

How to Educate Animals.

The Bulletin de Paris has an article upon how to educate animals, very pleasantly told, as the following translation will show:

"To educate an animal is not to force its nature, but to tame and direct it, so as to make it fit for the service or the society of man. This is not a very difficult task for one who knows how to go about it. Most animals are drawn toward man, whose superiority they recognize by instinct, whom they are proud to please, whose love is agreeable, and whose protection is advantageous to them. But before these relations are established, there is an obstacle to be conquered—the distrust natural to the lower animals. The first step to be taken, then, is to secure the pupil's confidence."

"Unhappily many do just the contrary of what is necessary to secure this end. Some brutal men know only how to maltreat their animals, which do not obey because they do not understand; other men make playthings of them; and others fatigue them with importunate caresses—Do none of these things. What an animal demands is security. Never harm him, and you will have his confidence."

"When your first relations are established, he will come to be caressed of his own accord. Always be careful of him, but without feebleness or impotency. Never tolerate a vicious act; never allow yourself to be defied; but be indulgent for unintentional disobedience, or for any damage done unintentionally. In these last cases content yourself with making the animal understand wherein he is wrong, without too much severity. Well doing should always be rewarded with a caress. In habitual intercourse, be affectionate if you will, but first be reasonable. Do not be lavish if caresses; make them less frequent; but let your rule be gentle, peaceable, and just."

"Violence and blows are bad means of education for animals, as well as men. Force makes itself obeyed, but only on condition of continual action; a sad condition! It sometimes happens that despite reverts against even force; we often see this in the case of the ass, sometimes in that of the horse. Besides, in making yourself obeyed by other force, you drive from the horse all spontaneous action, his grace, his amiability, his ardor to obey you; without counting that, in using this means, you reserve for yourself an extreme resource for extreme cruelty. Look at the facts. Your poor asses are unmercifully beaten, and are stubborn. Your cruel teamsters overwhelm their horses with blows, and oftentimes can scarcely govern them, while the Arabs caress their, talk to them, live with them, and do with them what they wish. For my part, in my relation with animals, I always make it an amusing study to obtain their obedience with the least possible expense."

To Prevent the Decay of Shingles. The following is said to effectually prevent decay in shingles:—Take the potato kettle, or large tub, and put into it one barrel of oil of wood-shades, five pounds of white vitriol, five pounds of alum, and as much salt as will dissolve in the mixture. Make the liquor quite warm, and when you have dissolved in it, using this means, you reserve for yourself an extreme resource for extreme cruelty. Look at the facts. Your poor asses are unmercifully beaten, and are stubborn. Your cruel teamsters overwhelm their horses with blows, and oftentimes can scarcely govern them, while the Arabs caress their, talk to them, live with them, and do with them what they wish. For my part, in my relation with animals, I always make it an amusing study to obtain their obedience with the least possible expense."

Excellent Varnish for Harness. Pulverize in a jug or bottle half a pound to a pound of gum-shellac, covered with good alcohol, and cut finely. Put the mixture in a warm place. In about two days, if shaken frequently, the gum will be dissolved and ready for use. If the liquid appears as thick as thin molasses, add more alcohol. To one quart of the varnish add one ounce of gum camphor. An occasional coat of this is also good for rendering boots waterproof.

To Relieve Ingrowing Nails. This is a painful annoyance, and is treated with advantage in various ways. The most successful is to pare down the centre of the nail from root to end. Let it be worked down quite thin, so as to relieve the pressure at the sides, which causes the soreness. Keep the end of the nail pared down in the centre, giving it the concave form, just the reverse of the natural edge.

Miscellaneous.

GREAT DISCOVERY! KUNKEL'S BITTER WINE OF IRON. Kunkel's Bitter Wine of Iron will effectually cure Liver Complaint, Dyspepsia, Jaundice, Chronic or Nervous Debility, Chronic Diarrhea, Pleurisy of the Lungs, Stomach or Intestine, such as Constipation, Flatulence, Headache, Dropsy of Blood to the head, Fullness of the Stomach, Nausea, Disgust for Food, Pallor or Weight in the Stomach, Sinking or Fluctuating at the pit of the Stomach, Swelling of the Head, Swelling at the Heart, Choking or suffocating Sensations when in a lying posture, Yellowness of the Skin and Eyes, constant inspirations of evil and great depression of spirits. THEY ARE ENTIRELY VEGETABLE, and free from Alcohol, Stimulants and all injurious ingredients, and are pleasant in taste and smell, mild in their operation, and will remove impurities from the body, and give health and vigor to the frame.

