night and their House Burned.—A desperado, named Joe Ingram, living with his family, in Mt. Union, at about 2 o'clock, on last Friday morning, proceeded to the residence of his father-in-law, named Ryan, living a short distance above that place and by threats of murder drove his mother-in-law and five children from their home, with nothing on but their night clothing, and then set fire to the house and burned it, with all its contents, to the ground. He went to three houses to get matches before he succeeded, and after he had succeeded in his hellish design, he ascended the roof of the house and hailed "fire" until the heat became unbearable, the only pity is that the roof did not open and swallow up the fiend. The children were obliged to remain in the woods until clothing was sent up from the town to cover their nakedness. Mr. Ryan is working at Barre Forge and was at home at the time. The family is left in a state of destitution. Ingram went next morning on the railroad as if nothing had occurred.

It is supposed that the matter grew out of an old grudge. About a year ago Ingram, acted very badly and the Ryan family had a warrant issued for him. In making the arrest Constable Rodgers, in self-defense, was obliged to put a ball through Ingram's arm, and it is supposed he bears a grudge ever since.

THE JUNIATA CAMP MEETING ASSOCIATION.—In company with Rev. M. Keo, of Hopedale, we visited the delightful grounds, selected by this association, for the holding of their Annual Camp Meetings, and we pronounce it one of the best selections that could have been made in the Juniata Valley, on the line of the railroad. It is far enough away from the noise, bustle and confusion of the latter, and near enough to dispense with the innumerable halting places. It is located about three-eighths of a mile to the north of the village of Newton Hamilton, in a deep woods, and is surrounded by four walls and three springs one of them is thoroughly impregnated with sulphur.

Mr. Norton, the contractor, is completing one enclosure of 108 feet by 190, containing 120 tents and a complement of 200 tents will be completed by the time set for the meeting. The camp will commence on Tuesday, the 6th proximo, and continue until Friday morning the 16th. Tents are for rent at \$7 for the lower, and \$6 for the upper floor. Boarding will be furnished for the term of ten days for \$7.50, or \$1.25 per day, or 50 cents per single meal. Persons who desire to get away from business for a space of ten days, and do some good for themselves at the same time, can here find the rest they want which will prove both pleasant and profitable.

Mr. Brown, of the Lewistown and Sunbury Railroad, has expended \$25,000 at Bridgeport Railroad.

For SALE—a Market Cart, in good order, will be sold at a bargain. Call at the Bee-Hive Grocery, No. 111 Fourth street. July 19

HUNTINGDON MARKETS.

Reported Weekly for the JOURNAL by Henry & Co.

Table with columns for various commodities like Butter, Coffee, Sugar, etc., and their prices.

DR. RADWAY'S READY RELIEF. It will afford instant ease. Inflammation of the Kidneys, Inflammation of the Bladder, Inflammation of the Bowels, Inflammation of the Lungs, Throat, Pleurisy, Catarrh, Palpitation of the Heart, Hysteria, Constipation, Rheumatism, Cold Chills, Ague, Chills, etc.
