Wednesday Morning, Nov. 27, 1872. EDITORIAL CORRESPONDENCE. PUEBLO, COL. TER., Nov. 7, 1872. Here am I, at the end of my journey, at last! Nineteen hundred and thirty-two last! Nineteen hundred and thirty-two miles from Old Mother Huntingdom, via of W. W. Borst, Esq., the first Division an hour. It has made as high as twenty the "Burlington Rout," and yet I am but Superintendent of this kind of road in America It would be Huntingdon's just see the rabbits run at times when the enterprise of the rabbits run at times when the rabbits run at time magnitude of our great country. I have just reached what, in the next hundred years, in all probability, will be the heart years, in all probability, will be the heart of it as well as its geographical centre. The tendent since it has required a Superintendent which I have been passing. vast plains which I have been passing deat, is a native of Stone Creek, Hunting ever, would sit bolt upright and would

th ough, for the last two or three days, at the rate of twenty or twenty-five miles an He served faithfully during the war, in a few rods off, when into their holes they hour, will all ve settled up in a few years the regiment of Col. Palmer, of Philadel- would pop, with a little yelp or signal, and and millions will respond where only a phia, now Gen. Palmer, President of the few stragglers are visible now. These Denver and Rio Grande R. ilway. After the truding. Game appears to be very plenty. few stragglers are visible now. I have plains may look parched and uninviting at present, but a very small amount of cipital and labor will make them gardens beside and labor will make them gardens beside having every confilence in his old combandor. He has been in the neighbor beautiful to the control of the comband labor will make them gardens beside the control of the combandor of the comban the sterile hills of Penn-ylvania and New Eugland. It matters not whether the na-England. It matters not whether the native American touches them or not, the foreigners, that are constantly landing on that road at Pitt burgh. He was subsequently landing or that road at Pitt burgh. He was subsequently landing or that road at Pitt burgh. our shores, will make them to 'bloom as quently located as agent and poymaster at the rose." The tilling of the soil and the Sheridan. Kit Carson, and finally at Den. of valuable stones, worth thousands, of planting of timber will bring with them ver. In the neantine Gen. Palmer was course, and they would have their effect bundant moisture. This has been fully demonstrated elsewhere. And with abund Rio Grande Rollway, and he tendered the up of adventurers.

came out warm and pleasant and it began to disappear very rapidly. For the first ten or fifteen miles out the read passed through an agricultural region, and I noticed several farmers threshing. The winter grain looks well, and where there is abundance of moi-ture the yield is said to be from 40 to 50 bushe's to the acre In fact some of the old settlers tell marvelous stories in regard to the productiveness of the soil when irrigated, but I shall not repeat them lest they might mislead some.

I stated above that I took the Denver

of the accustomed lines; delicate and dainty, they seem almost too faint and feeble for the lard, quick work to which they are made on foot.

The distance from the railway station to his family, formerly of Bedford. They first. Not by stopping cough, but by loss to print the same of the greater part of Sunday with our old friend Wm. C Shafer and mand. It gains and holds its reputation—

The distance from the railway station to his family, formerly of Bedford. They first. Not by stopping cough, but by loss the same of eaglet was ushered into being while I was called the specific properties and the specific properties and the specific properties and the specific properties as against 25 to 30 tons, putting about half the weight on the drive-wheels that the large locometries do: the resource rate in the specific properties and the specific properties and the specific properties are represented in the being while I was Josian Holsinger, I remery of Woodbury, in the neighborhood,) five miles; Chiann Bedford county. They reside out of Kansas City several miles, but eventually, if the reighborhood in the properties are represented in the properties of th notives do; the pas enger cars, being remedied in new cars now constructing; while sleeping cars and day drawingroom cars can be made for the narrow gauge roads, which will accommodate still 9 tons. The box cars for general merchandise weigh 4 tons, and carry from 8

to 9 tons.

It is astounding how the little thing does to Canon City, a distance of 40 miles up ORPHANS' COURT SALE. work! The ordinary passenger cars ran in the mountains. At the latter place the work! The ordinary passenger ears run in the mountains. At the latter place the as smoothly and as gently as the best Pull railway reaches coal mines, where the best Hudingdon county, I will expose to public sale or he were the best Pull. and read for hours without searcely wearying his eyes. It does seem to me that the
tains. Large quantities are being mined project is more than a success—it is a and shipped to Denver. It is supposed complete triumph of the men who have that the K. P. R. R. will run a branch of advocated the "Narrow Gauge." It is their road, from Kit Carson to Pueblo, for just the thing in a mountainous region or in an extremely billy country. It is little iron horse—quite a pony—pulled us just what the pe ple of Huntingdon want up the heavy grade towards Colorad

selected as President of the Denver and upon a population that is principally made demonstrated elsewhere. And who about ant moisture the most serious objection to these vast plains will be overcome.

Well, to return to where I parted with the second with t my readers yesterday morning. I took gable worker, strictly temperate and regular in his habits, and above all strictly Summer much disappointment will be fel.

grand. On your right you have the Rocky Mountains, thrust up from the plain, presenting a thousand cut and curved shapes, of Colorado Springs. Back from the tient is only hurried to his final resting the aution distance. They are extending the entire distance. They are Fountain, a tributary of the Arkansas, the place The pulse is said to be accelerated extending the entire distance. They are just far enough off to take away their naked ugliness and make them seem robed in a garb of gauze, while on your left, until you reach the "Colorado Divide," there is a succession of high bluffs upon which many of the Monumental Rocks are located. Upon the strange and varied groups here presented I could have gazed for hours.

Fountain, a tributary of the Arkansas, the plain is occupied by Ranchemen who raise and feed th us at do of cattle and sheep or a proportionate number of cattle. Millions of dollars are invested in the business. The soil is strongly impregnated with alkali, and eather the plain is occupied by Ranchemen who raise and feed th us at do of cattle and sheep or a proportionate number of cattle. Millions of dollars are invested in the business. The soil is strongly impregnated with alkali, and the plain is occupied by Ranchemen who raise and feed th us at do of cattle and sheep. We arrived at Denver on time, and an our or two later I was aboard of the K.

P. for Kansas City. I soon retired and was aroused the next morning for breakfast was a bad one for dyspeptics. Everything as hot as all eattle or sheep need very little if any hours.

When I left Denver there was considerable snow upon the ground, but the sun came out warm and pleasant and it began to disappear very rapidly. For the first

I stated above that I took the Denver and Rio Grande Railway. This miniature railway has created a tremendous sensation railway circles. It has settled the railway circles are the settled the pike's Peak looms up above it on the west about forty in attendance. It was real old fashioned question of the practicability of railways of a gauge not exceeding three feet. I am indebted to the editor of the Springfield (Mass.) Republican for a description of the equipment. He says: "The road and its trains, in the first place, look like a railway plaything, in contrast with the broader and heavier tracks and larger cars of the accustomed lines; delicate and daintend to the summand of the summit could only be reached by travelling about sixteen miles. Carriages can be used for a distance of perhaps ix miles in a direct line. My impression was that it resolved to get up a real old fashioned Fenn-ylvania supper. The bill of fare was were about forty in attendance. It was resolved to get up a real old fashioned it was not more than two and a half or three miles to the summit of it. But on inquiry I was told that the summit could only be reached by travelling about sixteen miles. Carriages can be used for a distance of eight rules, then mules for six miles in a direct line. Wy impression was that it removes the contain buckwheat cakes and map'e molasses, glade butter, oven-baked bread, saur kraut, apple butter, Monongahela whisky, &c., &c. It was very pleasant meeting these old fashioned Penn-ylvanian supper. The bill of fare was to opt and the summit of it. But on inquiry I was told that the summit could only be reached by travelling about sixteen miles. Carriages can be used for a distance of eight rules, then mules for six miles in a direct line. My impression was that it resolved to get up a real old fashioned Fenn-ylvania supper. The bill of fare was to opt and the rem-ylvania supper. The bill of fare was to opt and the rem-ylvania supper.