KUNKEL'S BITTER WINE OF IRON. This truly valuable Tonic has been so thoroughly tested by all classes of the community that it is now deemed indispensable as a Tonic medicine. It cures but little, purifies the blood, gives tone to the stomach, renovates the system and prolongs life. We only ask a trial of this valuable Tonic. Price \$1 per Bottle. Dr. F. KUNKEL, Sole Proprietor, Depot 226 North 9th Street, Philadelphia, Pa.

\$100 REWARD for a case of Neuritis or Rheumatism of any form whatever, (considered curable) that Dr. F. Kunkel's Bitter Wine of Iron will cure—without surgery, and a physician's prescription used invariably. This valuable Tonic has been so thoroughly tested by all classes of the community that it is now deemed indispensable as a Tonic medicine. It cures but little, purifies the blood, gives tone to the stomach, renovates the system and prolongs life. We only ask a trial of this valuable Tonic. Price \$1 per Bottle. Dr. F. KUNKEL, Sole Proprietor, Depot 226 North 9th Street, Philadelphia, Pa.

DR. CROOK'S WINE OF TAR. Ten years of a public test has proved Dr. Crook's Wine of Tar to have more merit than any similar preparation ever offered to the public. It is rich in the medicinal qualities of Tar, and unequalled for disease of the

THROAT AND LUNGS, performing the most remarkable cure. It effectually cures all COUGHS and COLDS. It has cured so many cases of

ASTHMA AND BRONCHITIS, that it has been pronounced a specific for those complaints. For

PAINS IN THE BREAST, SIDE OR BACK, GRAVEL OR KIDNEY DISBASE, disease of the Urinary Organs, Jaundice, or any Liver Complaint it has no equal.

AND IRON. That Pale, Yellow, Sickly Looking Skin is changed to one of freshness and health. These

DR. CROOK'S COMPOUND SYRUP OF PORK ROOT. A soluble quality of iron combined with the medicinal properties of the

KEARNEY'S EXTRACT BUCHU. KEARNEY'S FLUID EXTRACT BUCHU, is the only known Remedy for Bright Disease and has cured every case of Diabetes in which it has been given.

Let it be worked down quite thin, so as to relieve the pressure at the sides, which causes the soreness. Keep the end of the nail pared down in the centre, giving it the concave form, just the reverse of the natural edge.

A strong alum water is sure death to bugs of any description. Take two pounds of pulverized alum, and dissolve in three quarts of boiling water, allowing it to remain over the fire until thoroughly dissolved. Apply while hot with a brush, or what is better, use a syringe to force the liquid in the cracks of the walls and bedstead. Scatter all the powdered alum freely in all these places, and you will soon be rid of these insect nuisances which fill one with disgust.

ASRES and lime are good fertilizers for potatoes, and if a small quantity of salt is added to the mixture the compost will be improved. Common wood horse ashes mixed with plaster have always served a good purpose for potatoes. Plaster sprinkled on the potato vines, soon after they appear above ground, and once or twice after, will exert a good influence in retaining the health of the potato.

POTATOES cut in small squares and put into crates or bottles with the water to wash them will clean them quickly and well.

Travellers' Guide.

HUNTINGDON AND BROAD TOP RAILROAD. Winter Arrangement. On and after March 25, 1872. Passenger Trains will arrive and depart as follows:

PENNSYLVANIA RAIL ROAD. TIME OF LEAVING OF TRAINS. WESTWARD. EASTWARD.

NORTH CENTRAL RAILWAY. On and after November 25, 1872, all trains will run as follows:

PENNSYLVANIA RAIL ROAD. On and after Monday, March 25, 1872. Passenger Trains in this Division, will run Daily, (Sundays excepted) as follows:

READING RAIL ROAD. TRAINS LEAVING HARRISBURG FOR NEW YORK AS FOLLOWS:

On and after Monday, March 25, 1872. Passenger Trains in this Division, will run Daily, (Sundays excepted) as follows:

On and after Monday, March 25, 1872. Passenger Trains in this Division, will run Daily, (Sundays excepted) as follows:
