

Circulation LARGER than any other Paper in the Juniata Valley.

Senator Tweed has resigned his seat.

The U. S. Senate adjourned on the 26th ult.

Lieut. Grant, son of the President, has been attached to Gen. Sheridan's staff.

Congressman W. W. Wheeler, of New York, drew his back pay, invested it in U. S. bonds and then cancelled the bonds.

A large number of new buildings, many of them elegant residences, are to be erected in Washington during the ensuing summer.

One hundred English farmers sailed in the City of Bristol, from Liverpool, on Tuesday, the 25th ult., for New York, to settle in Minnesota.

Cochise, the notorious Apache Chief, has gone on a reservation at Sulphur Springs, Arizona, with one thousand of his men, and it is thought he has abandoned the war path, at least temporarily.

Rear Admiral John B. Montgomery, U. S. Navy, died at Carlisle, Pa., on the 25th ult. He entered the navy in 1812, and was a midshipman on the flag ship Niagara at the battle of Lake Erie, in September, 1814.

We have received a prospectus of the Cumberland Valley State Normal School, Shippensburg, Pennsylvania, which is about to be opened for pupils. We are informed that it starts upon a much better footing than any other Normal School in the State.

We are indebted to A. R. Fulton, Esq., Secretary of the Iowa State Board of Immigration, for a copy of the "Manufacturing, Agricultural and Industrial Resources of Iowa." Any person desiring a copy of the pamphlet will be supplied by addressing a line to him, at Des Moines, Iowa.

The National Assembly of Spain, on Saturday of week last, unanimously passed the bill for the abolition of Slavery on the Island of Porto Rico, and giving the rights of citizenship to the emancipated slaves. Senor Figueras on behalf of the Ministry announced their determination to stand or fall by the bill.

The infamous Leaguers now try to convey the impression that the only League in existence, in this county, was the Union League. Bah! Was it the Union League that Aaron W. Evans, Esq., of Cassville, endeavored to swear M. W. Henton, Thos. Dean and Dr. Brown into repeatedly? Eh? Was it? And "several" others that we can mention?

The late vote on Local Option is not so favorable, in the aggregate, as the friends of Local Option and Prohibition could desire. It is pretty evident that the beer-drinking population, of the eastern counties voted solidly against the measure. There will have to be some concession to milder drinks before Local Option will become popular in eastern counties.

The following important session, after full debate, was adopted, by the Constitutional Convention in Committee of the Whole, by a vote of 54 yeas to 10 nays: The sale of intoxicating liquors or mixtures thereof containing the same for use as a beverage shall hereafter be prohibited. The Legislature shall within one year from the adoption of this constitution enact laws with adequate penalties for the enforcement of this provision.

The Supreme Court of Illinois has just rendered a decision which fixes the permanency of what is known as the State Temperance Law. Six agreed cases went to that court, and have been decided in favor of the law. Under the ruling the seller is put on the lookout for trouble, and made responsible for whatever evil may result from the traffic in which he is engaged.

The Secretary of War has left Washington for Chicago, and from thence he will proceed with General Sheridan, on a thorough tour of inspection of all the military posts and fortifications as far South as the Rio Grande. It is understood here that the great object of the Secretary's visit is to ascertain the cause of the troubles between the Indians and the Government. While the President is greatly encouraged with the results of his Indian peace policy, it has not had the success he desires. The Indian Peace Commission, and the Society of Friends, and all others who have tried their hands upon the Indians, have, to a greater or larger degree, failed. The Secretary of War will ascertain if possible what new measures, if any, are necessary to preserve friendly relations with the savages. The substance of the Secretary's report will be made the basis of some recommendation in the President's next annual message.

The Senate Committee on Congressional Apportionment have amended the House Bill, by striking off Blair and Cambria and attaching Juniata and Centre to this district. To this we emphatically object. We are well aware that there are parties who allege that the Republicans of Huntington county should be punished for their treacherous conduct, in the last two Congressional elections, but these good gentlemen will please remember that we have an infamous combination of pretended Republicans and Democrats, in this county, who are acting together for the very purpose which will be accomplished by the proposed district. We deny that the great majority of the party is in any way responsible for the treachery practiced, and to engulf us in a Democratic District is simply to refuse us a helping hand when we are endeavoring to shake off the treacherous scoundrels who have made defeat possible. Come, gentlemen, help us, to save the true Republicans of Huntington county.

THE LEAGUE'S USUAL TACTICS.

It is charged and admitted that it was the anti-Scott wing of the party that gave Speer his large vote in 1870. It was done as a matter of retaliation.—W. H. Woods.

Speer's majority in 1870, in Huntington county, was 586. Speer's majority in 1872, in Huntington county, was 471. It being admitted then, beyond all cavil, that Woods, Shadle, Laird, Logan and the rest of that ilk did, in 1870, support Speer; that those of them who lived in town did, on the evening of the election, that year, assemble in Mr. Woods' office to hear and receive over the returns from the rural districts, which indicated Speer's success; it being admitted then, by Woods himself, that "the retaliation" (of 3 to 8, and their followers, in every district,) gave Speer 586 majority in 1870, will you unprejudiced mind have any difficulty in accounting for the 471 majority of Speer's in 1872? Will any one doubt, for a moment, that the same work, which was done by the anti-Scott wing in 1870, was repeated in 1872?

The ostrich, as every one knows, is a large, ungainly bird, very swift of foot but unable to fly; its greatest peculiarity, however, is that when it is run down, has no means of defence, and seeks most hideously to escape from its pursuers, it hides its head in the sand, and, forgetful of the huge body still exposed, counts itself safe. Because it cannot see its pursuers the foolish bird flatters itself that they will be unable to find him.

So Mr. Woods knows, in his heart, where the responsibility rests for this district electing a Democratic Congressman for four years, and he kicks up a little dust about Springfield township, throws sand in his own eyes, and foolishly thinks that he can deceive the honest voters, in this and the neighboring counties, into the belief that he is a true Republican, having, at heart, the interests of his party. Forgetful of the huge body of facts, which he does not attempt to hide, he feels safe because he overlooks them, trusting to every one else's credulity to do the same.

Has he forgotten the caucus which nominated the guerrilla ticket of 1872? Does he not know that Lambers, Douglas and Bence ran against the Republican ticket last fall and that Speer and McNeil were parties to the arrangement? Now, no one is fool enough to suppose that Speer and McNeil were into this arrangement for any other purpose than to further their own election.

But Mr. Woods insists that Mr. Scott and his friends are responsible for Barker's defeat, and he ought to put the climax on his argument by stating that the way Mr. Scott and his friends did it, was by inducing Douglas, Bence and others to run with Speer and thereby disorganize the party. Cause and effect are inseparable, and he could make the one statement with just as much show of truth as the other.

The mention of the names of Douglas, Bence, Shearer, and Lambers, all staunch Republicans at delegate elections, and then only, will satisfy Republicans of Huntington county where Mr. Speer got his quarter disorganization sprang. No one in his sober senses ever, for a moment, classed these four patriots (?) Republicans as friends of Mr. Scott. Didn't Mr. Woods, in the mulo caucus last fall, say that "unless Henry Shearer was put on for the Legislature he wouldn't touch the combination ticket" and wasn't Henry Shearer accordingly put on? Mr. Woods, at a meeting in Juniata township, last fall, preserved an ominous silence in relation to the Congressional election and the county ticket, and Mr. Williamson, his law partner, asserted repeatedly that he would vote for McNeil in preference to Myton. If the Woods ring were so anxious to defeat Speer why did they not frown down, instead of encouraging, every effort to disorganize the party and breed dissatisfaction within the ranks; efforts which clearly tended towards the election of Speer? It would be a large task, but an easy one, to show the position every Woods man in the county held on the question of disorganization last year. All of our readers will remember that "retaliation" was their watchword last year, and they struck at Hare, Lightner, Lane, Myton, Kypser and Barker; in 1871 it was "retaliation," and they struck at Judge Clarkson; in 1870 it was "retaliation," and they struck down Morrell. The keeneest and most ironical "retaliation" we have seen yet, however, is for Woods and others to defeat Barker and then turn and charge the crime upon the very persons who supported him.

It is a familiar axiom in geometry that things which are equal to the same thing are equal to each other. That Speer, McNeil, Bence, Douglas and Lambers were in league, last fall, to elect each other, is known to all and admitted by all. That Bence, Shearer, Douglas and Lambers are leaders in the Woods league, that they support and are warmly supported by Jno. Logan, Shadle, Laird, Sam Glasgow, Benj. Davis, and Heider, is not true. That all of these men were in constant communication, last fall, was notorious. That Speer owes his election to their efforts is undoubted. Mr. Woods should be satisfied that getting dust in his own eyes does not necessarily blind every one else, and should take his head out of the sand into which he has plunged it.

Not a few of the retiring members of Congress have sought, and are still here seeking places in Washington or abroad for themselves. Though they could not get along, while in Congress, for less than \$7,500 a year, they are now willing and would be glad to accept a \$3,000 place at home or abroad, but cannot be gratified by a realization of their hopes, even at this modest figure.

REFORMS AND IMPROVEMENTS. There is a very general desire expressed among prominent men in official circles here to see some reforms introduced into the next Congress. Among these may be named an increase of the number of members on all important committees, the number to range from eleven to fifteen or seventeen members. As it is now the business of important committees is left to two or three of the most active members. It is also claimed that a portion of the committee meetings should be conducted with open doors, and permission granted to interested and well informed parties to present their views on the subjects under consideration. And at such meetings per-

THE LEAGUE'S USUAL TACTICS.

mission should be given to have the discussions and proceedings reported and published for the information of the public.

Another reform suggested is to consolidate the dozen or thirteen separate apportionment bills into one, to be prepared and ready for consideration at the commencement of the session, and passed within thirty days after its introduction. This would secure time for due deliberation and prevent the possibility of attaching to the bill improper appropriations and engineering them through, as is now done, in the hurry and confusion of the last hours of the session.

Another improvement urged in the adoption of the new system of voting by telegraph. This would save time, prevent delay by voting merely for purpose of delay, and secure a record of the names of all who vote and show upon which side they gave their vote.

Among the improvements to be carried out in the Senate wing of the Capitol during the summer, the introduction of fire pumps in the committee rooms, for the purpose of securing better ventilation; and an engagement with Mr. Brumidi to continue the work of frescoing according to plans and designs already prepared.

MILITARY INSPECTION. Secretary Belknap will leave Washington to-night on a tour of inspection of the military posts of the "Department of Missouri." Gen. Sheridan will go with him from Chicago, and they will proceed as far as the Western border of Texas on the Rio Grande. The Secretary of the Navy will act as Secretary of the War Department during Mr. Belknap's absence.

VISITORS TO THE PRESIDENT. Hereafter, while Congress is not in session, the President will receive unofficial visitors only on Mondays, Wednesdays and Thursdays.

THE PRESIDENT. The President, accompanied by Mrs. Grant and Miss Nellie Grant will leave Washington this evening on an unofficial visit to New York city.

THE PRESIDENT NOT GOING SOUTH. Senators Robertson and Paterson, with a delegation from South Carolina, appointed by the Legislature of that State, called upon the President this morning, and informed him that they had come to the conclusion to go to New York city, and not to the South.

SALES OF GOLD.—The Assistant Treasurer, at New York, has been directed to purchase \$200,000 of bonds on Wednesday, April 9, and on April 23, and to sell \$1,500,000 of gold on each Thursday during April, thus purchasing in all \$1,000,000 of bonds and selling \$5,000,000 of gold.

Centaur Liniment. There is no pain which the Centaur Liniment will not relieve, no swelling it will not subside, and no lameness which it will not cure. This is strong language, but it is true. Where the parts are not gone, its effects are marvelous. It has produced more cases of rheumatism, neuralgia, lock-jaw, palsy, sprains, swellings, cold sores, scalds, burns, stings, etc., etc., upon the human frame, than any other medicine known to the world. It is a counter-irritant, an all-pain reliever. Cripples throw away their crutches, the lame walk, paleonts bite their arched backs, and the wounded are healed without a scar. It is so homing, that it will cure even the most obstinate cases of rheumatism, neuralgia, lock-jaw, palsy, sprains, swellings, cold sores, scalds, burns, stings, etc., etc., upon the human frame, than any other medicine known to the world. It is a counter-irritant, an all-pain reliever. Cripples throw away their crutches, the lame walk, paleonts bite their arched backs, and the wounded are healed without a scar. It is so homing, that it will cure even the most obstinate cases of rheumatism, neuralgia, lock-jaw, palsy, sprains, swellings, cold sores, scalds, burns, stings, etc., etc., upon the human frame, than any other medicine known to the world. It is a counter-irritant, an all-pain reliever. Cripples throw away their crutches, the lame walk, paleonts bite their arched backs, and the wounded are healed without a scar. It is so homing, that it will cure even the most obstinate cases of rheumatism, neuralgia, lock-jaw, palsy, sprains, swellings, cold sores, scalds, burns, stings, etc., etc., upon the human frame, than any other medicine known to the world. It is a counter-irritant, an all-pain reliever. Cripples throw away their crutches, the lame walk, paleonts bite their arched backs, and the wounded are healed without a scar. It is so homing, that it will cure even the most obstinate cases of rheumatism, neuralgia, lock-jaw, palsy, sprains, swellings, cold sores, scalds, burns, stings, etc., etc., upon the human frame, than any other medicine known to the world. It is a counter-irritant, an all-pain reliever. Cripples throw away their crutches, the lame walk, paleonts bite their arched backs, and the wounded are healed without a scar. It is so homing, that it will cure even the most obstinate cases of rheumatism, neuralgia, lock-jaw, palsy, sprains, swellings, cold sores, scalds, burns, stings, etc., etc., upon the human frame, than any other medicine known to the world. It is a counter-irritant, an all-pain reliever. Cripples throw away their crutches, the lame walk, paleonts bite their arched backs, and the wounded are healed without a scar. It is so homing, that it will cure even the most obstinate cases of rheumatism, neuralgia, lock-jaw, palsy, sprains, swellings, cold sores, scalds, burns, stings, etc., etc., upon the human frame, than any other medicine known to the world. It is a counter-irritant, an all-pain reliever. Cripples throw away their crutches, the lame walk, paleonts bite their arched backs, and the wounded are healed without a scar. It is so homing, that it will cure even the most obstinate cases of rheumatism, neuralgia, lock-jaw, palsy, sprains, swellings, cold sores, scalds, burns, stings, etc., etc., upon the human frame, than any other medicine known to the world. It is a counter-irritant, an all-pain reliever. Cripples throw away their crutches, the lame walk, paleonts bite their arched backs, and the wounded are healed without a scar. It is so homing, that it will cure even the most obstinate cases of rheumatism, neuralgia, lock-jaw, palsy, sprains, swellings, cold sores, scalds, burns, stings, etc., etc., upon the human frame, than any other medicine known to the world.
